Chapter 5

MEDICAL SERVICES

The Comprehensive Medical and Dental Program provides full coverage for medical and dental services necessary to achieve and maintain the optimal level of health for children in foster care. Covered services are based upon a determination of medical necessity and clinical appropriateness.

Covered Services
Covered services include, but are not limited to, the following medical services:

- Doctor office visits
- Well-child check-ups, Early Periodic Screening, Diagnosis and Treatment (EPSDT), adolescent screenings and treatment
- Behavioral health services (see Chapter 6)
- Hospital services
- Specialist care, as needed
- Family planning services
- Rehabilitative services such as physical, occupational, and speech therapies
- Home and community-based services
- Laboratory and X-ray services
- Pregnancy care
- 24-hour emergency medical care
- Dental care
- Emergency transportation
- Vision care and eyeglasses
- Medically-needed transportation
- Pharmacy services, medical supplies and equipment
Non-Covered Services
Non-covered services include, but are not limited to:

- Any hospital admission, service or item requiring prior authorization for which prior authorization has not been obtained.
- Pregnancy terminations that are not medically necessary.
- Pregnancy termination counseling.
- Services or items for cosmetic purposes.
- Services or items furnished free of charge, or for which charges are not usually made.
- Services provided in an institution for the treatment of tuberculosis.
- Services determined by the CMDP Medical Director to be experimental or provided primarily for the purpose of research.
- Services of private or special duty nurses other than when medically necessary and prior authorized.
- Physical, occupational or speech therapy as a maintenance regimen only.
- Routine circumcision for an eligible newborn male infant, unless medical necessity is documented.
- Care for Temporomandibular Joint (TMJ) related disorders, unless determined medically necessary.
- Medical services to an inmate of any public institution or state mental health facility.
- Outpatient or inpatient psychiatric, psychological or other counseling services provided to AHCCCS eligible foster children residing in Arizona. These services are provided through the Regional Behavioral Health Authorities (RBHAs).
- That portion of the cost of any covered service, which exceeds allowable charges in the CMDP fee schedule. Determination and payment shall represent PAYMENT IN FULL for the services rendered. Any additional charge to the foster caregiver is prohibited by law.
- The cost of care, services or items in excess of that paid by other programs.
- Services for which claims have not been re-submitted within twelve (12) months of the date of service.
- Care provided by individuals who are not properly licensed and/or certified.
- Treatment of the basic conditions of alcoholism and drug addiction. Alcohol and substance abuse treatment is an AHCCCS-covered service that AHCCCS-eligible members should receive from the RBHA.
### Prior Authorization Requirements and PA Matrix

Please refer to the CMDP website at [www.azdes.gov/cmdp](http://www.azdes.gov/cmdp) for the most up-to-date version of the *Prior Authorization (PA) Matrix*.

<table>
<thead>
<tr>

<td><strong>Behavioral Health</strong></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
| Inpatient                     | Requires PA to determine if patient is enrolled or eligible to receive services from Regional Behavioral Health Authority (RBHA). **CMDP requests notification within 24 hours of admission for case management purposes.**  
For Title XIX and Title XXI members, behavioral health services are provided through the RBHA. For state only members, CMDP provides behavioral health services. |                                                                                  |
| Outpatient                    | Requires PA to determine if patient is enrolled or eligible to receive services from RBHA. Psychological testing requires PA and documentation to support medical necessity of an acute or chronic brain disorder. |                                                                                  |
| Psychotropic Prescriptions    | Prescriptions from RBHA providers must be filled at RBHA contracted pharmacies using the member’s RBHA ID number.  
For non-Title XIX (state only) eligible members, refer to CMDP’s Preferred Medication List (PML) for current information about covered psychotropic medications and PA requirements. | PCP may write prescriptions for patients with minor depression, anxiety disorders and treatment of ADHD without co-morbidity. See the Behavioral Health Tool Kit on the CMDP website. |

