

Douglas A. Ducey Governor

Gregory McKay Director

July 31, 2015

The Honorable Douglas A. Ducey Governor of Arizona 1700 West Washington Phoenix, Arizona 85005

Re: Semi-Annual Child Welfare Reporting Requirements

Dear Governor Ducey:

Pursuant to A.R.S. § 8-526, on July 27, 2015, the Arizona Department of Child Safety (DCS) submitted the semi-annual report on child welfare for the period of October 1, 2014 through March 31, 2015. This report provided information relative to reports of child abuse and neglect, investigations, shelter and receiving home services, foster homes, length of care, and adoptions.

It was originally reported that the Department's Office of Licensing and Regulation licensed 1,541 new foster homes while 785 homes left the system. As a result of a continuing review of the data in this report, the Department discovered that the number of newly licensed foster homes for this reporting period was in error. The actual number of newly licensed foster homes for this reporting period was 821 with the same number of foster homes leaving the system at 785 leaving a net gain of 36 additional foster homes.

We apologize for this error and have already begun establishing additional mechanisms to ensure the review of this data is accurate and that this error does not occur in the future. We will post the corrected version of this report to our website immediately.

If you have any questions, please contact me at (602) 255-2500.

Sincerely,

Gregory McKay

Director

Enclosure

CHILD WELFARE REPORTING REQUIREMENTS

SEMI-ANNUAL REPORT

FOR THE PERIOD OF

OCTOBER 1, 2014 THROUGH MARCH 31, 2015

ARIZONA REVISED STATUTES
[LAWS 2011, CHAPTER 147]

ARIZONA DEPARTMENT OF CHILD SAFETY

CHILD WELFARE REPORTING REQUIREMENTS

Arizona Revised Statute § 8-526 requires the Arizona Department of Child Safety (DCS) to compile information and produce a semi-annual report for the periods ending on March 31st and September 30th of each year regarding Child Welfare Services. This report is for the semi-annual reporting period beginning on October 1, 2014 and ending March 31, 2015.

Executive Summary

The Arizona Department of Child Safety is pleased to publish this semi-annual report for October 2014 through March 2015 in compliance with A.R.S. § 8-526. This report is intended to provide its readers an opportunity to review the impact of the Department's process improvements in relation to key performance indicators.

In May 2014, the Department of Child Safety was created as a permanent, stand-alone agency with the express mission of safeguarding Arizona's abused and neglected children. The legislation enacted on May 29, 2014 included additional funding for an increase in child safety specialists and case aides.

The data contained within this Semi-Annual Report assists with identifying where continued focus is needed by the Department, stakeholders, policy makers, and advocacy groups. By working collaboratively to address the needs of children and to prevent child abuse, additional targeted resources and strategies that are put in place to improve outcomes for children will be implemented in a more coordinated and timely manner.

Child Abuse Hotline and Investigations

The statewide Child Abuse Hotline received 25,508 calls that met the statutory criteria for a report. Of the reports subject to substantiation during this reporting period, the preliminary number of reports that were substantiated is 1,606 (6%). An additional 1,422 were proposed for substantiation by child welfare specialists and are currently awaiting the results of the appeals process. Over time, the number of substantiated and proposed substantiated reports associated with this time period will increase as investigation findings are entered into CHildren's Information Library and Data Source (CHILDS).

Children in Out-of-Home Care

The Department remains committed to working with the community to keep children safe and prevent the need for children to be removed from their homes. Notwithstanding this commitment, the number of children in out-of-home care increased from 16,990 in the prior reporting period to 17,592 in March 2015.

The Department continues to make efforts to place children who have been removed from their home in the most family-like setting possible. In March 2015, 14,176 children – or approximately 80.5 percent of all children in out-of-home care – were placed with relatives or licensed foster parents. An additional 35 children were placed with their parents on a trial home visit and 503 youth were residing in independent living settings. Efforts to increase the number of licensed foster parents who are able to meet the needs of children requiring out-of-home placement resulted in 821 new homes being licensed during the reporting period.

The state requires monthly face-to-face visitation with children in foster care. The current report shows that 87.1 percent of the children in foster care received their visitation during the last month of the reporting period. There is a strong correlation between caseworker visits with children and

positive outcomes for these children, such as achieving permanency and other indicators of child well-being. The Department continues to make efforts to improve our rate of visitation.

Permanency for Children

The Department continues to work toward achieving permanency for children placed in out-of-home care. Arizona is a national leader in the number of finalized adoptions. The total number of children achieving permanency through adoption was 1,629 during this reporting period, compared to 1,552 during the same reporting period last year.

Challenges

The Department continues to face both workload and process challenges in its efforts to ensure safety and promote permanency for abused and neglected children. Examples of the more pressing challenges the Department continues to face include:

- Increased number of children in out-of-home care
- Significant backlog of overdue investigations
- Improving the hiring and training of qualified personnel

As noted previously, the legislation enacted to create the Department included funding to increase the number of child safety specialists. Hiring these specialists during fiscal year 2015 presented significant challenge to the Department. However, in March 2015 the Department filled nearly all of its budgeted positions for child safety specialists including staff at the Hotline.

Additionally, the Department continues to develop strategies to mitigate challenges that include:

- The high prevalence of substance abuse in clients which exacerbates client problems.
- The recruitment of foster and adoptive homes for youth ages 12 to 18 years old and sibling groups.

