- Support Functions Scale

## Family Resources

- Family Resource Scale

## Parenting Attitudes & Behaviors

- Adult Adolescent Parenting Attitudes
- Parenting Attitudes About Raising Teens Inventory
- Nurturing Skills Competency Scales

## Parenting Stress

- Parenting Stress Index – Short Form

## Child Well-Being

- Information supplied by DCS and behavioral health

# NPP Parenting Constructs

## Appropriate Expectations

- Ages and stages
- Separate parent self-esteem from child's performance

## Empathy

- Ability to recognize, understand and honor the needs, feelings, individual viewpoints and preferences of others

## Non-Violent Discipline

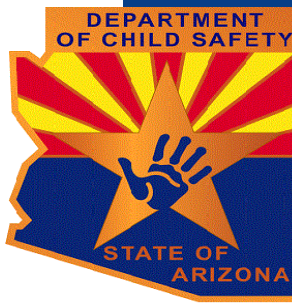

- Discipline not punishment

## Appropriate Family Roles

- Healthy gratification from children
- Adults take care of children and children pursue their own development

## Child's Power and Independence

- Obedience breeds powerlessness, inadequacy, rebelliousness, compliance to all, followers not leaders
