CHILD WELFARE REPORTING REQUIREMENTS

SEMI-ANNUAL REPORT

FOR THE PERIOD OF

OCTOBER 1, 2017 THROUGH MARCH 31, 2018

ARIZONA REVISED STATUTES

[LAWS 2015, CHAPTER 257]

ARIZONA DEPARTMENT OF CHILD SAFETY

Page

CHILD WELFARE REPORTING REQUIREMENTS

Arizona Revised Statute §8-526 requires the Arizona Department of Child Safety (DCS) to compile information and produce a semi-annual report for the periods ending on March 31st and September 30th of each year regarding Child Welfare Services. This report is for the semi-annual reporting period beginning on October 1, 2017 and ending March 31, 2018.

TABLE OF CONTENTS

(Reporting period: October 1, 2017 through March 31, 2018)

EXECUTIVE SUMMARY	4
SEMI-ANNUAL COMPARISONS	10
REPORTS OF CHILD ABUSE AND NEGLECT	
Reports by reporting period and type of child maltreatment – statewide data	11
Sample communications to hotline, not meeting definition of a report	13
Reports received by priority - statewide data	13
Number of reports received by priority – county specific data	15
Number of reports received by maltreatment – statewide data	16
Number of reports received by maltreatment – state wide data	16
ASSIGNMENT OF INVESTIGATIONS	
Reports assigned for investigation by priority – statewide data	17
Reports assigned for investigation by priority – county specific data	18
Reports assigned for investigation by type of maltreatment – statewide data	19
Reports assigned for investigation by type of maltreatment – county specific data	19
INVESTIGATIONS OF CHILD ABUSE AND NEGLECT	
Reports not responded to by priority – county specific data	21
Investigations by priority – investigation open – statewide data	22
Investigations by priority – investigation open – county specific data	23
Investigations by type of child maltreatment – investigation open – statewide data	24
Investigations by type of child maltreatment – investigation open – county specific	
data.	24
Reports where removal occurred – county specific data	26
COMPLETED INVESTIGATIONS	
Substantiation rate by reporting period	27
Investigations by priority – proposed substantiated reports – statewide data	28
Investigations by priority – proposed substantiated reports – county specific data	28
Investigations by type of child maltreatment – proposed substantiated reports –	
statewide data	29
Investigations by type of child maltreatment – proposed substantiated reports – county	
specific data	30
Investigations by priority – substantiated reports – statewide data	31
	- 1

TABLE OF CONTENTS (continued)(Reporting period: October 1, 2017 through March 31, 2018)

	Investigations by type of child maltreatment – substantiated reports – statewide data
	Investigations by type of child maltreatment – substantiated reports – county specific
	data
	Investigations by priority – unsubstantiated reports – statewide data
	Investigations by priority – unsubstantiated reports – county specific data
	Investigations by type of child maltreatment – unsubstantiated reports – statewide data.
	Investigations by type of child maltreatment - unsubstantiated reports - county specific
	data.
FE	HAVEN INFANTS
	Number of Safe Haven infants delivered during reporting period
IL	DREN ENTERING OUT-OF-HOME CARE
	Total children entering out-of-home care
	New entries by county – children under 18 years voluntary placement
	New entries by county
	<u>New entries – statewide data</u>
<u>IL</u>	DREN IN OUT-OF-HOME CARE
	Children in out-of-home care by reporting period
	All children in care by age and ethnicity
	All children in care by case plan goal and placement type
	All children in care by placement type and age
	Children in shelter or receiving homes for more than 21 days
	Children in out-of-home care by length of time in care
	Children in out-of-home care by legal status.
	Children receiving and not receiving required visitation
ST	ER HOME LICENSING, CLOSURES, AND VISITATIONS
	Foster homes licensed.
	Child bed spaces available
	Foster homes closed and reason for closure
	Number of foster homes receiving the required visitation
IL	DREN EXITING OUT-OF-HOME CARE
	<u>Semi-Annual comparisons of total number exiting care – for all reasons</u>
	Total number exiting care.
	<u>Total number exiting care – for reason of reunification with parents</u>
	<u>Total number exiting care – for reason of living with other relatives</u>
	<u>Total number exiting care – for reason of adoption</u> <u>Total number exiting care – for reason of guardianship</u>

TABLE OF CONTENTS (continued)(Reporting period: October 1, 2017 through March 31, 2018)

<u>Total number exiting care – for reason of reaching age of majority</u>
Total number exiting care – for reason of transfer to another agency
Total number exiting care – for reason of runaway
Total number exiting care – for reason of death of child
Total number exiting care – by cause of death
Total number exiting for reason of death of child – with alleged abuse
HILDREN WITH CASE PLAN GOALS OF ADOPTION
The placement and number of children with case plan goals of adoption by age
The placement and number of children with case plan goals of adoption by ethnicity
Number of children with a petition for termination of parental rights
The placement and number of children with case plan goals of adoption by legal status
Number of children – length of time from change of case plan goals of adoption to
adoptive placement.
Number of children in an adoptive placement by the marital status of the adoptive
<u>parent</u>
Number of children in an adoptive placement by the relationship of the adoptive
parent
sruptions
Number of children with a case plan goal of adoption in an adoptive placement and
disrupted by age and ethnicity
Number of children with a case plan goal of adoption in an adoptive placement and
disrupted by the marital status of the adoptive parent
Number of children with a case plan goal of adoption in an adoptive placement and
disrupted by the relationship of the adoptive parent
DOPTIVE SERVICES
Number of children with a finalized adoption
Number of children with a finalized adoption by average length of time in out-of-home
placement before adoptive placement.
Number of children with a finalized adoption by average length of time in adoptive
placement before the final order of adoption
Number of Children with a finalized adoption by the marital status of the adoptive
parent
Number of children with a finalized adoption by the relationship of the adoptive parent

