

Douglas A. Ducey Governor

Gregory McKay Director

June 30, 2016

The Honorable Douglas A. Ducey Governor of Arizona 1700 West Washington Phoenix, Arizona 85005

Re: Semi-Annual Child Welfare Reporting Requirements

Dear Governor Ducey:

Pursuant to A.R.S. § 8-526, the Arizona Department of Child Safety (DCS) submits the enclosed semi-annual report on child welfare for the period of October 1, 2016 through March 31, 2016. This report provides information relative to reports of child abuse and neglect, investigations, shelter and receiving home services, foster homes, length of care, and adoptions.

If you have any questions, please contact me at (602) 255-2500.

1

Gregory McKay

Director

Sincerely

Enclosure

cc: President Andy Biggs, Arizona State Senate

Representative Kate Brophy McGee, Arizona State House of Representatives

CHILD WELFARE REPORTING REQUIREMENTS

SEMI-ANNUAL REPORT

FOR THE PERIOD OF

OCTOBER 1, 2015 THROUGH MARCH 31, 2016

ARIZONA REVISED STATUTES
[LAWS 2015, CHAPTER 257]

ARIZONA DEPARTMENT OF CHILD SAFETY

CHILD WELFARE REPORTING REQUIREMENTS

Arizona Revised Statute § 8-526 requires the Arizona Department of Child Safety (DCS) to compile information and produce a semi-annual report for the periods ending on March 31st and September 30th of each year regarding Child Welfare Services. This report is for the semi-annual reporting period beginning on October 1, 2015 and ending March 31, 2016.

TABLE OF CONTENTS

	parent	68
	Number of children with a finalized adoption by the relationship of the adoptive parent.	69

Executive Summary

The Arizona Department of Child Safety is pleased to publish this semi-annual report for October 2015 through March, 2016 in compliance with A.R.S. § 8-526. This report is intended to provide its readers an opportunity to review the impact of the Department's process improvements in relation to key performance indicators.

In May 2014, the Department of Child Safety was created as a permanent, stand-alone agency with the express mission of safeguarding Arizona's abused and neglected children. The legislation enacted on May 29, 2014 included additional funding for an increase in child safety specialists and case aides.

The data contained within this Semi-Annual Report assists with identifying where continued focus is needed by the Department, stakeholders, policy makers, and advocacy groups. By working collaboratively to address the needs of children and to prevent child abuse, additional targeted resources and strategies that are put in place to improve outcomes for children will be implemented in a more coordinated and timely manner.

Child Abuse Hotline and Investigations

The statewide Child Abuse Hotline received 24,537 calls that met the statutory criteria for a report. Of these, 344 were within the jurisdiction of military or tribal governments and were referred to those jurisdictions. The total number of reports represents a 7.25 percent decrease over the prior reporting period, and a 3.8 percent decrease over the same reporting period last year.

In addition to responding to all reports received in this reporting period, the Department closed more reports (18,711) this reporting period than any other reporting period in the past four years. This achievement is highlighted by the fact the Department achieved a 28.6 percent decrease in total open reports from 31,787 in October 2015 to 22,698 in March 2016. The Department is very pleased with this accomplishment as this will continue to help reduce caseloads for investigators and allow them to emphasize value-added activities involved in the investigation process.

The DCS Strategic Plan was announced in July 2015 and identified several goals with deliverables for the Hotline, Investigations, Ongoing and foster home capacity and availability. To date, the Department has initiated and/or completed several deliverables, including, but not limited to:

- Created a data dashboard to monitor open report volume and categorize reports by risk factors;
- Created a new Hotline screening decision-making tool that clarifies report and prioritization requirements;
- Instituted notification to callers to the Hotline about false reporting penalties;
- Reduced the total number of Inactive Cases from 14,558 in October 2015 to 10,751 in March 2016, a 26% reduction.
- Created a dashboard to track overall investigation case management.
- Expanded the use of Team Decision making meetings for considered removals;

- Sustain the Building Resilient Families program to deliver in-home prevention services in Maricopa County for low risk families who have been the subject of a DCS investigation.
- Implementation and refinement of staff exit interviews;
- Improved case aide ratios;
- Reduce wait list for parent aide services;
- Timely case transfers from investigation to ongoing in select model offices;
- Implemented a field guide that facilitates the collection and documentation of safety and risk assessment information;
- Created and implemented supervision guides for investigation and ongoing cases;
- Completed policy analysis on the investigation/assessment of very low risk families;
- Implemented Multidisciplinary Team (MDT) reviews of fatality/near fatality cases;
- Implementation of a Service Referral Matrix to refine the referral and approval process statewide; and
- Implementation of faith-based prevention services with the introduction of CARE Portal in Pima Region and planning the rollout of the CARE Portal in Maricopa County.

Of the reports subject to substantiation during this reporting period, the preliminary number of reports that were substantiated is 1,658 (7%). An additional 2,171 were proposed for substantiation by child welfare specialists and are currently awaiting the results of the appeals process. Over time, the number of substantiated and proposed substantiated reports associated with this time period will increase as investigation findings are entered into CHildren's Information Library and Data Source (CHILDS).