The Department continues to assess processes and program controls to identify ways to address these challenges. Solutions will include partnering with the community and stakeholders to ensure that the safety and wellbeing of the children is always the top priority. The Department continues to work in partnership with the federal government to meet the federal Child and Family Service Review (CFSR) standards to improve outcomes for the children and families it serves.

| Number of Foster Homes Closed | 681 | 679 | 747 | 740 | 715 | 787 | 822 | 785 |
| Number and Percentage of Foster Homes Receiving Visitation In the Last Qtr. Of Reporting Period | 3,121 (89.3%) | 3,132 (79.9%) | 3,095 (82.6%) | 3,316 (92.7) | 3,491 (89.5%) | 3,689 (85.2%) | 3,949 (89.8%) | 3,881 (86.3%) |
| Number and Percentage of Foster Homes not Receiving Visitation | 375 (10.7%) | 790 (20.1) | 653 (17.4%) | 260 (7.3%) | 409 (10.5%) | 640 (14.8%) | 448 (10.2%) | 616 (13.7%) |
| Number of Children Leaving DCS Custody | 3,574 | 3,826 | 3,923 | 4,668 | 4,805 | 4,786 | 5,042 | 5,063 |
| Number of Children With a Case Plan Goal of Adoption | 2,561 | 2,663 | 2,719 | 2,852 | 3,311 | 3,417 | 3,377 | 3,449 |
| Number of Children With a Finalized Adoption | 1,078 | 1,224 | 1,025 | 1,270 | 1,215 | 1,518 | 1,552 | 1,629 |

¹ Since the appeals process delays the substantiation of reports, revisions to the substantiation rate for the prior reporting period will occur with every semi-annual report produced.

² The number of available foster homes includes homes reported by the Department's Home Recruitment, Study and Supervision contractors along with foster homes utilized for appropriate children in coordination with the Division of Developmental Disabilities.

Reports of Child Abuse & Neglect

Child abuse and neglect are defined in A.R.S. §8-201 and A.R.S. §13-3623 (A). These definitions provide the major categories in this report.

Between October 1, 2014 and March 31, 2015, there were 25,508 incoming communications to the Child Abuse Hotline that met the criteria for a report of abuse or neglect. Of these, 326 were within the jurisdiction of military or tribal governments and were referred to those jurisdictions. Compared to one year ago, there has been an 11.1% increase in reports received by the Child Abuse Hotline meeting the criteria of a report of abuse or neglect.

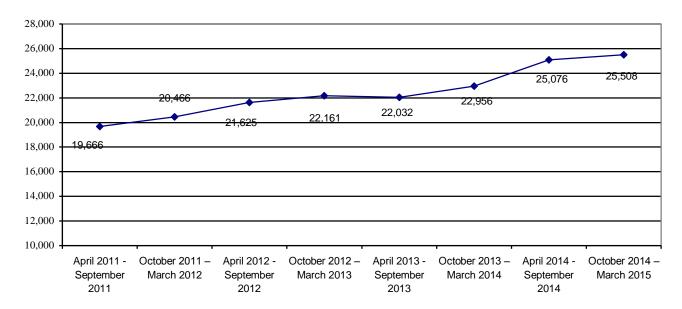

Table 1 shows the number of reports received by the Department by category of maltreatment for the current and past reporting periods. One consistent trend is the increase in the proportion of reports that meet the criteria of neglect. The Department is examining current Child Abuse Hotline policies and procedures to improve objectivity within screening tools and improve inter-rater reliability.

TABLE 1
REPORTS BY REPORTING PERIOD AND TYPE OF MALTREATMENT

| | Neglect | Physical Abuse | Sexual Abuse | Emotional Abuse | Total |
|-----------------------------|---------|----------------|--------------|-----------------|--------|
| April 2011 – September 2011 | 13,158 | 5,615 | 739 | 154 | 19,666 |

| | 67.2% | 28.3% | 3.7% | 0.8% | 100.0% |
| April 2013 – September 2013 | 15,560 | 5,607 | 731 | 134 | 22,032 |
| | 70.6% | 25.5% | 3.3% | 0.6% | 100.0% |
| October 2013 – March 2014 | 15,766 | 6,248 | 772 | 170 | 22,956 |
| | 68.7% | 27.2% | 3.4% | 0.7% | 100.0% |
| April 2014 – September 2014 | 18,022 | 6,074 | 847 | 133 | 25,076 |
| | 71.9% | 24.2% | 3.4% | 0.5% | 100.0% |
| October 2014 – March 2015 | 18,338 | 6,254 | 787 | 129 | 25,508 |
| | 71.9% | 24.5% | 3.1% | 0.5% | 100.0% |

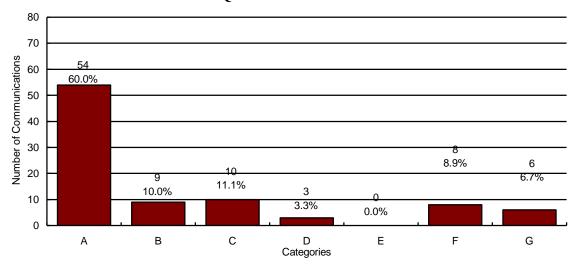

Chart 1 illustrates that the number of reports received by the Centralized Intake Hotline has increased by 2,552 reports over the same reporting period last year. The chart below also shows that the significant upward trend in reports received by the Centralized Intake Hotline has continued since FY 2011. This in turn resulted in more children entering out-of-home care (see Chart 18 for information on the out-of-home population).

