

DEPARTMENT OF ECONOMIC SECURITY

Your Partner For A Stronger Arizona

Janice K. Brewer
Governor

Clarence H. Carter
Director

JAN 24 2013

The Honorable Janice K. Brewer
Governor of Arizona
1700 West Washington
Phoenix, Arizona 85005

Dear Governor Brewer:

Pursuant to A.R.S. § 8-526, the Arizona Department of Economic Security (DES) submits the enclosed semi-annual report on child welfare for the period of April 1, 2012 through September 30, 2012. This report provides information relative to reports of child abuse and neglect, investigations, shelter and receiving home services, foster homes, length of care, and adoptions.

We continue to work diligently to improve the quality of services for children and their families. Compiling this report provides us another opportunity to review our work and consider new ways to improve.

If you have any questions, please contact me at (602) 542-5757.

Sincerely,

Clarence H. Carter
Director

Enclosure

CHILD WELFARE REPORTING REQUIREMENTS

SEMI-ANNUAL REPORT

FOR THE PERIOD OF

APRIL 1, 2012 THROUGH SEPTEMBER 30, 2012

ARIZONA REVISED STATUTES

[LAWS 2011, CHAPTER 147]

ARIZONA DEPARTMENT OF ECONOMIC SECURITY

DIVISION OF CHILDREN, YOUTH AND FAMILIES

CHILD WELFARE REPORTING REQUIREMENTS

Arizona Revised Statute § 8-526, as amended by Laws 2011, Chapter 147 requires the Arizona Department of Economic Security (DES) to compile information and produce a semi-annual report for the periods ending on March 31st and September 30th of each year regarding Child Welfare Services, including Child Protective Services (CPS). This report, submitted in satisfaction of that mandate, is for the semi-annual reporting period beginning on April 1, 2012 and ending on September 30, 2012.

TABLE OF CONTENTS

(Reporting period: April 1, 2012 through September 30, 2012)

Total number exiting care – for reason of reaching age of majority.....	55
Total number exiting care – for reason of transfer to another agency.....	56
Total number exiting care – for reason of runaway.....	57
Total number exiting care – for reason of death of child.....	58
Total number exiting care – by cause of death.....	59
Total number exiting for reason of death of child – with alleged abuse.....	59
 CHILDREN WITH CASE PLAN GOALS OF ADOPTION	
Number of children with a petition for termination of parental rights.....	60
The placement and number of children with case plan goals of adoption by age.....	61
The placement and number of children with case plan goals of adoption by ethnicity.....	62
The placement and number of children with case plan goals of adoption by legal status..	62
Number of children – length of time from change of case plan goal of adoption to adoptive placement.....	63
Number of children in an adoptive placement by the marital status of the adoptive parent.....	63
Number of children in an adoptive placement by the relationship of the adoptive parent.....	64
 DISRUPTIONS	
Number of children with a case plan goal of adoption in an adoptive placement that disrupted by age and ethnicity.....	64
Number of children with a case plan goal of adoption in an adoptive placement that disrupted by the marital status of the adoptive parent.....	65
Number of children with a case plan goal of adoption in an adoptive placement that disrupted by the relationship of the adoptive parent.....	65
 ADOPTIVE SERVICES	
Number of children with a finalized adoption by average length of time in out-of-home placement before adoptive placement.....	66
Number of children with a finalized adoption by average length of time in adoptive placement before the final order of adoption.....	67
Number of Children with a finalized adoption by the marital status of the adoptive parent.....	67
Number of children with a finalized adoption by the relationship of the adoptive parent.	68

Executive Summary

The Arizona Department of Economic Security's Division of Children, Youth and Families (Division) is pleased to publish this semi-annual report for April 2012 through September 2012 in compliance with A.R.S. § 8-526. This report is intended to provide its readers an opportunity to review the Division's progress in implementing systemic improvement strategies as they impact key performance indicators.

The Division has continuously pursued strategies to achieve improved outcomes for children and families. Many of these strategies have been highlighted in previous editions of this report and other Division publications, and have included strengthening of the Division's quality improvement system, increasing staff skill in the application of the Division's integrated child safety assessment and risk assessment tools, and strengthening in-home services to safely avoid removing children from their homes. Current areas of focus and development include conducting targeted case reviews to identify specific opportunities to move toward reunification or other permanency plans in a more timely fashion; enhancing and strengthening Child Protective Services (CPS) clinical supervision through training and coaching experiences.

The data contained within this Semi-Annual Report, when combined with other child welfare-related information in the Department, highlights progress made in certain areas while also helping to identify where continued focus is needed.

Child Abuse Hotline and Child Protective Services (CPS) Investigations

The statewide Child Abuse Hotline received 31,756 calls during this reporting period. Of those, 10,131 – or 31.9 percent – *did not meet* the statutory criteria for a CPS report. Calls that did not meet the criteria for a CPS report included: requests for information or referrals for services; questions about current cases; and allegations of abuse or neglect where the alleged perpetrator was not the child's parent, guardian or custodian (those calls are referred to law enforcement for response). Every call that does not meet the criteria for a CPS report is reviewed within 48 hours by quality assurance staff to ensure the accuracy of that decision.