Children in Out-of-Home Care

The Department remains committed to working with the community to keep children safe and prevent the need for children to be removed from their homes. Notwithstanding this commitment, while the number of children in out-of-home care increased slightly from 18,657 in the prior reporting period to 18,906 in March 2016, the Department is able to report that this reporting period reflects the smallest increase (one percent) in the overall number of children in out-of-home care. Several initiatives referenced above are helping to contribute to this reduction including a reduction in the number of cases in the backlog, efficient case transfers, and cursory reviews of all ongoing cases. Previous reporting periods reflected increases of three to seven percent in the overall number of children in out-of-home placement at the end of each reporting period. During this reporting period, 6,141 children were removed compared to 6,819 removals the prior reporting period. This represents a ten percent reduction in the number of children entering out-of-home placement.

The Department continues to make efforts to place children who have been removed from their home in the most family-like setting possible. As of March 31, 2016, 14,963 children – or approximately 79 percent of all children in out-of-home care – were placed with relatives or licensed foster parents. An additional 26 children were placed with their parents on a trial home visit and 505 youth were residing in independent living settings.

As part of the strategic plan, the Department is striving to improve capacity to place children in family environments and fully meet the needs of children in care. During this reporting period DCS was able to accomplish the following:

- Address barriers to licensing by analyzing denials of Life Safety Inspections and developing an action plan to safely reduce the frequency of denials;
- Increased use of Placement Coordinators to identify available kinship placements upon removal;
- Continue the use of software tools, e.g. Lexis Nexis, to find potential kinship placements;
- Maintain the Fostering Inclusion Respect Support Trust Advisory (FIRST) Commission;

The state requires monthly face-to-face visitation with children in foster care. The current report shows that 89.8 percent of the children in foster care received their visitation during the last month of the reporting period. This is a 5.4 percent improvement over the last reporting period and demonstrates the Department's commitment to children in foster care. There is a strong correlation between caseworker visits with children and positive outcomes for these children, such as achieving permanency and other indicators of child well-being. The Department continues to make efforts to improve our rate of visitation.

Permanency for Children

Arizona is a national leader in the number of finalized adoptions. The Department remains committed to work toward achieving permanency for children placed in out-of-home care as demonstrated by increasing the total number of children achieving permanency through adoption. This reporting period there were 1,727 adoptions compared to 1,576 in the previous reporting period; an increase of ten percent. During this period, the number of finalized adoptions exceeded any prior reporting period.

The Department demonstrated a significant increase in the number of children safely reunified with their families. 3,034 children exited DCS custody to reunify with their parents or primary caretakers this reporting period compared to 2,636 during the same reporting period last year, which is a 15 percent increase.

As part of the Strategic Plan, the Department continues recruitment efforts of foster and adoptive homes. In November 2015, the Department adjusted foster care reimbursement rates for families who are willing and capable of providing a home for youth ages 12 to 18 years old and sibling groups in this age group. Additionally, as noted above, the Department is addressing issues with the licensing process that cause delays for qualified persons to become licensed foster parents. The Department continues conducting process improvement projects to reduce the time from application to licensure.

Efforts to increase the number of licensed foster parents who are able to meet the needs of children requiring out-of-home placement resulted in a 14 percent increase in the number of new homes being licensed during the reporting period compared to the previous reporting period. There were 774 new homes licensed the last reporting period compared to 882 new homes this period. Additionally, the total number of licensed foster homes increased by three percent compared to the previous reporting period. There were 4,551 licensed foster homes during the previous reporting period and 4,681 licensed foster homes this reporting period.

Other areas in which the Department is engaged to improve permanency for children are "targeted permanency reviews" which focus on identifying barriers to achieving permanency and

eliminating those barriers to move children to permanent living situations and out of the care of the Department.

Strategic Goals to Address Challenges

The Department's Strategic Plan represents the leadership's commitment to refocus attention and resources on the safety, permanency, and well-being of children in Arizona. Below are the five strategic goals that address several of the most pressing challenges faced by the Department:

- 1. Improve objective decision-making at the Hotline and investigations.
- 2. Improve performance and quality of service through employee retention.
- 3. Reduce length of stay for children in out-of-home care.
- 4. Reduce recurrence of maltreatment by improving service delivery.
- 5. Improve capacity to place children in family environments.

As noted previously, the legislation enacted to create the Department included funding to increase the number of child safety specialists. Hiring these specialists during fiscal year 2015 presented a significant challenge to the Department. However, in March 2016 the Department had filled 90 percent all of its budgeted positions for child safety specialists, including staff at the Hotline.

One of the Department's most significant efforts during this reporting period has been to address the long-standing issue of the 'backlog' or 'inactive' cases which are those cases that had no case notes or service authorizations for 60 days or more. Prior to 2015, efforts to reduce the backlog did not involve a methodical, focused approach. Current efforts ensure that an inactive case receives careful review and meaningful case management activities that address the safety, well-being and permanency needs of the children and families involved in the case. During this reporting period, the Department initiated 'select assistance work teams' who were assigned to specific field offices to review cases, identify actions required to complete overdue investigations, complete field response activities and complete final quality assurance reviews. Regional action plans to address the backlog of inactive cases include continuing off-line time for case managers to complete actions on open cases while not being assigned new cases and identifying additional resources at the Regional level to support investigation and clinical reviews. Regional leadership established accountability for workload completion through data reporting which is monitored weekly and monthly. As a means of expanding capacity to complete investigations the Department, with grant support from Casey Family Programs, partnered with a qualified local service provider in Maricopa County to support field offices with response activities. Finally, Model Field Offices were established that adhere to a standard process to transfer cases from investigations to ongoing. This occurs quickly after a child's removal so investigators are no longer case managing dependency cases and are free to focus on investigations.

