Executive Summary

The Arizona Department of Child Safety (AZDCS) strategies, objectives, metrics, and initiatives have been developed and aligned to reach our vision through daily application of our shared values:

- **Safety** - *We are safety experts. We create physically and psychologically safe environments for children, families, caregivers, staff, and service providers. Our organizational culture provides safety to explore all ideas and topics, learn about other perspectives, and support one another.*
- **Compassion** - *We are Compassioners. Every day, we work with empathy and respect for all. We lead with kindness in understanding that families are influenced by their experiences. We treat every child, family and caregiver as if they were our own, and connect with people by seeking all points of view.*
- **Change** - *We are all born to grow. We are curious, open to change, and seek continuous improvement, driven toward our vision and mission.*
- **Accountability** - *We hold ourselves to the highest levels of professionalism. We embrace practice and process standards in order to provide the very best services consistently and efficiently, with transparency and privacy for children and families.*
- **Advocacy** - *When children can't speak for themselves, we can. As leaders in child well-being, we advocate to make the world a better place for children, while helping their families improve and heal. We champion actions that strengthen communities, families, and our staff.*
- **Family** - *Family reaches beyond the home. As the DCS family, we strengthen each other by connecting people with their communities so that all can thrive in a safe and supportive environment.*
- **Engagement** - *Engagement means listening and being responsive to earn the trust of all we encounter. Through engagement, we make discoveries together and build upon individual strengths. We involve families in decisions and help them find family-specific solutions.*
- **Teaming** - *The best decisions are made together. We use our collective knowledge and consider everyone's viewpoints to identify opportunities, solve problems, and provide the best possible outcomes, because child safety is a responsibility we all share.*
