Additionally, in accordance with the DCS Strategic Plan for State Fiscal Year 2016 (FY16), multidisciplinary team (MDT) reviews of fatality and near fatality cases were implemented during the first quarter of FY16. The MDT reviews of fatality and near fatality cases, especially those with prior DCS involvement, are a key feature of the Strategic Plan and support the objective of increasing the accuracy of safety and risk assessments in investigations.

This case was reviewed by the MDT in order to identify any systemic factors, both internal and external to the Department that may have had an impact. The Department is using the aggregate data gathered through all of the MDT reviews to assess and guide future changes and/or recommendations to policies, practices, rules or statutes. Findings from these reviews will be compiled into an annual report to be shared on the DCS website. The target date for release of this report is December 1, 2019.