CHART 1
REPORTS OF CHILD ABUSE AND NEGLECT BY REPORTING PERIOD

The Centralized Intake Hotline received a total of 74,961 calls during the reporting period. Of those, 71,409 were answered by a hotline specialist and 2,504 were abandoned calls. The 71,409 yielded 45,901 communications and 25,508 reports of abuse and neglect. Communications do not meet the statutory criteria of a report of maltreatment. A random sample was selected to represent the types of calls that do not get classified as reports of abuse and neglect. This random sample is contained in the chart below.

CHART 2
SAMPLE OF COMMUNICATIONS TO THE CENTRALIZED INTAKE HOTLINE THAT DO NOT MEET THE STATUTORY REQUIREMENTS OF A REPORT OF ABUSE OR NEGLECT

N=90

A = Concern Only/No Allegation of Child Abuse or Neglect

B = Out of DCS Jurisdiction

C = Call Appropriate for Law Enforcement Jurisdiction³

D = Non-Caretaker Neglect/Child No Longer at Risk

E = Insufficient Information

F = Truancy/Custody Issues

G = Current Case Questions or Referrals

All communications that do not meet the statutory requirements for a field investigation of abuse or neglect are reviewed within 48 hours by Department of Child Safety quality assurance staff.

³ The category "Call Appropriate for Law Enforcement Jurisdiction" refers to a situation where the alleged perpetrator is not a parent or primary caretaker and the allegations, if true, would constitute a crime.

Chart 3 below provides information on the number of reports that met each of the Centralized Intake Hotline priority classifications in the current and past reporting periods. In Table 2 and Table 3, data on total reports by priority is shown by county for the current and previous reporting periods. The priority determinations are made by personnel at the child abuse hotline after the review of multiple factors, however, below is a high level summary of each response time criteria.

PRIORITY 1: Present danger refers to an immediate, significant and clearly observable family condition present now which has resulted in or is likely to result in serious or severe harm requiring an immediate initial response.

PRIORITY 2: Impending danger may not be occurring in the present but is likely to occur in the immediate to near future and will likely result in serious or severe harm to a child.

PRIORITY 3: Reports that do not rise to the level of present or impending danger, but there is an incident of abuse or neglect that has happened in the past 30 days. This includes a current minor injury to the child.

PRIORITY 4: Reports that do not rise to the level of present or impending danger, but 1) there is an incident of abuse or neglect that happened more than 30 days ago, or 2) the date of last occurrence is unknown and there is no current physical indicator of maltreatment, or 3) there is unreasonable risk of harm to the child's health or welfare.

ASSIGNMENT OF INVESTIGATIONS

During the current reporting period, there were 25,508 calls to the Hotline that met the statutory criteria for a report. Of those, 326 reports fell within the jurisdiction of military or tribal governments. All reports had response data entered at the time this report was compiled. The assignment of the remaining 25,182 reports for investigation was as follows:

The following tables and charts in this section provide statewide and county level information on these reports assigned to DCS. Of these, DCS completed 13,045 (51.8%) of their assigned investigations. Those not completed remain open when the investigation is still in process, when the specialist is waiting for the results of a law enforcement investigation and/or receipt of records that impact the investigation finding, or when the investigation has been completed but is awaiting supervisory review and approval.

By statute, a random sample of reports that do not have data on an investigative response in each reporting period is required. In addition, short descriptions of these reports are also required. As all reports were responded to during this period, there is no data to be displayed in Table 10 or Chart 7. Chart 7 would have displayed the reports in brief descriptive categories.

All reports were responded to during this reporting period. Therefore, no data will be displayed in Chart 7 below.

CHART 7 NUMBER OF REPORTS WITHOUT RESPONSE DATA BY CATEGORY FOR THE PERIOD OF OCTOBER 1, 2014 THROUGH MARCH 31, 2015

N=0

- A = Adolescent, Past Abuse, No Current Injuries
- **B** = Inadequate Housekeeping Standards
- **C** = Inappropriate Vehicle Operation
- **D** = No Specific Allegations
- **E** = Past Abuse no current injuries
- **F** = Adolescent, current minor injuries
- **G** = Non-adolescent, current minor injuries
- **H** = Poor parenting skills
- I = Left with inappropriate caregiver
- **J** = Law Enforcement Issue
- **K** = Out of Control Teenager

COMPLETED INVESTIGATIONS

Substantiated reports are reports where the Department has determined that at least one of the allegations in the report of abuse and/or neglect is true. The number of reports that are considered substantiated are a subset of the total number of reports that were received, investigated, and closed during the reporting period.

The preliminary number of reports that are substantiated for the current reporting period is 1,606. For the prior reporting period, the number of reports that were assigned for investigation that resulted in substantiated findings was revised from 1,739 to 3,456. This number will change each reporting period as a result of subsequent decisions based on parents' rights to due process as well as the completion of investigations and findings.

- The preliminary substantiation rate for the current reporting period is 6%. However, the substantiation rate for the current period is anticipated to be revised upwards in the next semi-annual report.
- The substantiation rate for the prior reporting period is 14%. However, when initially reported, the April 2014 September 2014 substantiation rate was 7%.

CHART 11 SUBSTANTIATION RATE BY REPORTING PERIOD

Information on both proposed substantiations and finalized substantiations is provided in the charts and tables below:

- For information on the proposed substantiated investigation findings—classified by priority—for the current and prior reporting period, see Chart 12, Table 17, and Table 18.
- For information on the proposed substantiated investigation findings—classified by type of maltreatment—for the current and prior reporting period, see Chart 13, Table 19, and Table 20.
- For information on the substantiated investigation findings—classified by priority—for the current and prior reporting period, see Chart 14, Table 21, and Table 22.
- For information on the substantiated investigation findings—classified by type of maltreatment—for the current and prior reporting period, see Chart 15, Table 23, and Table 24.