The Department continues to assess processes and program controls to identify ways to address these challenges. Solutions will include partnering with the community and stakeholders to ensure that the safety and wellbeing of children is always paramount. The Department continues to work in partnership with the federal government to meet the federal Child and Family Service Review (CFSR) standards to improve outcomes for the children and families it serves.

Number of Children With a Finalized Adoption	1,025	1,270	1,215	1,518	1,552	1,629	1,576	1,727	

¹ Since the appeals process delays the substantiation of reports, revisions to the substantiation rate for the prior reporting period will occur with every semi-annual report produced.

² The number of available foster homes includes homes reported by the Department's Home Recruitment, Study and Supervision contractors along with foster homes utilized for appropriate children in coordination with the Division of Developmental Disabilities.

³ The report run date was May 28, 2016.

Reports of Child Abuse & Neglect

Child abuse and neglect are defined in A.R.S. §8-201 and A.R.S. §13-3623 (A). These definitions provide the major categories in this report.

Between October 1, 2015 through March 31, 2016, there were 24,537 incoming communications to the Child Abuse Hotline that met the criteria for a report of abuse or neglect. Of these, 344 were within the jurisdiction of military or tribal governments and were referred to those jurisdictions. Compared to one year ago, there has been a 3.96% decrease in reports received by the Child Abuse Hotline meeting the criteria of a report of abuse or neglect.

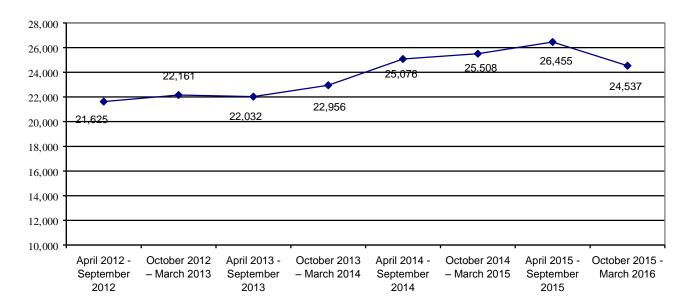

Table 1 shows the number of reports received by the Department by category of maltreatment for the current and past reporting periods. The Department continues to examine current Child Abuse Hotline policies and procedures to improve objectivity within screening tools and improve inter-rater reliability.

TABLE 1
REPORTS BY REPORTING PERIOD AND TYPE OF MALTREATMENT

	Neglect	Physical Abuse	Sexual Abuse	Emotional Abuse	Total

	71.3%	24.8%	3.2%	0.7%	100.0%

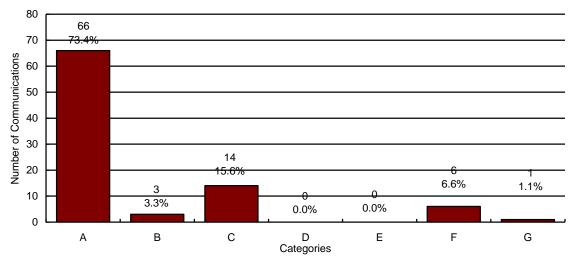

Chart 1 illustrates that the number of reports received by the Centralized Intake Hotline has decreased by 971 reports over the same reporting period last year. The chart below also shows the significant upward trend in reports received by the Centralized Intake Hotline that continued from FY 2011 through the last reporting period. However, a marked reduction in the number of reports received occurred this reporting period as illustrated in Chart 1 below.

CHART 1
REPORTS OF CHILD ABUSE AND NEGLECT BY REPORTING PERIOD

The Centralized Intake Hotline received a total of 74,618 calls during the reporting period. Of those, 72,559 were answered by a hotline specialist and 1,855 were abandoned calls. The 74,618 yielded 50,081 communications and 24,537 reports of abuse and neglect. Communications do not meet the statutory criteria of a report of maltreatment. A random sample was selected to represent the types of calls that do not get classified as reports of abuse and neglect. This random sample is contained in the chart below.

CHART 2
SAMPLE OF COMMUNICATIONS TO THE CENTRALIZED INTAKE HOTLINE THAT DO NOT MEET THE STATUTORY REQUIREMENTS OF A REPORT OF ABUSE OR NEGLECT

N=90

A = Concern Only/No Allegation of Child Abuse or Neglect

B = Out of DCS Jurisdiction

C = Call Appropriate for Law Enforcement Jurisdiction³

D = Non-Caretaker Neglect/Child No Longer at Risk

E = Insufficient Information

F = Truancy/Custody Issues

G = Current Case Questions or Referrals

The Department shall conduct a review at least weekly of communications concerning alleged abuse or neglect of a child, which do not meet criteria for a DCS Report, to verify the communications are properly classified.

