**DEPARTMENT OF CHILD SAFETY
MONTHLY STAFFING REPORT
JULY 2014**

Pursuant to Laws 2014, Chapter 4, the Department of Child Safety developed a monthly report on the Department's progress in hiring child safety staff. Staffing numbers captured in this report reflect information as of the final day of the month. Due to delays in processing, final numbers may be different in subsequent reports.

In FY 2014 supplemental appropriations and in the FY 2015 budget, the Legislature and Governor approved the addition of 212 new caseworkers and 120 supporting positions (supervisors, case aides and support staff). These additional 212 caseworkers brought the total number of authorized Specialist positions to 1,406. At the end of January, the Department had 1,190 filled Specialist positions (caseworkers and intake staff) and 130 unfilled Specialist positions. As of July 31, the Department had filled 119 of those unfilled Specialist positions, bringing the total to 1,309 filled Specialist positions. With the additional positions added in FY 2015, there are currently 97 unfilled positions. Hiring details for the Specialist positions are shown in *Table 1*.

In July, the number of caseworkers in training increased by 17. The Department has 51 positions for which offers have been accepted and staff are scheduled to begin in August. The Department will continue its hiring efforts to keep up with attrition as well as to continue filling the additional positions authorized for FY 2015.

The Department is continuing to recruit and hire the 120 non-caseworker positions. All of the Assistant Program Managers and Unit Supervisors have been hired. Interviews have been completed for many of the support staff positions and 18 of the positions have been hired.