The preliminary number of investigations that resulted in an unsubstantiated finding for this reporting period was 10,017. Charts 16 and 17 display information on unsubstantiated reports classified by priority and type of maltreatment for the current and prior reporting periods. Tables 25 and 26 provide information on the unsubstantiated investigation findings classified by priority for each county in the current and prior reporting periods. Tables 27 and 28 provide information on the unsubstantiated investigation findings classified by type of maltreatment for each county in the current and prior reporting periods. These figures will change over time as investigations are completed and findings are entered.

SAFE HAVEN INFANTS

Communications from providers indicate that there were two newborn infants delivered to Safe Haven providers during the October 2014 – March 2015 reporting period. This compares to six infants being delivered to Safe Haven providers during the prior reporting period.

CHILDREN ENTERING OUT-OF-HOME CARE

During the current reporting period, 5,935 children entered care, which represents an 8.1% decrease in children entering care over the prior reporting period and a 4.1% increase over the same reporting period last year. This increase in the number of children entering care is not unexpected, however, as the number of reports of abuse and neglect increased by 10.2%. Chart 18 displays children entering out-of-home care by reporting period. As can be seen from the chart below, the increase in children entering out-of-home care has continued since FY 2011. Since that time, the number of children entering out-of-home care has remained high, which is a reflection of the growth in the number of reports received by the Hotline (see Chart 1 for number of reports detail). However, there was a decrease in the number of children entering out-of-home care by reporting period for the first time since March 2013.

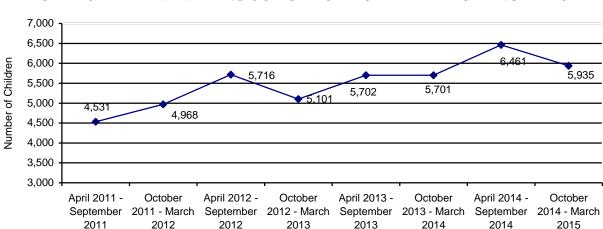

CHART 18
TOTAL CHILDREN ENTERING OUT-OF-HOME CARE BY REPORTING PERIOD

CHILDREN ENTERING OUT-OF-HOME CARE – VOLUNTARY SERVICES

The number of children entering out-of-home placement through voluntary foster care agreements for the current reporting period was 131, which represents 2.2% of the children entering care this reporting period. Information on the county level distribution of voluntary placements into out-of-home care can be found in Table 29 for the current reporting period and in Table 30 for the prior reporting period.

Voluntary foster care may be provided when the parents or legal guardians of a child have requested such assistance and have signed a legally binding written agreement for the temporary placement of the child in foster care while risk factors are addressed to enable the child to live safely at home. A.R.S. § 8-806 authorizes the Department to provide voluntary foster care placement for children for a period not to exceed 90 days and no more than twice within 24 consecutive months.

NUMBER OF CHILDREN ENTERING OUT-OF-HOME CARE

The total number of children entering out-of-home care (of which voluntary placements are a subset) in the current reporting period was 5,935, which represents a decrease of 8.1% in the total number of children entering out-of-home care from the prior reporting period. Chart 19 displays the number of removed children, and then further differentiates new removals by providing the number with a prior removal in the past 12 months and the past 12 to 24 months. Information on the county level distribution of children entering out-of-home care can be found in Table 31 for the current period and Table 32 for the prior period.

CHART 19 NUMBER OF CHILDREN ENTERING OUT-OF-HOME CARE BY REPORTING PERIOD

CHILDREN IN OUT-OF-HOME CARE

Chart 20 below shows the number of children in out-of-home care on the last day of the current and past reporting periods.

On the last day of the current reporting period, 14,176 (80.5%) children were placed in family settings either with relatives or in foster homes. Placement information for children in out-of-home care for the current and prior reporting periods can be found in Chart 27. See Table 33 for the out-of-home population organized to show the number of children, grouped by age, in each placement type for the current reporting period.

For information on the age distribution of children in out-of-home care, see Chart 24, which displays this information for the current and prior reporting periods. The ethnicity of children in out-of-home care for the current and prior reporting periods is displayed in Chart 25.

CHART 20 NUMBER OF CHILDREN IN OUT-OF-HOME CARE ON THE LAST DAY OF THE REPORTING PERIOD BY REPORTING PERIOD

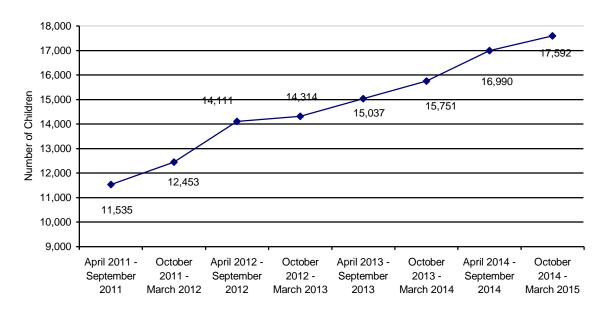

Chart 21 displays an increase in the number of young children ages 0-6 placed in group homes. In comparing March 2008 to March 2015, the number of young children in group homes, increased by 67 children. Chart 22 displays the increase in the number of young children ages 0-3 placed in shelter care.

