

Parenting Time

Normal

Parenting time occurs in the **home** whenever possible.

Parents are invited to parent-child events like school meetings and medical appointments.

Safe

Safety is managed by controlling **who** is present, **where** parenting time occurs, **when** parenting time occurs, and **what** support is provided.

Only supervise when it is needed.

Instructive

Parent skill **coaching** can be provided.

When visit supervision is needed, responsible adults **support** parents to be successful.

Nurturing

Behavioral health **supports** may be needed to help children and parents regulate their emotions and behavior.

All parenting time providers **trained** to recognize needs and adjust their intervention approach.