³ The category "Call Appropriate for Law Enforcement Jurisdiction" refers to a situation where the alleged perpetrator is not a parent or primary caretaker and the allegations, if true, would constitute a crime.

Chart 3 below provides information on the number of reports that met each of the Centralized Intake Hotline priority classifications in the current and past reporting periods. In Table 2 and Table 3, data on total reports by priority is shown by county for the current and previous reporting periods. The priority determinations are made by personnel at the Child Abuse Hotline after the review of multiple factors, however, below is a high level summary of each response time criteria.

PRIORITY 1: Death of a child, near fatality, abuse or neglect that threatens to immediately cause, or has caused, serious harm or death, Serious physical injuries to a child (including but not limited to fractures, burns, multiple plane injuries, acceleration/deceleration injuries [shaken baby syndrome], injury to internal organs, etc.), child is alone and is not capable of caring for self or other children, evidence or disclosure of sexual abuse toward a child and the perpetrator has access to the child or the perpetrator is unknown, Substance Exposed Newborn (SEN) who is expected to be discharged from the hospital within 24 hours; ¹

PRIORITY 2: Abuse or neglect of a child age 0-3, Abuse or neglect of a vulnerable child, and the child or perpetrator has been the subject of a prior report (this includes the child as a victim in a prior report or the adult as a perpetrator in a prior report), All criminal conduct allegations not requiring a Priority 1 response;

PRIORITY 3: Abuse or neglect of a child that occurred within the last 12 months and does not require a Priority 1 or 2 response; and

PRIORITY 4: Private Dependency Petition, abuse or neglect that has occurred over one year ago and does not require a Priority 1, 2 or 3 response.

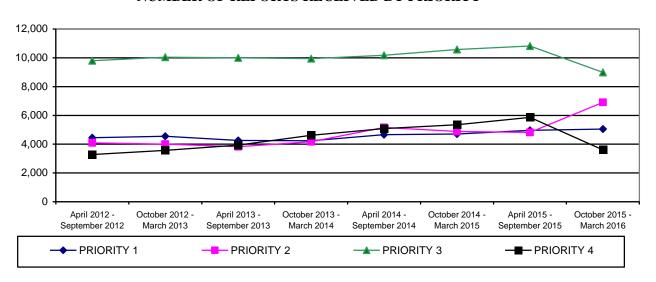

CHART 3 NUMBER OF REPORTS RECEIVED BY PRIORITY

As of February 1, 2016, the definition for each priority level changed. Data from this report and all future reports will use these new definitions.

ASSIGNMENT OF INVESTIGATIONS

During the current reporting period, there were 24,537 calls to the Hotline that met the statutory criteria for a report. Of those, 344 reports fell within the jurisdiction of military or tribal governments. All reports had response data entered at the time this report was compiled. The assignment of the remaining 24,193 reports for investigation was as follows:

The following tables and charts in this section provide statewide and county level information on these reports assigned to DCS. Of these, DCS completed 18,771 (77.6%) of their assigned investigations. Those not completed remain open when the investigation is still in process, when the specialist is waiting for the results of a law enforcement investigation and/or receipt of records that impact the investigation finding, or when the investigation has been completed but is awaiting supervisory review and approval.

By statute, a random sample of reports that do not have data on an investigative response in each reporting period is required. In addition, short descriptions of these reports are also required. As all reports were responded to during this period, there is no data to be displayed in Table 10 or Chart 7. Chart 7 would have displayed the reports in brief descriptive categories.

All reports were responded to during this reporting period. Therefore, no data will be displayed in Chart 7 below.

CHART 7 NUMBER OF REPORTS WITHOUT RESPONSE DATA BY CATEGORY FOR THE PERIOD OF OCTOBER 1, 2015 THROUGH MARCH 31, 2016

N=0

- A = Adolescent, Past Abuse, No Current Injuries
- **B** = Inadequate Housekeeping Standards
- **C** = Inappropriate Vehicle Operation
- **D** = No Specific Allegations
- **E** = Past Abuse no current injuries
- **F** = Adolescent, current minor injuries
- **G** = Non-adolescent, current minor injuries
- **H** = Poor parenting skills
- I = Left with inappropriate caregiver
- **J** = Law Enforcement Issue
- **K** = Out of Control Teenager

COMPLETED INVESTIGATIONS

Substantiated reports are reports where the Department has determined that at least one of the allegations in the report of abuse and/or neglect is true. The number of reports that are considered substantiated are a subset of the total number of reports that were received, investigated, and closed during the reporting period.

The preliminary number of reports that are substantiated for the current reporting period is 1,658. For the prior reporting period, the number of reports that were assigned for investigation that resulted in substantiated findings was revised from 1,926 to 3,836. This number will change each reporting period as a result of subsequent decisions based on parents' rights to due process as well as the completion of investigations and findings.

- The preliminary substantiation rate for the current reporting period is 7%. However, the substantiation rate for the current period is anticipated to be revised upwards in the next semi-annual report.
- The substantiation rate for the prior reporting period is 15%. However, when initially reported, the April 2015 September 2015 substantiation rate was 7%.