In comparing March 2008 to March 2015, the number of young children in shelters, increased by 24 children. Chart 23 shows that the average length of time in shelter care has decreased; comparing March 2008 to March 2015, the average length of stay in shelter decreased from 103.4 to 101.2 days, a decrease of 2.2 days or 2.1%. The Department recognizes that shelter care is rarely, if ever, the best placement for children and continues to strive to place children in the best possible environment to ensure the safety and well-being of the child.

CHART 21 THE NUMBER OF CHILDREN IN GROUP HOMES AGES 0 THROUGH 6^4

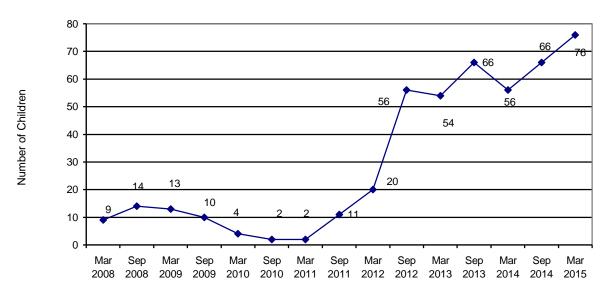

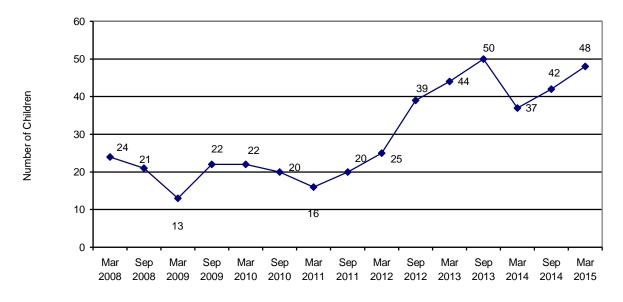

CHART 22
THE NUMBER OF CHILDREN IN SHELTER CARE AGES 0 THROUGH 3

⁴ This excludes infants placed with their mothers and children placed in foster home group models.

CHART 23

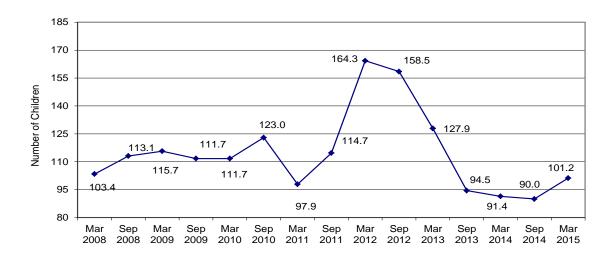

CHART 24
THE NUMBER OF CHILDREN IN OUT-OF-HOME CARE BY AGE

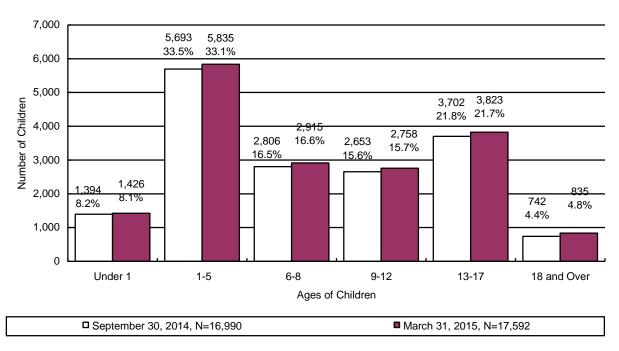

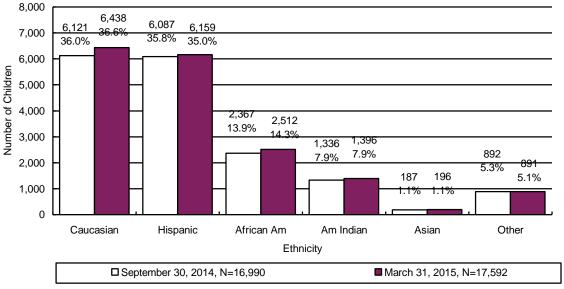

CHART 25
THE NUMBER OF CHILDREN IN OUT-OF-HOME CARE BY ETHNICITY

For 55.5% of the children in out-of-home care, family reunification remains the primary case plan goal. See Chart 26 for additional detail on the case plan goals of children in out-of-home care.

CHART 26
THE NUMBER OF CHILDREN IN OUT-OF-HOME CARE BY CASE PLAN
GOAL

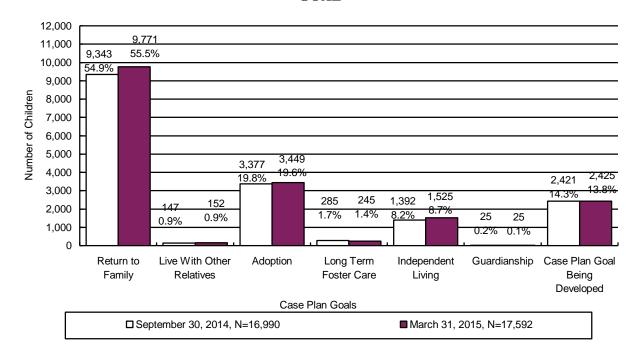

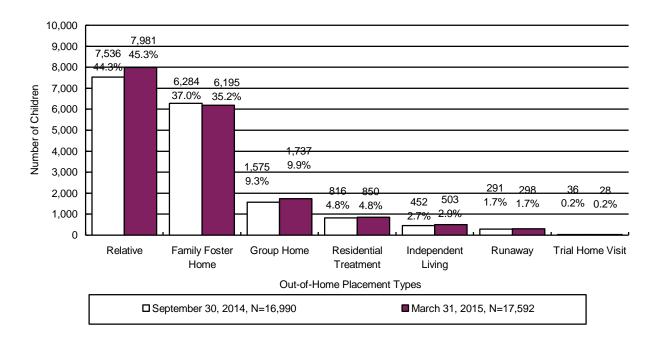

CHART 27
THE NUMBER OF CHILDREN IN OUT-OF-HOME CARE BY PLACEMENT TYPE⁵

In every reporting cycle DCS has children who, in the CHILDS database, do not have a placement identified when the data extract has run. It has been the historical practice of the Department to proportionally allocate the unidentified children across the placement types. The Department will develop strategies to minimize the need for this allocation in future reports.

