

# Safe and Effective Opioid Prescribing While Managing Acute and Chronic Pain

An online program offering 2 Free CME Credits to help Arizona DEA prescribers incorporate into practice the 2014 Arizona Opioid Prescribing Guidelines.

Click to get started!

[www.VLH.com/AZPrescribing](http://www.VLH.com/AZPrescribing)

## Learning Objectives

- 1 Manage acute and chronic back pain.
- 2 Assess the functional effects of pain in patients.
- 3 Appropriately utilize a range of therapeutic options when managing patients with chronic pain.
- 4 Comply with current opioid risk-management practices, including the use of pain contracts and urine drug testing.
- 5 Educate patients on the proper use, storage, and disposal of opioid medications.

Developed in Partnership with:

- Arizona Prescription Drug Misuse & Abuse Initiative
- Arizona Department of Health Services
- University of Arizona College of Public Health
- University of Arizona College of Medicine

There is increasing evidence that opioid medications are over-prescribed and poorly managed because prescribers are not aware of appropriate opioid risk management strategies and non-opioid approaches to treating chronic pain. This activity seeks to familiarize prescribers with current guidelines for opioid use and prescribing, as well as educate prescribers about non-opioid strategies for pain management.

## Learners will manage 3 virtual patients:

Francisco Cruz, a 32-year-old teacher with acute back pain.

He has been self medicating with acetaminophen and a hydrocodone-acetaminophen combination product.

Marc Foster, a 37-year-old disability recipient with long-standing osteoarthritis and chronic pain.

He is being followed by a rheumatologist and has been referred to you for opioid management.

Margo Freese, a 44-year-old customer services manager with low back pain.

She has had several inconclusive imaging studies and is on partial disability at work. She has tried a number of medications and is seeking something to improve her lower back pain.

*Supported by a grant through the Governor's Office for Children, Youth and Families.*