CHART 11 SUBSTANTIATION RATE BY REPORTING PERIOD

Information on both proposed substantiations and finalized substantiations is provided in the charts and tables below:

- For information on the proposed substantiated investigation findings—classified by priority—for the current and prior reporting period, see Chart 12, Table 17, and Table 18.
- For information on the proposed substantiated investigation findings—classified by type of maltreatment—for the current and prior reporting period, see Chart 13, Table 19, and Table 20.
- For information on the substantiated investigation findings—classified by priority—for the current and prior reporting period, see Chart 14, Table 21, and Table 22.
- For information on the substantiated investigation findings—classified by type of maltreatment—for the current and prior reporting period, see Chart 15, Table 23, and Table 24.

The preliminary number of investigations that resulted in an unsubstantiated finding for this reporting period was 15,466. Charts 16 and 17 display information on unsubstantiated reports classified by priority and type of maltreatment for the current and prior reporting periods. Tables 25 and 26 provide information on the unsubstantiated investigation findings classified by priority for each county in the current and prior reporting periods. Tables 27 and 28 provide information on the unsubstantiated investigation findings classified by type of maltreatment for each county in the current and prior reporting periods. These figures will change over time as investigations are completed and findings are entered.

## SAFE HAVEN INFANTS

Communications from providers indicate that there was 1 newborn infant delivered to Safe Haven providers during the October 2015 – March 2016 reporting period. This compares to no newborn infants being delivered to Safe Haven providers during the prior reporting period.

### CHILDREN ENTERING OUT-OF-HOME CARE

During the current reporting period, 6,141 children entered care, which represents a 10.0% decrease in children entering care over the prior reporting period and a 3.5% increase over the same reporting period last year. Chart 18 displays children entering out-of-home care by reporting period. As can be seen from the chart below, the increase in children entering out-of-home care has continued since FY 2013 until this reporting period. Since FY 2013, the number of children entering out-of-home care remained high, which is a reflection of the growth in the number of reports received by the Hotline (see Chart 1 for number of reports detail).

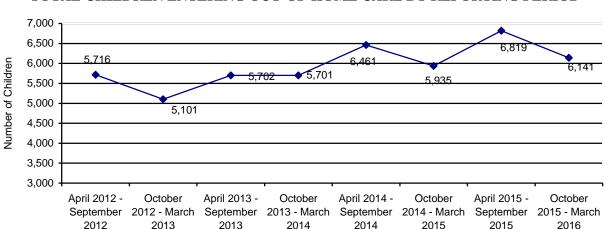

CHART 18
TOTAL CHILDREN ENTERING OUT-OF-HOME CARE BY REPORTING PERIOD

## CHILDREN ENTERING OUT-OF-HOME CARE – VOLUNTARY SERVICES

The number of children entering out-of-home placement through voluntary foster care agreements for the current reporting period was 107, which represents 1.7% of the children entering care this reporting period. Information on the county level distribution of voluntary placements into out-of-home care can be found in Table 29 for the current reporting period and in Table 30 for the prior reporting period.

Voluntary foster care may be provided when the parents or legal guardians of a child have requested such assistance and have signed a legally binding written agreement for the temporary placement of the child in foster care while risk factors are addressed to enable the child to live safely at home. A.R.S. § 8-806 authorizes the Department to provide voluntary foster care placement for children for a period not to exceed 90 days and no more than twice within 24 consecutive months.

# NUMBER OF CHILDREN ENTERING OUT-OF-HOME CARE

The total number of children entering out-of-home care (of which voluntary placements are a subset) in the current reporting period was 6,141, which represents a decrease of ten percent in the total number of children entering out-of-home care from the prior reporting period. Chart 19 displays the number of removed children, and then further differentiates new removals by providing the number with a prior removal in the past 12 months and the past 12 to 24 months. Information on the county level distribution of children entering out-of-home care can be found in Table 31 for the current period and Table 32 for the prior period.

CHART 19 NUMBER OF CHILDREN ENTERING OUT-OF-HOME CARE BY REPORTING PERIOD

## **CHILDREN IN OUT-OF-HOME CARE**

Chart 20 below shows the number of children in out-of-home care on the last day of the current and past reporting periods.

On the last day of the current reporting period, 14,963 (79.1%) children were placed in family settings either with relatives or in foster homes. Placement information for children in out-of-home care for the current and prior reporting periods can be found in Chart 24. See Table 33 for the out-of-home population organized to show the number of children, grouped by age, in each placement type for the current reporting period.

For information on the age distribution of children in out-of-home care, see Chart 24, which displays this information for the current and prior reporting periods. The ethnicity of children in out-of-home care for the current and prior reporting periods is displayed in Chart 25.