The statewide Child Abuse Hotline received 21,625 calls during this reporting period that met the statutory criteria for a CPS report. Of those, 269 were referred to other jurisdictions, the military or tribal governments for investigation. An additional 943 of these reports were responded to through an in-depth alternative assessment conducted by the Social Work Assessment Team. This includes a comprehensive triage by a team of senior SWAT staff and/or contact with reporting sources and other persons who had information about the child(ren) through staff follow-up. Prior to an alternative assessment, the child's and family's circumstance may meet one or more of the following criteria: no current safety threat indicated; the perpetrator had no current access to the child(ren) victim; child(ren) were visible in the community; and prior history on the child and family did not indicate a current safety concern to the child. The remaining reports (20,413) were assigned to child welfare specialists for investigation. This resulted in 20,413 CPS reports being assigned to child welfare specialists for investigation. Compared to the same reporting period last year, this represents an increase of 1,139 CPS reports assigned for investigation – or 5.9 percent. This increase in CPS reports requiring an investigation has primarily occurred in Pinal and Coconino counties.

Of the 20,413 CPS reports assigned for investigation during this reporting period, 9,168 reports – or 44.9 percent – had investigation closures entered into the Children’s Information Library and Data Source (CHILDS) statewide case management information system. Closing an investigation means that the initial investigation of the original allegations of abuse or neglect has been completed and the appropriate case plan is put in place, as needed. Many factors can impact the closure of an investigation, including time needed for the child welfare specialists to obtain all information required to complete an accurate and thorough assessment.

Of the 20,413 CPS reports subject to substantiation during this reporting period, 1,704 – or 8.3 percent – were substantiated. An additional 832 CPS reports – or 4.1 percent – were proposed for substantiation by child welfare specialists and are currently awaiting the results of the appeals process. Over time, the number of substantiated and proposed substantiated CPS reports associated with this time period will increase as investigation findings are entered into CHILDS. It is sometimes difficult to substantiate allegations of abuse or neglect because current state laws that define child maltreatment do not include many situations related to child neglect or sexual abuse.

Children in Out-of-Home Care

The Division remains committed to working with the community to keep children safe, strengthen families, and prevent the need for children to be removed from their homes. The number of children in out-of-home care increased from 12,453 in the prior reporting period to 14,111 in September 2012. Of the children in out-of-home care, the Division continues its success in placing children in the most family-like setting possible. In September 2012, 11,391 children – or approximately 80.7 percent of all children in out-of-home care – were placed with relatives or licensed foster parents. An additional 58 children were placed with their parents on a trial home visit and 325 youth were residing in independent living settings. Efforts to increase the number of licensed foster parents who are able to meet the needs of children requiring out-of-home placement resulted in 999 new homes being licensed during this reporting period.

The Division continues to focus on the number of young children in shelter and group home care. In September 2012, there were 39 young children ages 0 through 3 in shelter care. Placement of young children in shelter care continues to be influenced by the need to place some children after regular work hours, such as weekends, as well as the placement of children in a specialized shelter in Pima County for medically fragile children. The Division has also worked diligently to reduce the number of very young children in group homes. In September 2012, there were 56 young children ages 0 to 6 in group homes. There are times when placement of young children in group homes is in the best interests of the children; for example, when group placement would allow siblings to stay together or when group placement is considered the least restrictive placement for a child with behavioral issues.

The state requires that CPS conduct monthly face-to-face visitation with children in foster care. The current report shows that 73.7 percent of the children in foster care received their visitation during the last month of the reporting period. This compares to 78.1 percent receiving their visit during the last month of the reporting period ending March 2012. The Division recognizes a strong correlation between CPS specialist visits with children, visits between parents and children, and positive outcomes for these children, such as achieving permanency and other indicators of child well-being. The Division continues to make efforts to improve its rate of visitation.

Permanency for Children

The Division continues to work toward achieving permanency for children placed in out-of-home care. The total number of children achieving permanency through family reunification, adoption or legal guardianship was 3,923 this reporting period, compared to 3,574 the same reporting period last year.

Compared to the same reporting period last year, in this reporting period:

- 2,052 children exited the system to family reunification, an increase of 269 children – or 15.1 percent.
- 1,025 children exited to adoption, a decrease of 53 children – or 4.9 percent.
- 290 children exited to guardianship, an increase of 52 children – or 21.9 percent.

Challenges

The Division continues to face challenges in its efforts to ensure safety and promote permanency for abused and neglected children. Some of the challenges the Division has faced in meeting these goals are:

- Retention of child protective services specialists and supervisors.
- Recruitment of foster and adoptive homes for older youth ages 12 to 18 years old.
- Increase in the number of Child Abuse Hotline reports, particularly in the urban counties.
- Increased number of children in out-of-home care.