Executive Summary

The Arizona Department of Child Safety (DCS) is committed to achieving safety, permanency and well-being for Arizona's children and families. Driven by this commitment, as well as a desire to be a national leader for child safety through a well-run, efficient, and effective organization based on best practices, DCS developed the 2016-2020 Strategic Plan that outlined a clear and thoughtful approach to accomplishing these goals. Each year the Department refines its strategic goals to adapt to changing needs, successes and opportunities for improvement.

The important task of keeping children safe and strengthening families requires intentional preparation, sequencing of efforts, transparency, accountability, and continuous improvement. The Department's Strategic Plan provides a platform to address current issues and build for the future.

In State Fiscal Year 2018 (FY 2018), DCS outlined five strategic priorities for its strategic plan.

- 1. Improve timeliness to permanency.
- 2. Increase the placement of children in a family like setting.
- 3. Improve employee retention.
- 4. Develop and implement the agency IT infrastructure.
- 5. Develop implementation strategy for behavioral health services.

The Department has a cohesive vision that drives the development of strategic priorities to achieve its mission of successfully engaging children and families to ensure safety, strengthen families, and achieve permanency. By improving retention and providing a framework for safety assessment and management, DCS provides tools and resources that lead to high quality assessments. Providing staff with the time and tools to engage with family members leads to decisions about child safety that are consistent and accurate. In turn, accurate decisions lead to the identification of services and resources that are individualized to the family's needs and most likely to result in stronger families and timely permanency for children. Each initiative supports and drives the success of other initiatives.

In order to accomplish these priorities, DCS developed goals and objectives to accomplish the strategic priorities. The FY 2018 Strategic Plan goals, objectives, and accomplishments are outlined below.

GOAL #1: IMPROVE TIMELINESS TO PERMANENCY						
OBJECTIVES	ACCOMPLISHMENTS					
Complete Training for	All DCS Specialists and Supervisors completed SAFE AZ					
investigations and ongoing	training by the end of the first quarter of FY18. SAFE AZ is					
	a nationally recognized safety decision making model					
	developed by Action for Child Protection; known as SAFE.					
Implement SAFE AZ tools	The model encourages family success by recognizing that					
	each family is unique and every circumstance is different.					
	Informed decisions about child safety are made when					
Implement statewide field	sufficient information is gathered about the child and family					
standardization	conditions. Decisions are never made alone, they are made in					
	partnership with parents, youth, extended families,					

GOAL #1: IMPROVE TIMELINESS TO PERMANENCY						
OBJECTIVES	ACCOMPLISHMENTS					
Targeted permanency activities to reduce the number of children in Out-of-Home	supervisors and other child welfare experts. DCS provided continued training on safety assessments in February, March and April 2018.					
(OOH) care Expansion of prevention and	Policies, procedures, forms, training, and supporting documents were updated and finalized through the SAFE AZ model renovation efforts, with technical assistance from Action for Child Protection.					
intervention services and supports	Standardized work is a powerful tool and means all employees are conducting business processes in a consistent manner. In turn, this helps ensure predictable and consistent results. Leader standard work was developed for all leadership and supervisor positions. Over 80 percent of field offices have implemented the standard practices.					
	The number of children in OOH care has been safely reduced to under 15,000 children for the first time since 2013. There has been a 22 percent reduction from a high of 19,044 children in OOH care in March 2016 to 14,929 in March 2018. DCS has been able to reduce the total number of children in OOH care without experiencing an increase in the number of children re-entering care after being reunified. The rate of re- entry has remained stable throughout this period of reduction of children in OOH care.					
	The SENSE program continues to expand across Arizona. Initially in Maricopa County, the program is now in Pinal, Yuma, and Yavapai Counties, and most areas of Pima County. As of June 1, 2018, the SENSE program began in Cochise, Mohave, and Coconino Counties.					
	The Department is also expanding the availability of the Building Resilient Families in-home services to help prevent repeat abuse and/or neglect.					