CHART 20 NUMBER OF CHILDREN IN OUT-OF-HOME CARE ON THE LAST DAY OF THE REPORTING PERIOD BY REPORTING PERIOD

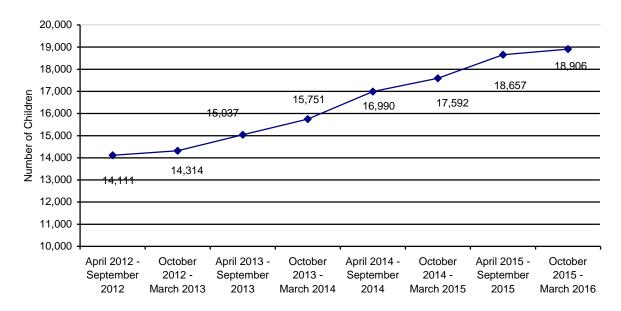

CHART 21
THE NUMBER OF CHILDREN IN OUT-OF-HOME CARE BY AGE

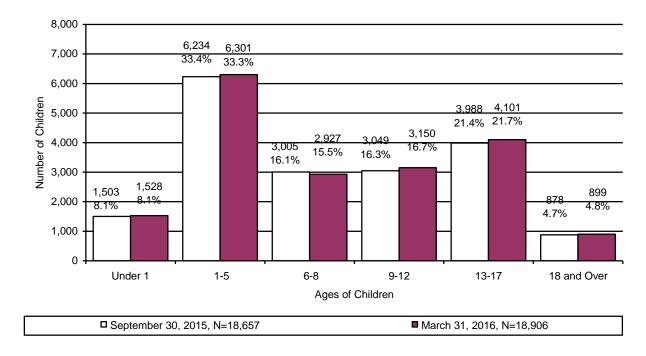

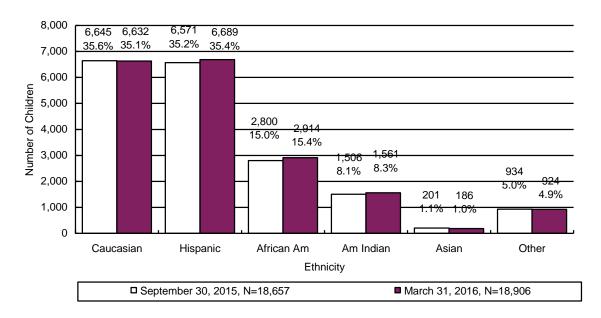

CHART 22
THE NUMBER OF CHILDREN IN OUT-OF-HOME CARE BY ETHNICITY

For 53.8% of the children in out-of-home care, family reunification remains the primary case plan goal. See Chart 23 for additional detail on the case plan goals of children in out-of-home care.

CHART 23
THE NUMBER OF CHILDREN IN OUT-OF-HOME CARE BY CASE PLAN
GOAL

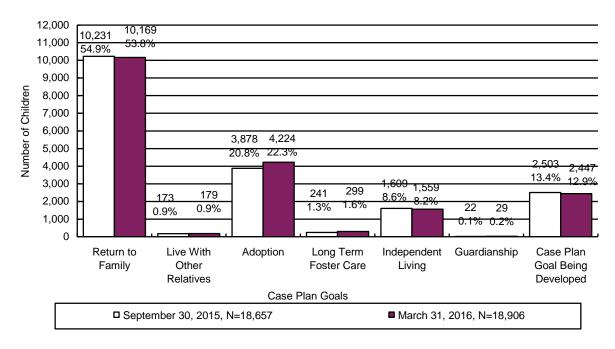

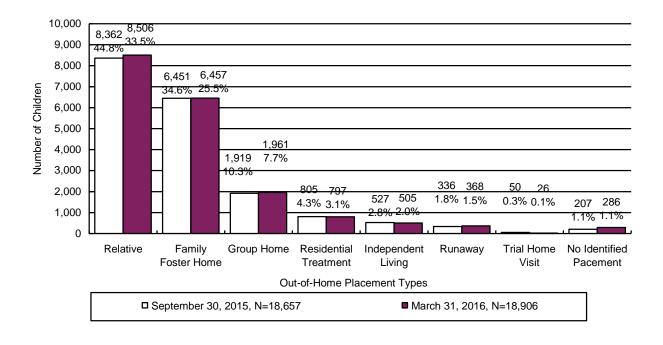

CHART 24
THE NUMBER OF CHILDREN IN OUT-OF-HOME CARE BY PLACEMENT TYPE⁴

⁴ In every reporting cycle DCS has children who, in the CHILDS database, do not have a placement identified when the data extract has run. It has been the historical practice of the Department to proportionally allocate the unidentified children across the placement types. The Department will develop strategies to minimize the need for this allocation in future reports.

⁵ This category includes shelter, detention, and hospital placement types.

⁶ This category includes children whose parents absconded with the child(ren) during this reporting period.

During the reporting period 974 children remained in a shelter or receiving home for more than 21 consecutive days. Chart 25 displays children by age grouping who remained in shelter more than 21 days for the current reporting period.