Despite these challenges, the Division has implemented and will continue to implement process improvements to ensure child welfare staff has the tools they need to do their jobs effectively. The Division continues to work in partnership with the federal government to meet the federal Child and Family Service Review (CFSR) standards to improve outcomes for the children and families it serves.

Number of Children With a Finalized Adoption	764	891	1,034	991	1,186	1,078	1,224	1,025

¹ Since the appeals process delays the substantiation of reports, revisions to the substantiation rate for the prior reporting period will occur with every semi-annual report produced.

Reports of Child Abuse & Neglect

Child abuse and neglect are defined in A.R.S. §8-201 and A.R.S. §13-3623 (A). These definitions provide the major categories in this report.

Between April 1, 2012 and September 30, 2012, there were 21,625 incoming communications to the Child Abuse Hotline that met the criteria for a report of abuse or neglect. Of these, 269 were within the jurisdiction of military or tribal governments and were referred to those jurisdictions. This compares to 20,466 incoming communications received during the last reporting period which met the criteria of a report of abuse or neglect.

Table 1 shows the number of reports received by the Department by category of maltreatment for the last eight reporting periods. The table shows that for the current reporting period 14,722 or 68.1 percent of the 21,625 reports of maltreatment were related to allegations of neglect, 5,974 or 27.6 percent of the reports were related to allegations of physical abuse, 764 or 3.5 percent of the reports were related to allegations of sexual abuse, and 165 or 0.8 percent of the reports were related to allegations of emotional abuse.

**TABLE 1
REPORTS BY REPORTING PERIOD AND TYPE OF MALTREATMENT**

	Neglect	Physical Abuse	Sexual Abuse	Emotional Abuse	Total
October 2008 – March 2009	9,845 57.6%	6,064 35.5%	975 5.7%	210 1.2%	17,094 100.0%
April 2009 – September 2009	9,666 59.9%	5,372 33.3%	919 5.7%	177 1.1%	16,134 100.0%
October 2009 – March 2010	10,127 59.2%	5,866 34.3%	930 5.4%	187 1.1%	17,110 100.0%
April 2010 – September 2010	10,561 61.8%	5,515 32.3%	812 4.8%	180 1.1%	17,068 100.0%
October 2010 – March 2011	10,960 62.3%	5,755 32.7%	712 4.1%	159 0.9%	17,586 100.0%
April 2011 – September 2011	13,158 66.8%	5,615 28.6%	739 3.8%	154 0.8%	19,666 100.0%
October 2011 – March 2012	13,369 65.3%	6,198 30.3%	739 3.6%	160 0.8%	20,466 100.0%
April 2012 – September 2012	14,722 68.1%	5,974 27.6%	764 3.5%	165 0.8%	21,625 100.0%

Chart 1 illustrates that the number of CPS reports received by the CPS Hotline has increased by 1,959 reports or 10.0 percent over the past year. Comparing the current reporting period to the prior reporting period, the number of reports received increased by 1,159 reports or 5.7 percent.

**CHART 1
REPORTS OF CHILD ABUSE AND NEGLECT BY REPORTING PERIOD**

In addition to the 21,625 reports during the current reporting period, the Child Abuse Hotline received 10,131 communications that did not meet the statutory criteria of a report of maltreatment. A random sample of these communications is contained in the chart below.

CHART 2
SAMPLE OF COMMUNICATIONS TO THE CHILD ABUSE HOTLINE THAT DO NOT MEET THE STATUTORY REQUIREMENTS OF A REPORT OF ABUSE OR NEGLECT

N=90

- A = Concern Only/No Allegation of Child Abuse or Neglect**
- B = Out of CPS Jurisdiction**
- C = Call Appropriate for Law Enforcement Jurisdiction²**
- D = Non-Caretaker Neglect/Child No Longer at Risk**
- E = Insufficient Information**
- F = Truancy/Custody Issues**
- G = Current Case Questions or Referrals**