GOAL #2: INCREASE THE PLACEMENT OF CHILDREN IN A FAMILY LIKE SETTING							
OBJECTIVES	ACCOMPLISHMENTS						
Refine and implement the foster family recruitment process	The Department has decreased the number of placement moves per 1,000 days from 3.21 in August 2017 to 2.5 in March 2018. In addition to efforts to reduce placement changes, the Department has been successful reducing the number of children in shelter care for more than 21 days by						

GOAL #2: INCREASE THE PLACEMENT OF CHILDREN IN A FAMILY LIKE SETTING						
OBJECTIVES	ACCOMPLISHMENTS					
Implement a standardized statewide placement process	31.4 percent from the previous reporting period at 673 to the current reporting period at 462.					
Improve supports to foster care providers	DCS centralized all placement resources under one administration and has begun standardizing the placement process across the State. The streamlined process improves efficiencies and reduces the amount of time it takes to identify a placement upon entry into care.					
Refine and implement						
partnerships with paid placements	DCS continues to place children in family-like settings at a high rate. In March 2018, children in out-of-home care spent 77 percent of their days in care in a family-like setting. This has remained relatively stable across the reporting period,					
Further expand Fostering Sustainable Connections (FSC)	with range from 77.4 percent to 77.0 percent.					
IV-E Waiver Project	Since its inception in July 2016, Fostering Sustainable Connections (FSC) received 232 referrals. As of March 2018, 126 of those referrals are currently active and 106 have been completed. There are currently 1,029 actively involved connections of the 4,511 that have been discovered. During the first quarter of CY 2018, 37 Fostering Sustainable Connections referrals were closed. Of these, 18 were closed due to the move to a less restrictive placement. This is a 43% increase from the total as of December 2017. The remainder have been closed due to relatives/supports being unwilling or unable to provide placement.					
	DCS is expanding its FSC projects to increase the number of children who can be safely served in-home or in a relative's home by engaging with children in congregate care and their families.					

GOAL #3: IMPROVE EMPLOYEE RETENTION								
Objectives	ACCOMPLISHMENTS							
Refine and implement employee "on boarding" experience	DCS Human Resources standardized the hiring and onboarding process and reduced the time to fill positions.							
Define and implement leadership development program for all people leaders	The rolling 12-month attrition for DCS Specialists fell from 32.1 percent in October 2017 to 30 percent in March 2018. Overall Agency attrition was 24.9 percent in March 2018, which was down from 27 percent in October 2017.							

GOAL #3: IMPROVE EMPLOYEE KETENTION					
Objectives	ACCOMPLISHMENTS				
Establish a culture of safety	DCS continues to pursue safety science practices. This				
and support for DCS staff	approach has changed the culture of assessing and examining				
	critical incidents when they occur moving from blame to				
Develop and implement an	accountability and to understand and learn as an organization.				
employee engagement strategy	This practice sees challenges and problems as opportunities to				
	improve and make systemic adjustments. It promotes an				
	organizational safety culture within DCS by responding to				
	situations in a manner that promotes learning, transparency,				
	and employee health. With technical assistance from				
	Collaborative Safety, DCS personnel participated in				
	Leadership Institute and Leadership Labs in which staff are				
	coached to problem solve through a Safety Science lens.				
	The Workforce Resilience team was developed and will				
	provide supportive responses, upon request, when an				
	employee experiences a difficult case circumstance, the				
	accumulation of workplace stress, and/or personal and family				
	stress.				

GOAL #4: DEVELOP AND IMPLEMENT THE AGENCY IT INFRASTRUCTURE						
Objectives	ACCOMPLISHMENTS					
Successfully deploy the mobile solution statewide, including field background checks	DCS took an innovative approach to digital transformation by deploying a "mobile first" strategy, allowing more than 1,400 caseworkers to adopt current mobile technology into their practice today and access real-time data and information in the field. The full IT installation plan of Mobile solutions was completed in December 2017. DCS Chief Information Officer, Linda Jewell, was nationally recognized as a recipient of the 2018 CIO 100 award after implementing this mobile technology.					
Design and implement safety assessment model in Guardian	The IT data governance and data quality plan has begun and 12 percent has been implemented as of March 2018.					
Implement a data quality plan for Guardian Implement the "Cloud First" strategy.	The Guardian team was established by hiring experts in all areas critical to the development of the new system (Intake, Assessment, Case Management, Permanency, Provider Management and Finance/Eligibility). User stories have been submitted to inform the development of Guardian to be responsive to user needs.					
	Microsoft Corporation was selected as the Technical Integrator for Guardian and will design, build, test, and ultimately deploy the new Guardian system.					

GOAL #3: IMPROVE EMPLOYEE RETENTION

DCS established a goal of maintaining 90 percent of all DCS managed applications in the 'cloud' by June 2018 and has successfully achieved and maintained that goal since September 2017.

GOAL #5: DEVELOP IMPLEMENTATION STRATEGY FOR BEHAVIORAL HEALTH SERVICES

Objectives	ACCOMPLISHMENTS
Development of a complete integration assessment,	An independent analysis of an Integrated Health Plan for children in foster care was completed in February 2018.
transition and recurring costs analysis and legislative change requirements	The Department will issue an RFI in FY2019 for an ASO model while CMDP will retain clinical operations and closely related business operations.

In addition to the strategic goals and objectives, the Department works diligently to provide safe, permanent homes for abused and neglected children. DCS has achieved numerous successes and continues to pursue additional improvement opportunities.

Licensed Foster Care, Adoption and Kinship Homes

DCS created the Foster Care and Adoption unit to centralize all the functions that impact the foster care and adoption recruitment process. The objectives are to support and retain licensed and unlicensed foster parents and maintain children's placement stability in a family-like setting. The unit is working to improve case manager and caregiver relationships; build a customer service team; and improve kinship and foster care supports.