CHART 25 NUMBER AND PERCENTAGE OF CHILDREN IN SHELTER OR RECEIVING HOMES FOR MORE THAN 21 CONSECUTIVE DAYS BY AGE OF CHILD⁷

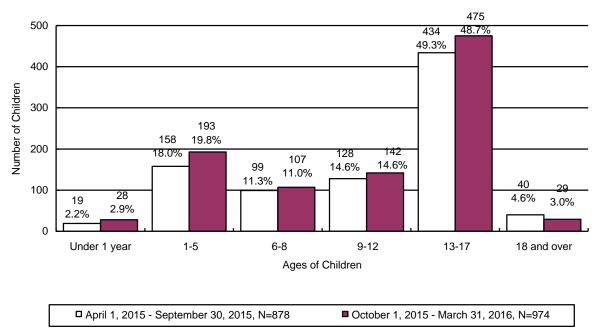

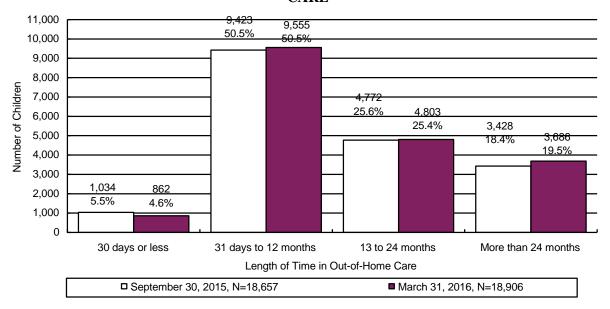

CHART 26
THE NUMBER OF CHILDREN IN OUT-OF-HOME CARE BY LENGTH OF TIME IN CARE

⁷ The chart displays children who spent more than 21 days in a shelter during the period. This number differs from the other out-of-home charts as they display children in out-of-home care on the last day of the reporting period.

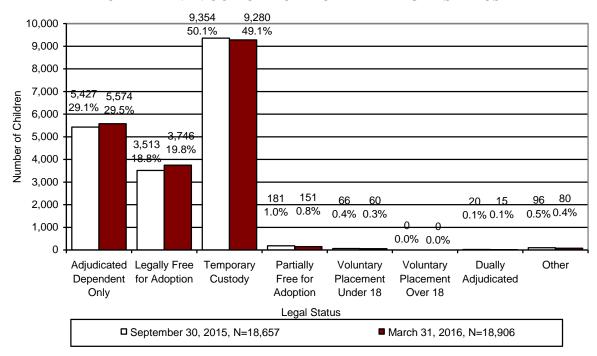

Information on the number of placements in terms of the average, median, and range for children in outof-home care on the last day of the reporting period is shown in Table 34.

TABLE 34
PLACEMENT INFORMATION FOR CHILDREN IN OUT-OF-HOME CARE ON MARCH 31, 2016

	Placements
Average	2.4
Median	2.0
Range Minimum	1
Range Maximum	61 ⁸

Chart 27 displays the legal status of the children in out-of-home care for the current and prior reporting periods. As is shown by the graph, the vast majority of children in out-of-home care fall into one of three legal statuses – adjudicated dependent, legally free for adoption, and children in the Department's temporary custody.

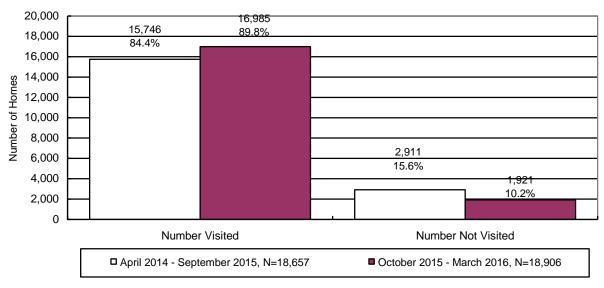

CHART 27
CHILDREN IN OUT-OF-HOME CARE BY LEGAL STATUS

Some children are so impacted by the severity of the abuse they have suffered, that they become unable to form meaningful relationships or to respond to services. These children tend to go through multiple placements with numerous individuals and agencies.

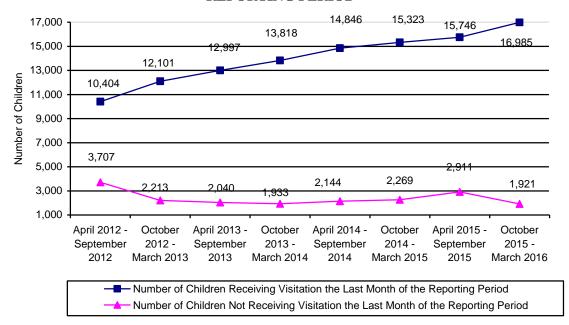

At the end of the reporting period there were 18,906 children in out-of-home care who required visitation. Of these children, visitation was documented in the automated system for 16,985 children.

CHART 28
THE NUMBER AND PERCENTAGE OF CHILDREN WHO RECEIVED THE REQUIRED VISITATION

Department policy requires specialists to have face-to-face contact with all parents at least once a month, including any alleged parents and parents residing outside of the child's home where the case plan goal is family reunification. During the current reporting period, there were 5,137 parents who had a child with the case plan goal of reunification. Of those parents requiring visitation, 2,570 (50.0%) received the required visitation. This number does not reflect attempted visitation where contact with the parent(s) did not take place.