⁶ This category includes shelter, detention, and hospital placement types.

⁷ This category includes children whose parents absconded with the child(ren) during this reporting period.

During the reporting period 900 children remained in a shelter or receiving home for more than 21 consecutive days. Chart 28 displays children by age grouping who remained in shelter more than 21 days for the current reporting period.

CHART 28 NUMBER AND PERCENTAGE OF CHILDREN IN SHELTER OR RECEIVING HOMES FOR MORE THAN 21 CONSECUTIVE DAYS BY AGE OF CHILD⁸

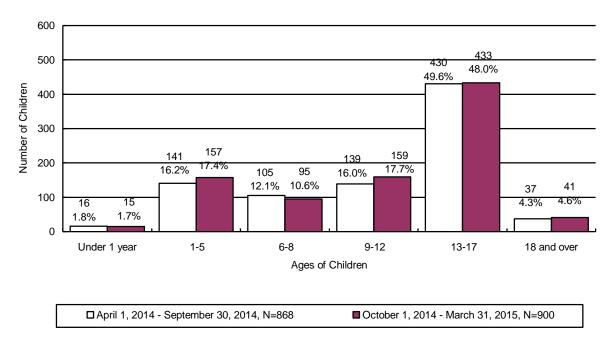

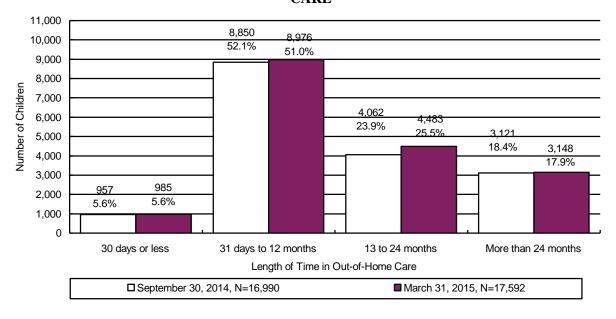

CHART 29
THE NUMBER OF CHILDREN IN OUT-OF-HOME CARE BY LENGTH OF TIME IN CARE

The chart displays children who spent more than 21 days in a shelter during the period. This number differs from the other out- of-home charts as they display children in out-of-home care on the last day of the reporting period.

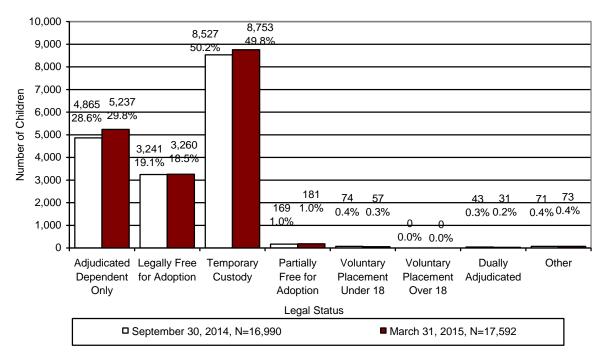

Information on the number of placements in terms of the average, median, and range for children in outof-home care on the last day of the reporting period is shown in Table 34.

TABLE 34
PLACEMENT INFORMATION FOR CHILDREN IN OUT-OF-HOME CARE ON MARCH 31, 2015

| | Placements |
|---------------|-----------------|
| Average | 2.3 |
| Median | 2.0 |
| Range Minimum | 1 |
| Range Maximum | 51 ⁹ |

Chart 30 displays the legal status of the children in out-of-home care for the current and prior reporting periods. As is shown by the graph, the vast majority of children in out-of-home care fall into one of three legal statuses – adjudicated dependent, legally free for adoption, and children in the Department's temporary custody.

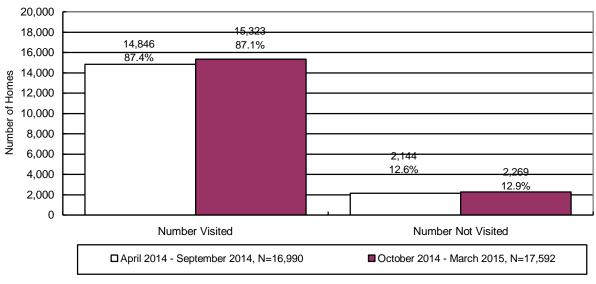

CHART 30 CHILDREN IN OUT-OF-HOME CARE BY LEGAL STATUS

Some children are so impacted by the severity of the abuse they have suffered, that they become unable to form meaningful relationships or to respond to services. These children tend to go through multiple placements with numerous individuals and agencies.

