**Families In Recovery
Succeeding Together**
Substance Abuse Program

The Vision of the Substance Abuse Treatment Fund Partnership is to build a family-centered service delivery system, which promotes family independence, stability, self-sufficiency, and recovery from substance abuse, assures child safety and supports permanency for children.

ARIZONA
DEPARTMENT
of **CHILD SAFETY**

WHAT CAN I EXPECT?

A substance abuse treatment agency will contact you within 24 hours of receipt of the referral to schedule an intake.

Once you agree to accept services, a comprehensive substance abuse assessment is initiated within seven days. At the conclusion of the assessment, you will receive a recommendation for the appropriate level of care and services, depending on your needs, and a service plan will be developed with you.

Your first treatment service should occur within 14 days following the assessment. Ongoing communication between your DCS or DES/TANF case manager and the treatment agency occurs to help you succeed.

WHAT DO AFF SERVICES INCLUDE?

If treatment services are recommended, you will receive a combination of group and individual counseling, case management, education about the effects of drugs and alcohol on you and your family, and random drug and alcohol testing throughout the program.

HOW DO THESE SERVICES BENEFIT ME AND MY FAMILY?

AFF services are designed especially for you and your family. All of you will be involved, as much as possible, in developing a service plan to help your family become stronger.

Your spouse/partner and children will also attend sessions to help them learn about how your drug/alcohol use affects them and how best to support you in your treatment.

Couples and family counseling is also available so your relationships can be strengthened and problems can be worked out together.