CHART 29 NUMBER OF CHILDREN RECEIVING AND NOT RECEIVING VISITATION BY REPORTING PERIOD

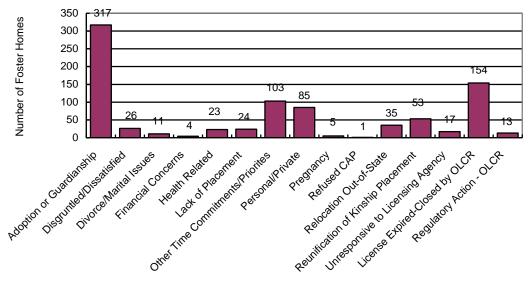

#### **FOSTER HOME LICENSING, CLOSURES, & VISITATION**

As of March 31, 2016 there were 4,681⁹ foster homes licensed for a total capacity of 10,337 spaces. Of the spaces, 2,885 are reported by contractors to be unavailable for placements. Reasons for this include, but are not limited to, licensing restrictions on age, bed holds for youth in treatment or hospitalization, foster parents' need for temporary reprieve from placements and corrective action plans.

Licensed foster homes include family foster homes, professional family foster homes (HCTC homes), respite foster homes, receiving foster homes, and developmentally disabled homes with DCS children placed in them. Foster home licenses specify the age range, gender and maximum number of children that can be placed in a home. Foster parents, in consultation with the licensing worker, decide the type of physical, behavioral, and psychological needs of children they can effectively parent based upon their own skill level, experiences, and desires.

During the current reporting period, 882 new homes were licensed to provide foster care and 871 homes left the system. This compares to 774 new homes being licensed and 767 homes leaving the system during the prior reporting period. The following chart gives the reasons for foster home closures for the current reporting period.

CHART 30 REASON FOR FOSTER HOME CLOSURE FOR THE PERIOD OF OCTOBER 1, 2015 THROUGH MARCH 31, 2016

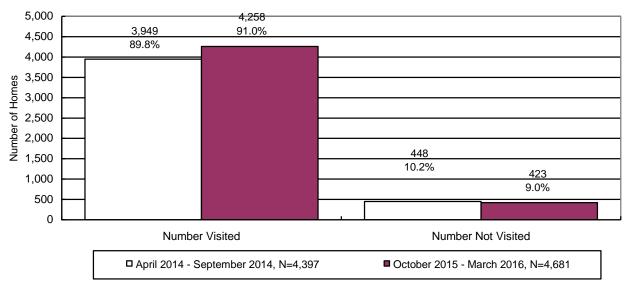

N=871

⁹ The number of homes cited in this report differs from the number cited by the Office of Licensing, Certification & Regulation (OLCR) due to the fact that the DCS utilizes both foster homes managed through HRSS contracts as well as homes that are licensed for developmental disabilities, licensed by the tribes, etc.

Chart 31 displays the number of foster homes that received the required visitation in the current and prior reporting periods. The Department believes that more foster homes received the required visitation than is indicated in the chart below. The under-reporting of foster home visitation is attributable to the lack of automation being used in reporting the foster home visitation process. The Department recognizes this as a problem and is working to correct this issue.

CHART 31
THE NUMBER AND PERCENTAGE OF FOSTER HOMES WHO RECEIVED THE REQUIRED VISITATION*

^{*}Required visitations to foster homes, for license monitoring purposes, are performed by licensing agency specialist.

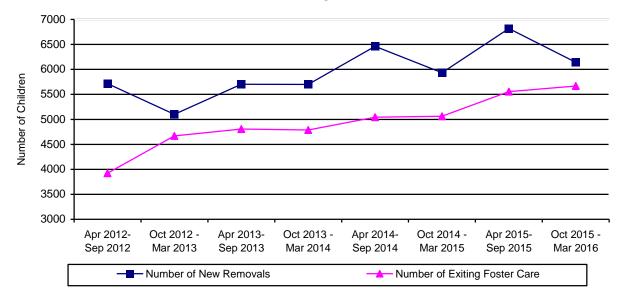

## **CHILDREN EXITING OUT-OF HOME CARE**

Table 35 below shows the history of the number of children who left the custody of the Department.

TABLE 35 CHILDREN EXITING OUT-OF-HOME CARE BY PERIOD

The number of child maltreatment deaths presented in the Semi-Annual Report is not comparable to child maltreatment deaths reported on the website by the Arizona Department of Child Safety (ADCS).

- DCS posts information in accordance with A.R.S. § 8-807 on child fatalities due to abuse or neglect
  by the child's parent, custodian or caregiver at: <a href="https://dcs.az.gov/news/child-fatalities-near-fatalities-information-releases">https://dcs.az.gov/news/child-fatalities-near-fatalities-information-releases</a>.
- This information is posted when the information comes to DCS's attention and a final determination of the fatality due to abuse or neglect has been made by either a substantiated finding or specific criminal charges filed against a parent, guardian or caregiver for causing the fatality.

• The information that comes to DCS's attention and the determination of the fatality due to abuse or neglect may occur sometime after the actual incident for a number of reasons including a determination by a medical professional, a medical examiner, or a criminal child abuse arrest and charge of the perpetrator.

# **CHILDREN WITH CASE PLAN GOALS OF ADOPTION**

Of the 18,906 children in out-of-home care on March 31, 2016, there were 4,224 or 22.3% who had a case plan goal of adoption. Of those, 2,602 have been placed and another 1,622 have not been placed. The age and ethnicity of the children with a case plan goal of adoption is displayed in Chart 36 and Chart 37.