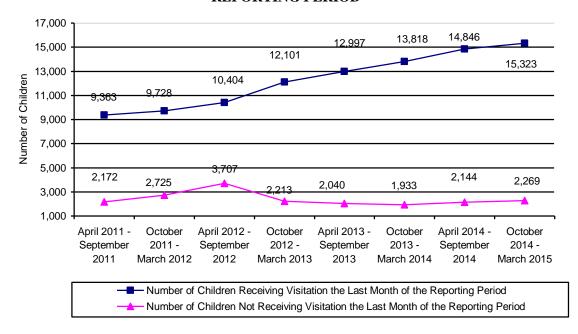

At the end of the reporting period there were 17,592 children in out-of-home care who required visitation. Of these children, visitation was documented in the automated system for 15,323 children.

CHART 31
THE NUMBER AND PERCENTAGE OF CHILDREN WHO RECEIVED THE REQUIRED VISITATION

Department policy requires specialists to have face-to-face contact with all parents at least once a month, including any alleged parents and parents residing outside of the child's home where the case plan goal is family reunification. During the current reporting period, there were 2,463 parents who had a child with the case plan goal of reunification. Of those parents requiring visitation, 1,372 (55.7%) received the required visitation. This number does not reflect attempted visitation where contact with the parent(s) did not take place.

CHART 32 NUMBER OF CHILDREN RECEIVING AND NOT RECEIVING VISITATION BY REPORTING PERIOD

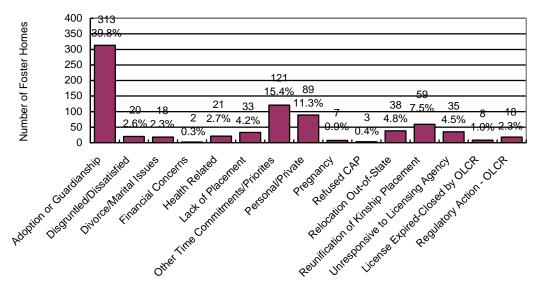

FOSTER HOME LICENSING, CLOSURES, & VISITATION

As of March 31, 2015, there were 4,497¹⁰ foster homes licensed for a total capacity of 9,079 spaces. Of the spaces, 2,554 are reported by contractors to be unavailable for placements. Reasons for this include, but are not limited to, licensing restrictions on age, bed holds for youth in treatment or hospitalization, foster parents' need for temporary reprieve from placements and corrective action plans. In addition, 1,089 spaces in available foster homes were unused spaces. This occurs when a match between the available spaces and children's needs was not possible. Unused spaces may be, but are not limited to, the result of a denial by foster parents and/or contractors to the Department's request for placement due to the severity of child's needs, potential risk to other children in the home, the distance of a foster home from child's family and/or lack of unique services in the foster home's vicinity.

Licensed foster homes include family foster homes, professional family foster homes (HCTC homes), respite foster homes, receiving foster homes, and developmentally disabled homes with DCS children placed in them. Foster home licenses specify the age range, gender and maximum number of children that can be placed in a home. Foster parents, in consultation with the licensing worker, decide the type of physical, behavioral, and psychological needs of children they can effectively parent based upon their own skill level, experiences, and desires.

During the current reporting period, 821 new homes were licensed to provide foster care and 785 homes left the system. This compares to 756 new homes being licensed and 822 homes leaving the system during the prior reporting period. The following chart gives the reasons for foster home closures for the current reporting period.

CHART 33
REASON FOR FOSTER HOME CLOSURE FOR THE PERIOD OF OCTOBER 1, 2014 THROUGH MARCH 31, 2015

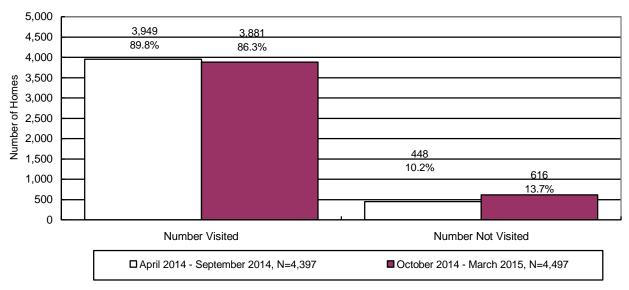

N=785

¹⁰ The number of homes cited in this report differs from the number cited by the Office of Licensing, Certification & Regulation (OLCR) due to the fact that the DCS utilizes both foster homes managed through HRSS contracts as well as homes that are licensed for developmental disabilities, licensed by the tribes, etc.

Chart 34 displays the number of foster homes that received the required visitation in the current and prior reporting periods. The Department believes that more foster homes received the required visitation than is indicated in the chart below. The under-reporting of foster home visitation is attributable to the lack of automation being used in reporting the foster home visitation process. The Department recognizes this as a problem and is working to correct this issue.

CHART 34
THE NUMBER AND PERCENTAGE OF FOSTER HOMES WHO RECEIVED THE REQUIRED VISITATION*

^{*}Required visitations to foster homes, for license monitoring purposes, are performed by licensing case managers.

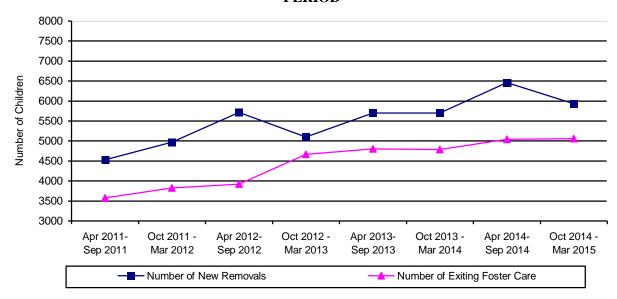

CHILDREN EXITING OUT-OF HOME CARE

Table 35 below shows the history of the number of children who left the custody of the Department.