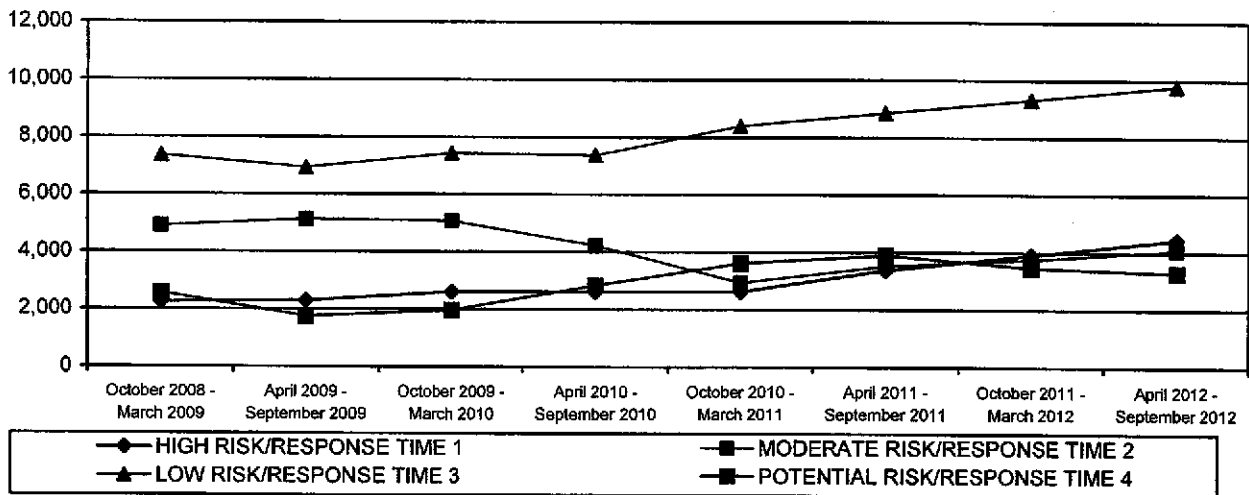

All communications that do not meet the statutory requirements for a field investigation of abuse or neglect are reviewed within 48 hours by DES quality assurance staff.

² The category "Call Appropriate for Law Enforcement Jurisdiction" refers to a situation where the alleged perpetrator is not a parent or primary caretaker and the allegations, if true, would constitute a crime.

For the current reporting period, the CPS Hotline classified 20.6 percent of the reports received as response time 1; 18.9 percent as response time 2; 45.3 percent as response time 3; and 15.2 percent as response time 4.

For the current reporting period, the CPS Hotline classified 0.8 percent of CPS reports as emotional abuse; 68.1 percent as neglect; 27.6 percent as physical abuse; and 3.5 percent as sexual abuse.

ASSIGNMENT OF INVESTIGATIONS

During the reporting period, there were 21,625 calls to the CPS Hotline that met the statutory criteria for a report. Of those, 269 reports fell within the jurisdiction of military or tribal governments and 943 reports were given an alternative assessment status. This left 20,413 reports that were assigned to be investigated by CPS. The following tables and charts in this section provide statewide and county level information on these reports.

During this reporting period, there were 20,413 reports assigned for investigation. Of these, CPS completed 9,168 investigations or 44.9 percent. Investigations not completed remain open when the investigation is still in process, when the CPS specialist is waiting for the results of a law enforcement investigation and/or receipt of records that impact the investigation finding, or when the investigation has been completed but is awaiting supervisory review and approval.

By statute, a random sample of reports not responded to for the period is required. In addition, short descriptions of these reports are also required. For the current reporting period, there were 943 reports that were given an alternative assessment status. A random sample of 273 reports not responded to were reviewed. Chart 7 displays the 273 reports in brief descriptive categories.

COMPLETED INVESTIGATIONS

Substantiated reports are reports where the Department has determined that at least one of the allegations in the report of abuse and/or neglect is true. The number of reports that are considered substantiated are a subset of the total number of reports that were received, investigated, and closed during the reporting period.

The preliminary number of CPS reports that are substantiated for this reporting period is 1,704. For the prior reporting period, the number of CPS reports that were assigned for investigation that resulted in substantiated findings was revised from 1,310 to 2,748 to reflect subsequent decisions based on parents' rights to due process. For the current reporting period, 47.2 percent of substantiated investigative findings were classified as response time 1; 23.9 percent as response time 2; 22.6 percent as response time 3; and 6.3 percent as response time 4. Prior to October 1, 2009 potential risk (response time 4) reports were not substantiated by CPS. For the prior reporting period, 43.8 percent of substantiated investigative findings were classified as response time 1; 23.5 percent as response time 2; 23.9 percent as response time 3; and 8.8 percent as response time 4.

- There were 20,413 reports received during the current reporting period that were subject to substantiation. This results in a preliminary substantiation rate of eight percent for the current reporting period.
- There were 19,274 reports received during the prior reporting period that were subject to substantiation. This results in a 14 percent substantiation rate for the prior reporting period.

The preliminary number of CPS investigations that resulted in an unsubstantiated finding for this reporting period was 7,265. For the prior reporting period, the number of CPS reports that were unsubstantiated was revised from 6,846 to 11,340 to reflect updated information in the CHILDS case management information system. For the prior reporting period, 16.2 percent of unsubstantiated reports were classified as response time 1, 18.5 percent as response time 2, 48.5 percent as response time 3, and 16.8 percent as response time 4. One percent of these unsubstantiated reports related to emotional abuse, 64.0 percent to neglect, 31.7 percent to physical abuse, and 3.3 percent to sexual abuse.

SAFE HAVEN INFANTS

There were three newborn infants delivered to Safe Haven providers during the April 2012 – September 2012 reporting period. This compares to no infants being delivered to Safe Haven providers during the October 2011 – March 2012 reporting period.

CHILDREN ENTERING OUT-OF-HOME CARE

During this reporting period, 5,716 children entered care as compared to 4,968 children for the October 2011 through March 2012 reporting period. Chart 18 displays children entering out-of-home care by reporting period.