Placement stability and family-like settings are always of paramount importance to children and the Department. The Statewide Placement Administration has been working to reduce the number of children in congregate care by identifying youth currently in group homes and searching for kinship placements. FSC continues to expand the Family Finding model to identify kin or fictive kin for older youth and help them to establish long and meaningful relationships and permanent placements. In addition, the Department is working closely with the Arizona Health Care Cost Containment System (AHCCCS) and the Regional Behavioral Health Authorities (RBHA) to review cases of children who have numerous placement changes and take a critical look at the supports and services needed to address the unique needs of these children and achieve placement stability, permanency, and successful transition to adulthood. Furthermore, the review seeks to ensure that the child's current diagnosis is addressed with the identification and delivery of services to the youth and caregiver.

Employee Retention

Turnover of Child Safety Specialists is a challenge to any child welfare agency, given the stressful nature of the work. Facing family crisis and child abuse and neglect on a daily basis can be mentally, physically, and emotionally taxing for DCS Specialists, Case Aides, Supervisors and

Program Managers, as well as the staff who support these positions. Therefore, the Department has adopted several key approaches to help staff better cope and adjust to the strain and pressure that accompanies a child safety worker's responsibilities.

As noted before, DCS has shifted its focus on critical incidents to a culture of safety and is pursing safety science practices. This approach, which has changed the culture of assessing and examining critical incidents when they occur moving from blame to accountability, is helping managers, supervisors and Specialist to feel supported when critical situations arise. This approach involves them in the process to examine and understand what occurred and how we can learn as an organization. It promotes an organizational safety culture within DCS by responding to situations in a manner that promotes learning, transparency, and employee health.

Additionally, DCS created and is implementing the Workforce Resilience team which provides supportive responses, upon request, when an employee experiences a difficult case circumstance, the accumulation of workplace stress, and personal and family stress. This peer-to-peer approach to helping staff cope with difficult and challenging situations will offer a safe and supportive environment with persons who understand their experiences.

The Department requests that employees who are resigning from DCS complete an exit survey. The results of these surveys have found that nearly half of staff who completed the survey are leaving for reason as being 'compensation not competitive' compared to prior surveys that highlighted 'quality supervision/management' as one of the main reasons for leaving employment with the Department. As training and supports for supervisors have improved and focus on coaching for supervisors will develop further in FY 2019, DCS anticipate this trend to continue.

The Department will be outlining new initiatives in FY 2019 to improve employee retention through improved supervision. This objective will define and implement a model and infrastructure for people and practice coaching by Program Supervisors and Program Managers. This will include evaluating the organizational design that supports ongoing coaching for supervisors and managers. It will also provide a structure for continued development of DCS leaders targeting various stages of supervision, from aspiring leaders to experienced leaders. The Department is also planning to develop and implement a training that better prepares staff to be a supervisor on 'day one' so that they start the position with basic supervisory and managerial skills needed to make the transition from Specialist to Supervisor.

	Semi-Annual Comparisons								
	Oct 2013 through Mar 2014	Apr 2014 through Sep 2014	Oct 2014 through Mar 2015	Apr 2015 through Sep 2015	Oct 2015 through Mar 2016	Apr 2016 through Sep 2016	Oct 2016 through Mar 2017	Apr 2017 through Sep 2017	Oct 2017 through Mar 2018

Semi-Annual Comparisons

¹ Since the appeals process delays the substantiation of reports, revisions to the substantiation rate for the prior reporting period will occur with every semi-annual report produced.

² The number of available foster homes includes homes reported by the Department's Home Recruitment, Study and Supervision contractors along with foster homes utilized for appropriate children in coordination with the Division of Developmental Disabilities.

³ The report run date was June 02, 2018.

⁴ Data is provided by HRSS provider agencies.

Reports of Child Abuse & Neglect

Child abuse and neglect are defined in A.R.S. §8-201 and A.R.S. §13-3623(A). These definitions provide the major categories in this report.

Between October 1, 2017 and March 31, 2018, there were 24,093 incoming communications to the Child Abuse Hotline that met the criteria for a report of abuse or neglect. Of these, 423 were within the jurisdiction of military or tribal governments and were referred to those jurisdictions. Compared to one year ago, there has been a 2.2 percent increase in reports received by the Child Abuse Hotline meeting the criteria of a report of abuse or neglect.

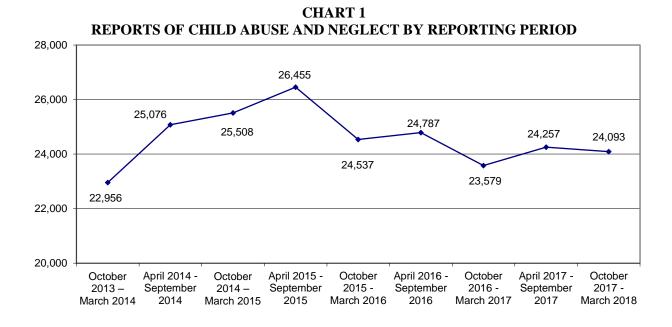

Table 1 shows the number of reports received by the Department by category of maltreatment for the current and past reporting periods. The Department continues to examine current Child Abuse Hotline policies and procedures to improve objectivity within screening tools and improve interrater reliability.

