| Summary Report | Near Fatality | 09/27/18 |
|-----------------------|----------------------|-----------------|

1. Victim: 5 month old - Male

2. Was the child residing in the child's home or in an out-of-home placement at the time of the near fatality?

The child was residing in his home when the following incident occurred:

On October 17, 2017, the Department of Child Safety received a report regarding a 5 month old child who was found unresponsive while in the care of a family member. At the hospital, it was determined the child had a brain bleed and retinal hemorrhages in both eyes and the injuries were suspected to be non-accidental. It was later determined the child was in critical condition. The Court found that the termination of Samantha Lyons rights was in the best interest of this child based on concerns the mother physically abused the child.

3. If the victim in the Preliminary Report involved a child residing in the child's home, the following information will be provided:

a. Services being provided to the child, a member of the child's family or the person suspected of the abuse or neglect at the time of the incident and the date of the last contact before the incident between the entity providing services and the person receiving services:

No services were being provided to the family by the Department of Child Safety at the time of the incident.

b. Was the child, a member of the child's family or the person suspected of the abuse or neglect the subject of a report for investigation at the time of the incident?

No.

c. All involvement of the child's parents and of the person suspected of the abuse or neglect in a situation for which a report for investigation was made or in services provided pursuant to this chapter in the five years preceding the incident:

There has been no prior involvement of the child's parents with DCS.

d. Any investigation pursuant to a report for investigation concerning the child, a member of the child's family or the person suspected of the abuse or neglect or services provided to the child or the child's family since the date of the incident involving the near fatality:

Following the assessment of child safety, the other child in the home was removed and placed in foster care. The investigation of the near fatality report resulted in the child being placed in licensed foster care after their release from the hospital. The Department filed a dependency petition with the Maricopa County Juvenile Court and the Court ultimately terminated Samantha

Lyons parental rights. Services were provided to the family. No subsequent reports have been received.

4. If the victim in the Preliminary Report involved a child residing in an out-of-home placement, the following information will be provided:

a. Licensing Agency:

N/A

b. Licensing history of the out-of-home placement, including the type of license held by the operator of the placement and the period for which the placement has been licensed:

N/A

c. Summary of all violations by the licensee:

N/A

d. Any other actions by the licensee or an employee of the licensee that constitute a substantial failure to protect and promote the health, safety and welfare of a child.

N/A

5. Actions taken by the Department in response to the case including any changes to policy or practice and/or recommendations for further changes in policies, practices, rules or statutes:

The Department conducted a joint investigation with the Glendale Police Department. Following the assessment of child safety, the other child in the home was removed and placed in foster care. Upon release from the hospital, the near fatality victim was placed in a licensed foster home. The Department filed a dependency petition with the Maricopa County Juvenile Court and the Court ultimately terminated Samantha Lyons parental rights. Services were provided. No subsequent reports have been received.

Additionally, in accordance with the DCS Strategic Plan for State Fiscal Year 2016 (FY16), multidisciplinary team (MDT) reviews of fatality and near fatality cases were implemented during the first quarter of FY16. The MDT reviews of fatality and near fatality cases, especially those with prior DCS involvement, are a key feature of the Strategic Plan and support the objective of increasing the accuracy of safety and risk assessments in investigations.

This case was reviewed by the MDT in order to identify any systemic factors, both internal and external to the Department that may have had an impact. The Department is using the aggregate data gathered through all of the MDT reviews to assess and guide future changes and/or recommendations to policies, practices, rules or statutes. Findings from these reviews will be compiled into an annual report to be shared on the DCS website. The target date for release of this report is December 1, 2018.