**CHART 18
TOTAL CHILDREN ENTERING OUT-OF-HOME CARE BY REPORTING PERIOD**

CHILDREN ENTERING OUT-OF-HOME CARE – VOLUNTARY SERVICES

The number of children entering out-of-home placement through voluntary foster care agreements for this reporting period was 116, which represents 2.0 percent of the children entering care this reporting period. Table 29 shows the number of children entering out-of-home care through voluntary placements for the current reporting period by county. Voluntary foster care may be provided when the parents or legal guardians of a child have requested such assistance and have signed a legally binding written agreement, not to exceed 90 days, for the temporary placement of the child in foster care while risk factors are addressed to enable the child to live safely at home. A voluntary foster care agreement may be utilized only when the circumstances that brought the child into foster care are likely to be remedied within the 90 day period of time. A.R.S. § 8-806 authorizes the Department to provide voluntary foster care placement for children for a period not to exceed 90 days and no more than twice within 24 consecutive months.

CHART 19
NUMBER OF CHILDREN ENTERING OUT-OF-HOME CARE BY REPORTING PERIOD

CHILDREN IN OUT-OF-HOME CARE

On September 30, 2012, there were 14,111 children in out-of-home care as compared to 12,453 children on March 31, 2012, an increase of 1,658 children. During this reporting period, 11,390 children or 80.8 percent were placed in family settings either with relatives or in foster homes. This compares to 10,048 or 80.6 percent of the children in the prior reporting period.

**CHART 20
NUMBER OF CHILDREN IN OUT-OF-HOME CARE ON THE LAST DAY OF THE REPORTING PERIOD BY REPORTING PERIOD**

Chart 21 displays an increase in the number of young children ages 0-6 placed in group homes. Comparing March 2008 to September 2012, the number of young children in group homes increased by 47 children.

Chart 22 displays the increase in the number of young children ages 0-3 placed in shelter care. Comparing March 2008 to September 2012, the number of young children in shelters increased by 15 children. Chart 23 shows that the average length of time in shelter care has increased; comparing March 2008 to September 2012, the average length of stay in shelter increased from 103.4 to 158.5 days, an increase of 55.1 days or 53.3 percent.

CHART 21
THE NUMBER OF CHILDREN IN GROUP HOMES AGES 0 THROUGH 6³

CHART 22
THE NUMBER OF CHILDREN IN SHELTER CARE AGES 0 THROUGH 3

³ Excludes infants placed with their mothers and children placed in foster home group models.

CHART 23
THE AVERAGE LENGTH OF STAY FOR CHILDREN AGES 0 TO 3 IN A SHELTER PLACEMENT ON THE LAST DAY OF THE REPORTING PERIOD

The majority of children in out-of-home care fall within the 1-5 age range (35.0 percent) and the 13-17 age range (23.4 percent). The majority of children in out-of-home care are either Caucasian (37.6 percent) or Hispanic (36.4 percent), followed by African American (13.9 percent).

■ March 31, 2012, N=12,453

CHART 25
THE NUMBER OF CHILDREN IN OUT-OF-HOME CARE BY ETHNICITY

For 50.7 percent of the children in out-of-home care, family reunification remains the primary case plan goal. This is followed by: adoption, 19.3 percent; independent living, 9.0 percent; long-term foster care, 2.6 percent; live with other relative, 1.1 percent; and, guardianship at 0.2 percent. For the remaining 17.1 percent of the children, the case plan goal is in the process of development.

⁴ This category includes shelter, detention, and hospital placement types.

⁵ This category includes children whose parents absconded with the child(ren) during this reporting period.