	Neglect	Physical Abuse	Sexual Abuse	Emotional Abuse	Total
October 2012 – March 2013	14,916	6,263	815	167	22,161
	67.2%	28.3%	3.7%	0.8%	100.0%

	69.5%	26.1%	3.9%	0.5%	100.0%

 TABLE 1

 REPORTS BY REPORTING PERIOD AND TYPE OF MALTREATMENT

Chart 1 illustrates that the number of reports received by the Centralized Intake Hotline has decreased by 164 reports over the prior reporting period.

The Centralized Intake Hotline received a total of 80,004 calls offered during the reporting period. 3,046 were abandoned before the Specialist answered. 24,093 calls met the statutory requirements for abuse and neglect. A random sample was selected from 52,865 communications to represent the types of calls that do not get classified as reports of abuse and neglect. This random sample is contained in the chart below.

CHART 2 SAMPLE OF COMMUNICATIONS TO THE CENTRALIZED INTAKE HOTLINE THAT DO NOT MEET THE STATUTORY REQUIREMENTS OF A REPORT OF ABUSE OR NEGLECT

- **B** = Out of DCS Jurisdiction
- **C** = Call Appropriate for Law Enforcement Jurisdiction³
- **D** = Non-Caretaker Neglect/Child No Longer at Risk
- **E** = Insufficient Information
- F = Truancy/Custody Issues
- **G** = Current Case Questions or Referrals

The Department shall ensure accurate assessments and proper classification of communications containing concerns of abuse or neglect of a child which have been determined not to meet statutory criteria for a DCS report by performing weekly quality assurance reviews of these communications.

³ The category "Call Appropriate for Law Enforcement Jurisdiction" refers to a situation where the alleged perpetrator is not a parent or primary caretaker and the allegations, if true, would constitute a crime.

Chart 3 below provides information on the number of reports that met each of the Centralized Intake Hotline priority classifications in the current and past reporting periods. In Table 2 and Table 3, data on total reports by priority is shown by county for the current and previous reporting periods. The priority determinations are made by personnel at the Child Abuse Hotline after the review of multiple factors, however, below is a high level summary of each response time criteria.

PRIORITY 1: Death of a child, near fatality, abuse or neglect that threatens to immediately cause, or has caused, serious harm or death, Serious physical injuries to a child (including but not limited to fractures, burns, multiple plane injuries, acceleration/deceleration injuries [shaken baby syndrome], injury to internal organs, etc.), child is alone and is not capable of caring for self or other children, evidence or disclosure of sexual abuse toward a child and the perpetrator has access to the child or the perpetrator is unknown, Substance Exposed Newborn (SEN) who is expected to be discharged from the hospital within 24 hours; ¹

PRIORITY 2: Abuse or neglect of a child age 0-3, Abuse or neglect of a vulnerable child, and the child or perpetrator has been the subject of a prior report (this includes the child as a victim in a prior report or the adult as a perpetrator in a prior report), All criminal conduct allegations not requiring a Priority 1 response;

PRIORITY 3: Abuse or neglect of a child that occurred within the last 12 months and does not require a Priority 1 or 2 response; and

PRIORITY 4: Private Dependency Petition, abuse or neglect that has occurred over one year ago and does not require a Priority 1, 2 or 3 response.

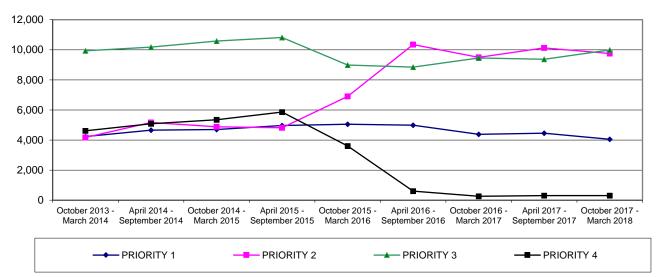

CHART 3 NUMBER OF REPORTS RECEIVED BY PRIORITY

As of February 1, 2016, the definition for each priority level changed. Data from this report and all future reports will use these new definitions.

TABLE 5NUMBER OF REPORTS RECEIVED BY TYPE OF MALTREATMENT AND COUNTY FOR
PERIOD OF APRIL 1, 2017 THROUGH SEPTEMBER 30, 2017

ASSIGNMENT OF INVESTIGATIONS

The following tables and charts in this section provide statewide and county level information for reports assigned to DCS (excluding those that fell within the jurisdiction of military or tribal governments). Of these, DCS completed 22,994 (97.1 percent) of their assigned investigations. Those not completed remain open when the investigation is still in process, when the specialist is waiting for the results of a law enforcement investigation and/or receipt of records that impact the investigation finding, or when the investigation has been completed but is awaiting supervisory review and approval.

By statute, DCS is required to provide the "number of reports not responded to, by priority, by county and statewide. The report shall include a description of some of these cases as chosen by random sample." This sample is to describe why the Department did not respond to a report regardless of whether the response was mitigated, timely or aggravated. As all reports were responded to during this period, there is no data to be displayed in Chart 7 or Table 10. Chart 7 would have displayed the reports in brief descriptive categories.

All reports were responded to during this reporting period. Therefore, no data will be displayed in Chart 7 below.