TABLE 35 CHILDREN EXITING OUT-OF-HOME CARE BY PERIOD

| | NUMBER OF | % CHANGE |
|-----------------------------|------------|------------|
| REPORTING PERIOD | CHILDREN | OVER PRIOR |

The number of child maltreatment deaths presented in the Semi-Annual Report is not comparable to child maltreatment deaths reported on the website by the Arizona Department of Economic Security (ADES).

- DCS posts information in accordance with A.R.S. § 8-807 on child fatalities due to abuse or neglect by the child's parent, custodian or caregiver at: https://dcs.az.gov/news/child-fatalities-near-fatalities-information-releases.
- This information is posted when the information comes to DCS's attention and a final determination of the fatality due to abuse or neglect has been made by either a substantiated finding or specific criminal charges filed against a parent, guardian or caregiver for causing the fatality.
- The information that comes to DCS's attention and the determination of the fatality due to abuse or neglect may occur sometime after the actual incident for a number of reasons including a determination by a medical professional, a medical examiner, or a criminal child abuse arrest and charge of the perpetrator.

CHILDREN WITH CASE PLAN GOALS OF ADOPTION

Of the 17,592 children in out-of-home care on March 31, 2015, there were 3,449 or 19.6% who had a case plan goal of adoption. Of those, 2,221 have been placed and another 1,228 have not been placed. The age and ethnicity of the children with a case plan goal of adoption is displayed in Chart 36 and Chart 37.

The average length of time that a child with a case plan goal of "adoption" has spent in out-of-home care is 1 year 11 months and 29 days. Information on the number of placements in terms of the average, median, and range for children with a case plan goal of adoption is shown below in Table 48.

TABLE 48
PLACEMENT INFORMATION FOR CHILDREN WITH A CASE PLAN GOAL OF ADOPTION

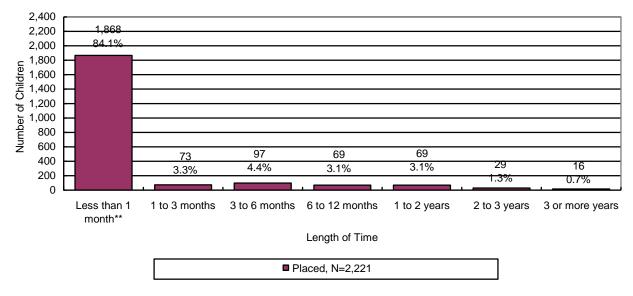

| | Placements |
|---------------|------------|
| Average | 2.6 |
| Median | 2.0 |
| Range Minimum | 1 |
| Range Maximum | 37 |

CHART 38
THE PLACEMENT AND NUMBER OF CHILDREN WITH A CASE PLAN GOAL OF ADOPTION BY LEGAL STATUS

^{*}Partially free refers to a situation where only one of the parent's rights has been severed.

CHART 39
THE NUMBER OF CHILDREN WITH A CASE PLAN GOAL OF ADOPTION BY LENGTH OF TIME FROM CHANGE OF CASE PLAN GOAL OF ADOPTION TO ADOPTIVE PLACEMENT

^{**}Approximately 70 percent of children are adopted by relatives or their foster parents and are already in their prospective adoptive placement at the time the case plan goal changes to adoption.

CHART 40
THE NUMBER OF CHILDREN WITH A CASE PLAN GOAL OF ADOPTION WHO WERE IN AN ADOPTIVE PLACEMENT BY THE MARITAL STATUS OF THE ADOPTIVE PARENT

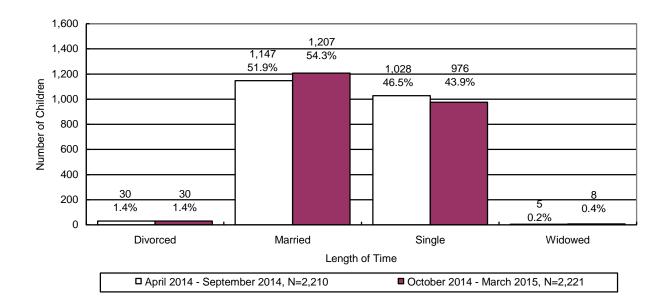

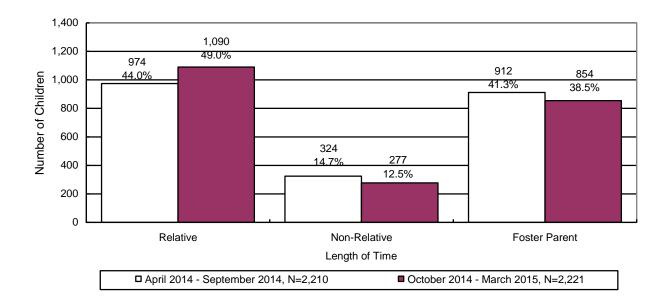

CHART 41
THE NUMBER OF CHILDREN WITH A CASE PLAN GOAL OF ADOPTION WHO WERE IN AN ADOPTIVE PLACEMENT BY THE RELATIONSHIP OF THE ADOPTIVE PARENT

DISRUPTIONS

TABLE 49
THE NUMBER OF CHILDREN WITH A CASE PLAN GOAL OF ADOPTION WHO WERE IN AN ADOPTIVE PLACEMENT AND DISRUPTED BY AGE AND ETHNICITY

| By Age | Number | Percentage |
|------------------|--------|------------|
| Under 1 | 0 | 0.0% |
| Ages 1 – 5 | 1 | 14.3% |
| Ages 6 – 8 | 1 | 14.3% |