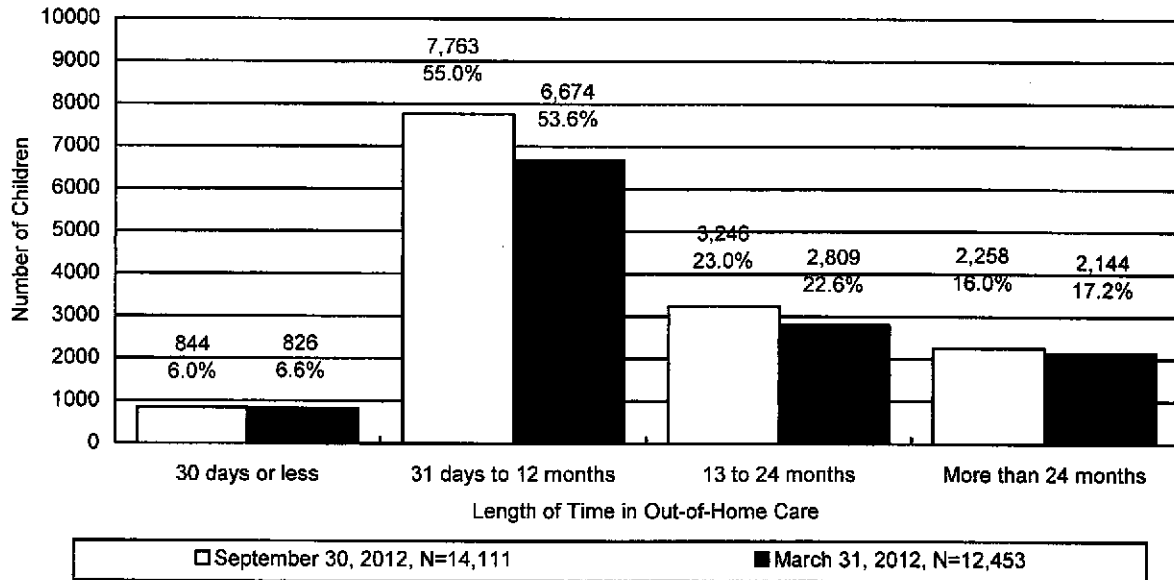

During the reporting period 764 children remained in a shelter or receiving home for more than 21 consecutive days. Chart 28 displays children in shelter more than 21 days for the period of April 1, 2012 through September 30, 2012 and shows that 638 or 83.5 percent of the children were six years of age or older. In addition, 17 or 2.2 percent of the children were under one year old.

CHART 28
NUMBER AND PERCENTAGE OF CHILDREN IN SHELTER OR RECEIVING HOMES FOR MORE THAN 21 CONSECUTIVE DAYS BY AGE OF CHILD⁶

⁶ The chart displays children who spent more than 21 days in shelter during the period. This number differs from the other out-of-home charts as they display children in out-of-home care on the last day of the reporting period.

CHART 29
THE NUMBER OF CHILDREN IN OUT-OF-HOME CARE BY LENGTH OF TIME IN CARE

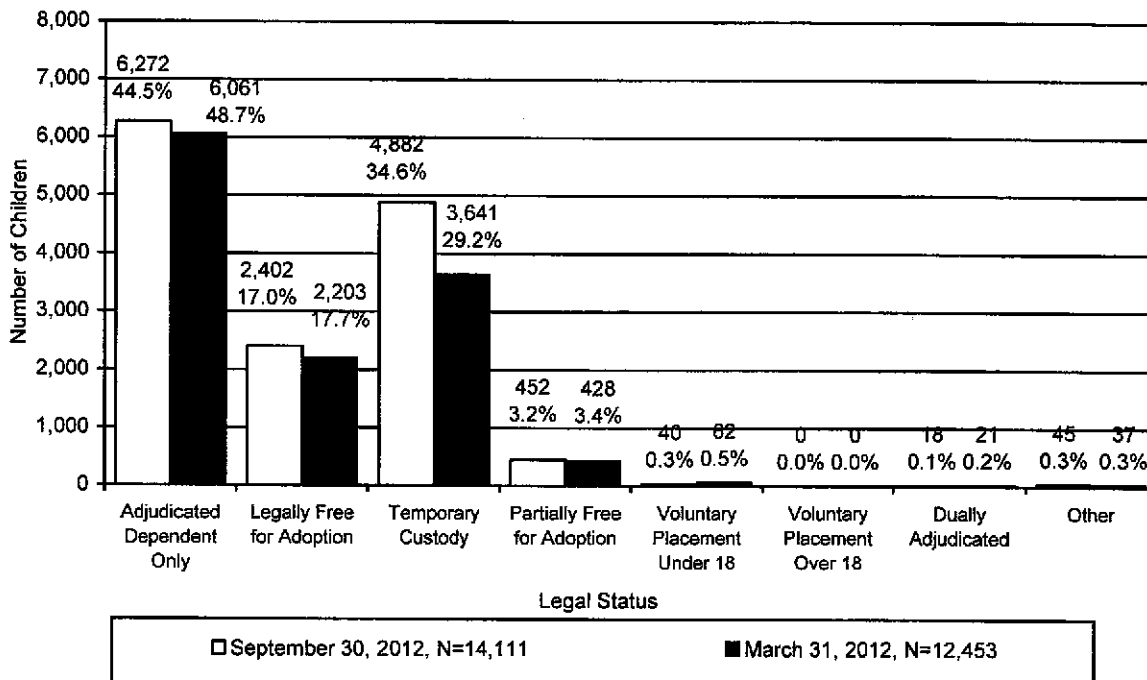

For the children in out-of-home care on September 30, 2012 the average number of placements was 2.4, the median number of placements was 2.0, and the range for the number of placements was 1 to 43 placements during their current removal episode.

TABLE 34
PLACEMENT INFORMATION FOR CHILDREN IN OUT-OF-HOME CARE ON SEPTEMBER 30, 2012

	Placements
Average	2.4
Median	2.0
Range Minimum	1
Range Maximum	43 ⁷

⁷ Some children are so impacted by the severity of the abuse they have suffered that they become unable to form meaningful relationships or to respond to services. These children tend to go through multiple placements with numerous individuals and agencies.