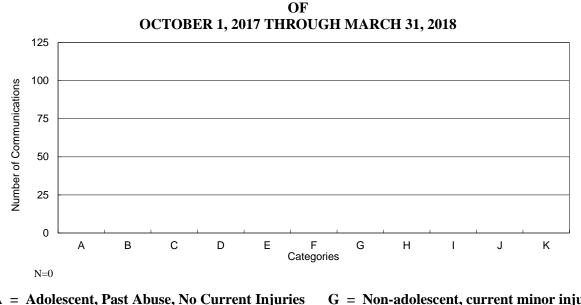

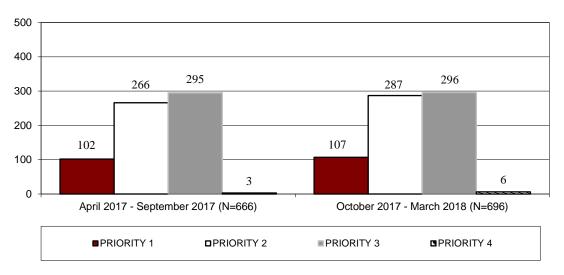

CHART 7 NUMBER OF REPORTS WITHOUT RESPONSE DATA BY CATEGORY FOR THE PERIOD

A = Adolescent, Past Abuse, No Current Injuries

- **B** = Inadequate Housekeeping Standards
- **C** = Inappropriate Vehicle Operation
- **D** = No Specific Allegations
- **E** = **Past Abuse no current injuries**
- **F** = Adolescent, current minor injuries
- **G** = Non-adolescent, current minor injuries
- **H** = Poor parenting skills
- I = Left with inappropriate caregiver
- **J** = Law Enforcement Issue
- **K** = Out of Control Teenager

CHART 8 NUMBER OF REPORTS ASSIGNED FOR INVESTIGATION BY PRIORITY AND **REPORTING PERIOD FOR REPORTS OPEN FOR INVESTIGATION**

The Department worked diligently to reduce the total number backlog cases and overdue investigations. This effort has led to a significant reduction in overall open reports as noted previously and thus has demonstrated a significant decrease in the number of reports assigned for investigation by priority for reports open for investigation compared to the prior reporting period.

COMPLETED INVESTIGATIONS

A substantiated report occurs when the Department has determined that at least one of the allegations in the report of abuse and/or neglect is true. The number of reports that are considered substantiated are a subset of the total number of reports that were received, investigated, and closed during the reporting period.

The preliminary number of reports that are substantiated for the current reporting period is 773. For the prior reporting period, the number of reports that were assigned for investigation that resulted in substantiated findings was revised from 497 to 3,710. This number will change each reporting period as a result of subsequent decisions based on parents' rights to due process as well as the completion of investigations and findings. As noted previously, the number of removals this reporting have decreased but the preliminary number of reports that are substantiated may also be a result of the high volume of cases still requiring review by the Protective Services Review Team and cases awaiting trial in Juvenile Court.

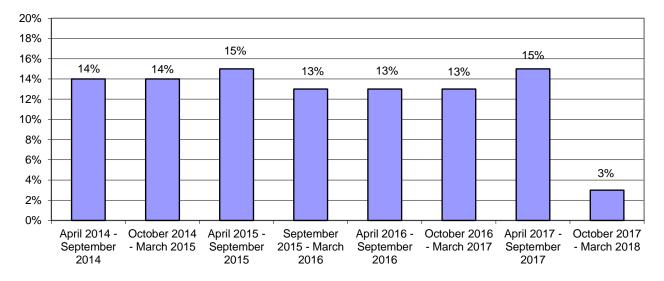

CHART 11 SUBSTANTIATION RATE BY REPORTING PERIOD

Information on both proposed substantiations and finalized substantiations is provided in the charts and tables below:

SAFE HAVEN INFANTS

Communications from providers indicate that there were no newborn infants delivered to Safe Haven providers during the October 2017 – March 2018 reporting period. This compares to one newborn infant being delivered to Safe Haven providers during the prior reporting period.

CHILDREN ENTERING OUT-OF-HOME CARE

During the current reporting period, 4,600 children entered care, which represents a 6.2 percent increase in children entering care over the prior reporting period and a 12.2 percent decrease over the same reporting period last year. The number of children exiting care is now outpacing the number of children entering care (see Table 35 for children exiting care).

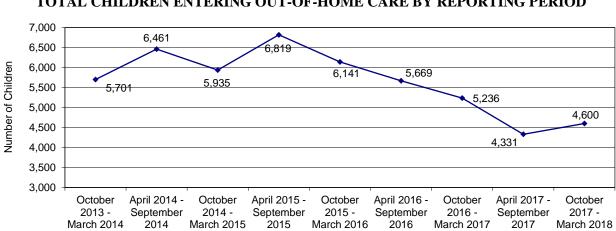

CHART 18 TOTAL CHILDREN ENTERING OUT-OF-HOME CARE BY REPORTING PERIOD

CHILDREN ENTERING OUT-OF-HOME CARE – VOLUNTARY SERVICES

Voluntary foster care may be provided when the parents or legal guardians of a child have requested such assistance and have signed a legally binding written agreement for the temporary placement of the child in foster care while risk factors are addressed to enable the child to live safely at home. A.R.S. § 8-806 authorizes the Department to provide voluntary foster care placement for children for a period not to exceed 90 days and no more than twice within 24 consecutive months unless a dependency petition is pending.

*The data for this prior reporting period has been updated.

NUMBER OF CHILDREN ENTERING OUT-OF-HOME CARE

The total number of children entering out-of-home care (of which voluntary placements are a subset) in the current reporting period was 4,600 children entered care, which represents a 6.2 percent increase in the total number of children entering out-of-home care from the prior reporting period. Chart 19 displays the number of removed children, and then further differentiates new removals by providing the number with a prior removal in the past 12 months and the past 12 to 24 months.

⁴ When children do not have a placement identified in the CHILDS database, this is most often attributable to a lag in data entry or data errors. This data is updated on an ongoing basis through a continuous quality assurance process.

⁵ This category includes shelter, detention, and hospital placement types.

⁶ This category includes children whose parents absconded with the child(ren) or were missing children who could not be located during the process of the investigation.

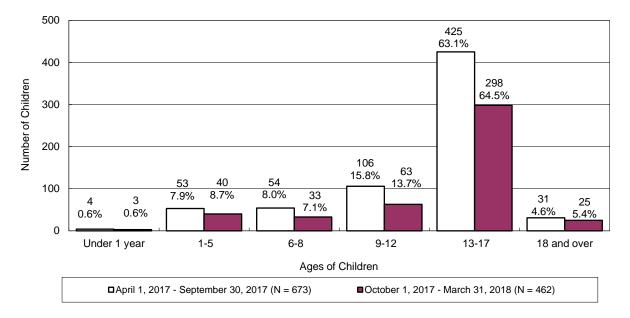

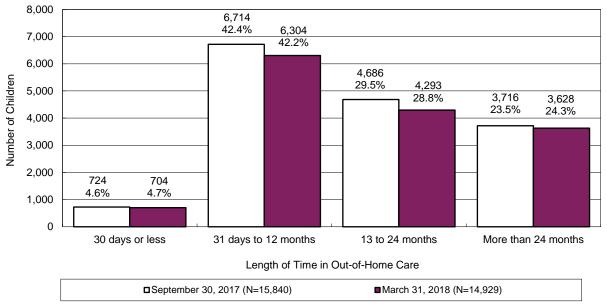

CHART 25 NUMBER AND PERCENTAGE OF CHILDREN IN SHELTER OR RECEIVING HOMES FOR MORE THAN 21 CONSECUTIVE DAYS BY AGE OF CHILD⁷

CHART 26 THE NUMBER OF CHILDREN IN OUT-OF-HOME CARE BY LENGTH OF TIME IN CARE

⁷ The chart displays children who spent more than 21 days in a shelter during the period. This number differs from the other outof-home charts as they display children in out-of-home care on the last day of the reporting period.

TABLE 34
PLACEMENT INFORMATION FOR CHILDREN IN
OUT-OF-HOME CARE ON MARCH 31, 2018

Chart 27 demonstrates that the vast majority of children in out-of-home care fall into one of three legal statuses – adjudicated dependent, legally free for adoption, and children in the Department's temporary custody.

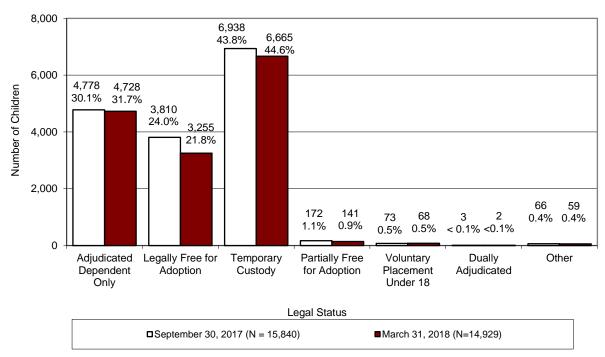

CHART 27 CHILDREN IN OUT-OF-HOME CARE BY LEGAL STATUS

⁸ Some children are so impacted by the severity of the abuse they have suffered that they become unable to form meaningful relationships or to respond to services. These children tend to experience multiple placements with numerous individuals and agencies.

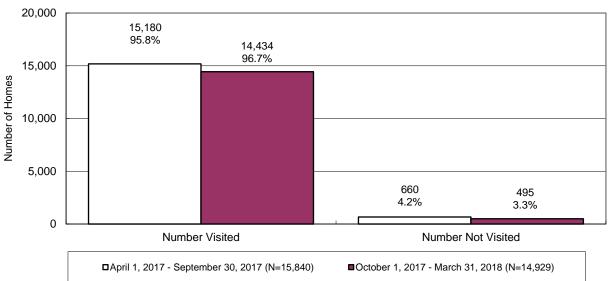

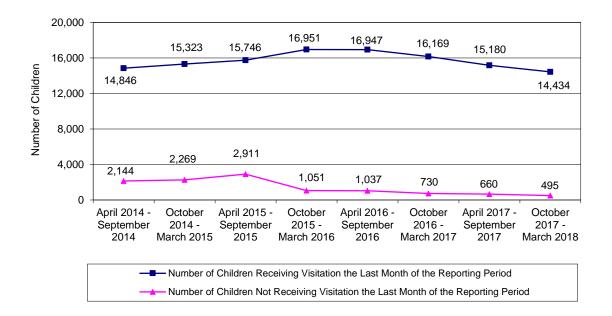

CHART 28 THE NUMBER AND PERCENTAGE OF CHILDREN WHO RECEIVED THE REQUIRED VISITATION

Department policy requires specialists to have face-to-face contact with all parents at least once a month, including any alleged parents and parents residing outside of the child's home where the case plan goal is family reunification. During the current reporting period, there were 5,071 parents who had a child with the case plan goal of reunification. Of those parents requiring visitation, 3,287 (64.8%) received the required visitation. This number does not reflect attempted visitation where contact with the parent(s) did not take place.