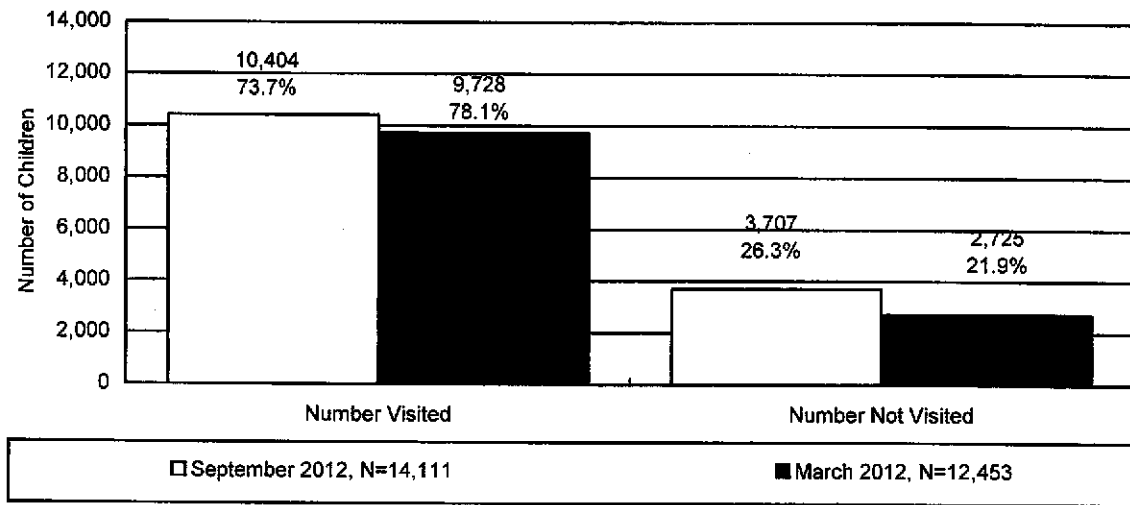

**CHART 30
CHILDREN IN OUT-OF-HOME CARE BY LEGAL STATUS**

At the end of the reporting period there were 14,111 children in out-of-home care who required visitation. Of these children, visitation was accurately documented in the automated system for 10,404 children. As displayed in Chart 31, during this reporting period, the percent of children receiving required visits by CPS decreased by 4.4 percent to 73.7 percent.

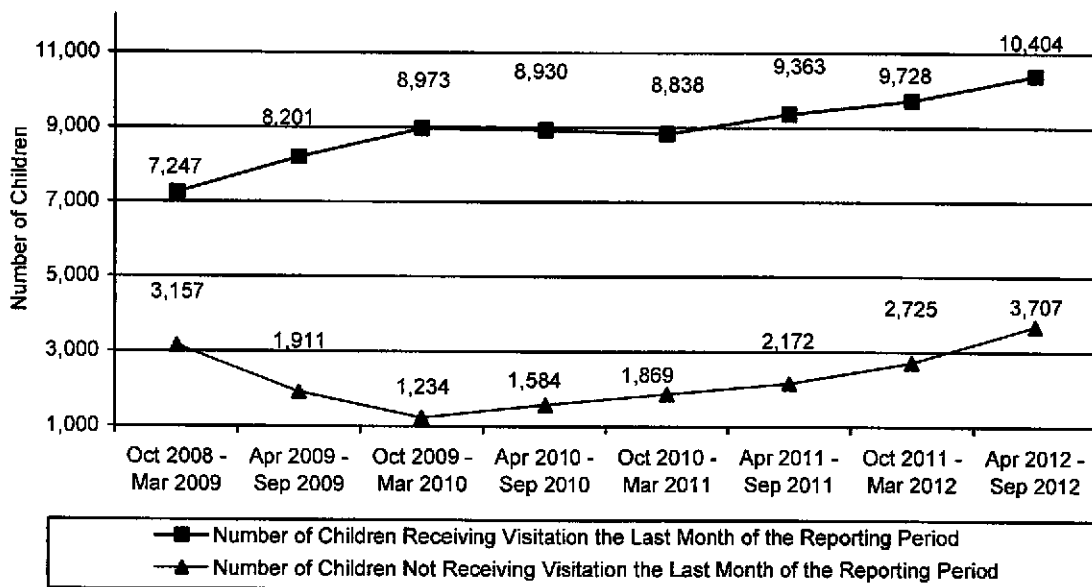

The required child visitation is performed monthly by CPS, contracted case managers, and/or other professionals as approved by a supervisor or as established by policy. The Department has verified that more children received the required visitation than is indicated in Chart 31. This information is clearly documented in the automated case notes. However, the Department is unable to compile and tabulate data based solely upon case note text. The Department continues to issue instructions to all direct service staff regarding the system requirements for capturing all visitations. A child was deemed to have received the required visitation if the child received the visitation during the last month of the reporting period.

CHART 31
THE NUMBER AND PERCENTAGE OF CHILDREN WHO RECEIVED THE REQUIRED VISITATION

According to the Division for Children, Youth and Families policy, CPS specialists shall have face-to-face contact with all parents at least once a month, including any alleged parents and parents residing outside of the child’s home where the case plan goal is family reunification or remain with family. During the reporting period, there were 1,987 parents who had a child with the case plan goal of return home. Of those parents requiring visitation, 1,017 or 51.2 percent received the required visitation. The 51.2 percent visitation rate does not reflect attempted visitation where contact with the parent(s) did not take place.

CHART 32
NUMBER OF CHILDREN RECEIVING AND NOT RECEIVING VISITATION BY REPORTING PERIOD

FOSTER HOME LICENSING, CLOSURES, & VISITATION

As of September 30, 2012, there were 3,748⁸ foster homes licensed for a total capacity of 7,716 spaces. Of these, 2,071 are reported by contractors to be unavailable for placements. An additional 638 were unused spaces within these foster homes. Of the unused spaces, a match between the available spaces and children’s needs was not possible.

Licensed foster homes include family foster homes, professional family foster homes, respite foster homes, receiving foster homes, and developmentally disabled homes with DCYF children placed in them. Foster home licenses specify the age range, gender and maximum number of children that can be placed in a home. Foster parents, in consultation with the licensing worker, decide the type of physical, behavioral, and psychological needs of children they can effectively parent based upon their own skill level, experiences, and desires.

During the reporting period, 999 new homes were licensed to provide foster care and 747 homes left the system. This compares to 663 new homes being licensed and 679 homes leaving the system for the period covering October 2011 through March 2012. The chart below gives the reasons for foster home closures for the period of April 1, 2012 through September 30, 2012.

**CHART 33
REASON FOR FOSTER HOME CLOSURE FOR THE PERIOD OF
APRIL 1, 2012 THROUGH SEPTEMBER 30, 2012**

N=747

⁸ The number of homes cited in this report differs from the number cited by the Office of Licensing, Certification & Regulation (OLCR) due to the fact that the Division for Children, Youth & Families utilizes foster homes that are licensed for developmental disabilities, licensed by the tribes, etc.

During the reporting period, there were 3,748 foster homes that required visitation. Of the 3,748 foster homes requiring visitation, 3,095 or 82.6 percent of foster homes received their required visitation. This compares to 3,132 or 79.9 percent of the foster homes that received the required visitation for the period October 2011 through March 2012. The Department believes that more foster homes received the required visitation than is indicated in the chart below. The under-reporting of foster home visitation is attributable to the lack of automation being used in reporting the foster home visitation process. The Department recognizes this as a problem and is working to correct this issue.

CHART 34
THE NUMBER AND PERCENTAGE OF FOSTER HOMES WHO RECEIVED THE REQUIRED VISITATION*

*Required visitations to foster homes, for license monitoring purposes, are performed by licensing case managers.

CHILDREN EXITING OUT-OF HOME CARE

During the reporting period, 3,923 children left the custody of the Department. This compares to 3,826 children exiting care during the prior reporting period. The comparison between the two reporting periods shows that 2.5 percent more children left care this reporting period for an increase of 97 children exiting care.

**TABLE 35
CHILDREN EXITING OUT-OF-HOME CARE BY PERIOD**

REPORTING PERIOD	NUMBER OF CHILDREN DISCHARGED	% CHANGE OVER PRIOR PERIOD
OCTOBER 2008 – MARCH 2009	3,590	-4.9%

The number of child maltreatment deaths presented in the Semi-Annual Report is not comparable to child maltreatment deaths reported by the Arizona Department of Economic Security (ADES).

- ADES posts information in accordance with A.R.S. § 8-807 on child fatalities due to abuse or neglect by the child's parent, custodian or caregiver at: www.azdes.gov/cpsinfo.
- This information is posted when the information comes to ADES' attention and a final determination of the fatality due to abuse or neglect has been made by either a substantiated finding or specific criminal charges filed against a parent, guardian or caregiver for causing the fatality.
- The information that comes to DES' attention and the determination of the fatality due to abuse or neglect may occur sometime after the actual incident for a number of reasons including a determination by a medical professional, a medical examiner, or a criminal child abuse arrest and charge of the perpetrator.

CHILDREN WITH CASE PLAN GOALS OF ADOPTION

Of the 14,111 children in out-of-home care on September 30, 2012, 2,719 or 19.3 percent had a case plan goal of adoption. Most of those children, 47.3 percent, are in the 1-5 year old age range, followed by 18.2 percent in the 9-12 year old age range, and 17.0 percent in the 6-8 year old age range. The remaining children, 476 or 17.6 percent, fall within the under one or 13 and over age range. Many of these children are Caucasian (1,075 or 39.5 percent), Hispanic (1,063 or 39.1 percent), or African American (377 or 13.9 percent). The remaining 204 children or 7.5 percent are American Indian, Asian or other. Sixty-six and nine tenths of a percent, or 1,818 of the children free for adoption, are currently placed in their adoptive homes.