CHART 29 NUMBER OF CHILDREN RECEIVING AND NOT RECEIVING VISITATION BY REPORTING PERIOD

FOSTER HOME LICENSING, CLOSURES, & VISITATION

As of March 31, 2018 there were 5,213⁹ foster homes licensed for a total capacity of 10,211 spaces. Of these spaces, 2,734 are reported by contractors to be unavailable for placements. Reasons for this include, but are not limited to, beds held for respite, readiness assessment by the contractor, specific high needs of a child currently placed in the home, foster parents' need for temporary reprieve from placements and investigations or corrective action plans.

Licensed foster homes include family foster homes, professional family foster homes (HCTC homes), respite foster homes, receiving foster homes, and developmentally disabled homes with DCS children placed in them. Foster home licenses specify the age range, gender and maximum number of children that can be placed in a home. Foster parents, in consultation with the licensing worker, decide the type of physical, behavioral, and psychological needs of children they can effectively parent based upon their own skill level, experiences, and desires.

During the current reporting period, 681 new homes were licensed to provide foster care and 945 homes left the system. This compares to 850 new homes being licensed and 1,059 homes leaving the system during the prior reporting period. The following chart gives the reasons for foster home closures for the current reporting period.

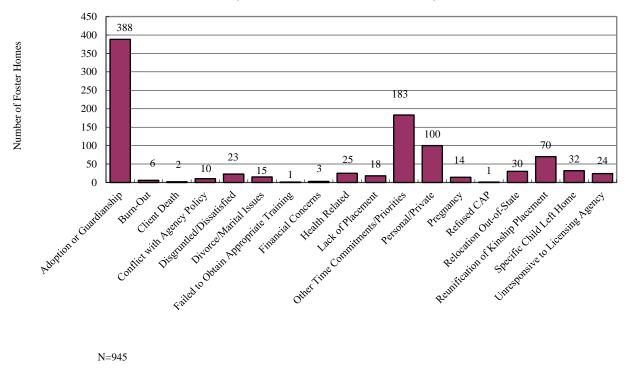

CHART 30 REASON FOR FOSTER HOME CLOSURE FOR THE PERIOD OF OCTOBER 1, 2017 THROUGH MARCH 31, 2018

⁹ The number of homes cited in this report differs from the number cited by the Office of Licensing, Certification & Regulation (OLCR) due to the fact that the DCS utilizes both foster homes managed through HRSS contracts as well as homes that are licensed for developmental disabilities, licensed by the tribes, etc.

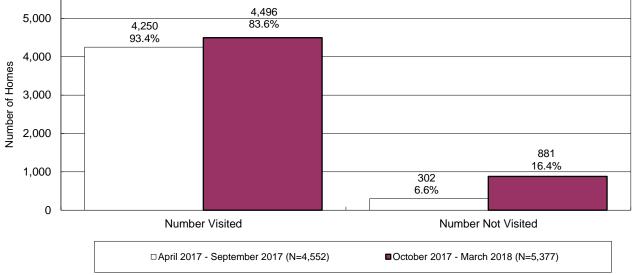

CHART 31 THE NUMBER AND PERCENTAGE OF FOSTER HOMES WHO RECEIVED THE REQUIRED VISITATION*

*Required visitations to foster homes, for license monitoring purposes, are performed by licensing agency specialist.

The number of child maltreatment deaths presented in the Semi-Annual Report is not comparable to child maltreatment deaths reported on the website by the Arizona Department of Child Safety (ADCS).

DCS posts information in accordance with A.R.S. § 8-807 on child fatalities due to abuse or neglect by the child's parent, custodian or caregiver at: <u>https://dcs.az.gov/news/child-fatalities-near-fatalities-information-releases</u>.

• This information is posted when the information comes to DCS's attention and a final determination of the fatality due to abuse or neglect has been made by either a substantiated finding or specific criminal charges filed against a parent, guardian or caregiver for causing the fatality.

• The information that comes to DCS's attention and the determination of the fatality due to abuse or neglect may occur sometime after the actual incident for a number of reasons including a determination by a medical professional, a medical examiner, or a criminal child abuse arrest and charge of the perpetrator.

CHILDREN WITH CASE PLAN GOALS OF ADOPTION

Of the 14,929 children in out-of-home care on March 31, 2018, there were 4,476 or 30 percent who had a case plan goal of adoption. The age and ethnicity of the children with a case plan goal of adoption are displayed in Chart 36 and Chart 37.