<tbody>
<tr>
<td><strong>Dental</strong></td>
<td></td>
<td>The American Association of Pediatric Dentistry recommends dental visits begin by age one. Routine and preventive dental services do not require PA. CMDP allows two (2) oral examinations and two (2) oral prophylaxis and fluoride treatments per member per year [i.e., one every six (6) months]. Emergency services to relieve pain, suffering or infection, do not require PA. May be retrospectively reviewed.</td>
</tr>
<tr>
<td>Orthodontics</td>
<td>PA required for all services. A preorthodontic treatment visit must be completed before authorization can be given for X-rays, tracings and models. Submit documentation to support medical necessity.</td>
<td>Once approved, CMDP provides a one-time benefit for medically necessary orthodontics. Refer to the Dental Matrix for fees and services.</td>
</tr>
<tr>
<td>Orthognathic surgery</td>
<td>PA required to determine if patient is CRS enrolled or eligible.</td>
<td></td>
</tr>
<tr>
<td>Other Dental:</td>
<td>PA required. Must submit documentation to support medical necessity and include x-rays.</td>
<td></td>
</tr>
<tr>
<td>Orthodontic procedures, bridge and crown restoration, root canals</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Durable Medical Equipment (DME) and Supplies; Prosthetics and Orthotics</td>
<td>PA required for all rentals. Total cost of the rentals must not exceed the purchase price. Purchases valued at $300 or more require PA. Nutritional supplements/formulas require PA, and completion of the “Certificate of Medical Necessity for Commercial Oral Nutritional Supplements.”</td>
<td>Medically necessary items following hospital discharge for a period of 30 days or less and equipment ordered on an emergency basis for short term use do not require PA.</td>
</tr>
<tr>
<td>Emergency Room and Urgent Care Services</td>
<td></td>
<td>No PA required. CMDP requests notification within 24 hours of ER visit for case management purposes.</td>
</tr>
<tr>
<td>Family Planning</td>
<td>PA required for surgical interventions. IUDs are not usually considered medically appropriate for the sexually active teen because of the significant risks of morbidity and mortality.</td>
<td>This includes emergency contraception. STD and HIV/AIDS testing do not require a PA. See HIV Testing section below.</td>

<td>Transportation</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Emergency</td>
<td></td>
<td>CMDP requests notification within 10 days of service for case management purposes.</td>
</tr>
<tr>
<td>Medically Necessary - Non-Emergent</td>
<td>Contact the child’s custodial agency initially. If all other means of obtaining transportation are unsuccessful, the child’s custodial agency must contact CMDP. After contacting the child’s custodial agency, they must notify Member Services for arrangements and authorization. An adult must accompany the child.</td>
<td></td>
</tr>
<tr>
<td>Vision Services</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Eyeglasses</td>
<td>Sports glasses and tinted lenses require PA and documentation to support medical necessity.</td>
<td>Frames, lenses, and scratch coating do not require a PA, if the cost is within the AHCCCS fee schedule. Bifocals and repairs do not require a PA.</td>
</tr>
<tr>
<td>Contact Lenses</td>
<td>Requires PA and documentation to support medical necessity.</td>
<td></td>
</tr>
</tbody>
</table>
All routine medically necessary vaccines are covered under the Vaccines for Children (VFC) Program. If billing for a non-VFC vaccine, please submit documentation of medical necessity.

Providers must NOT use immunization administration CPT codes 90465, 90466, 90467, 90468, 90471, 90472, 90473 and 90474 when billing for vaccines under the federal VFC Program. See Chapter 9 for more information on VFC Program billing.

**Dental**

CMDP covers all AHCCCS covered dental services for members. This includes preventive and restorative care. An oral health screening should be part of an EPSDT screening done by a PCP. It does not take the place of an exam done by a dentist. Members do not need a referral from their PCP and can see any dentist listed in the Provider Directory. The American Academy of Pediatric Dentistry recommends dental visits begin by the age of one year old. All members by the age of three should see the dentist twice a year for routine exams, and more often if needed. Routine dental services are covered by CMDP. A dentist needs prior approval for major dental services.

The following is a list of covered dental services:

- Dental exams and X-rays
- Treatment for pain, infection, swelling and dental injuries
- Cleanings and fluoride treatments
- Dental sealants
- Fillings, extractions and medically necessary crowns
- Pulp therapy and root canals
- Dental education

Dentists are part of the CMDP Preferred Provider Network (PPN). Contact Provider Services to inquire about PPN dentists.

CMDP must receive complete and accurate records for reviewing services requiring prior authorization. This will assist the dental consultant, who is a state-licensed dentist, in making an appropriate determination. Refer to the CMDP Dental Matrix on the CMDP website for the list of eligible dental services and prior authorization requirements. Determination of prior authorization must be in writing and must be granted before the proposed procedure is begun. Denial of prior authorization and member non-eligibility on the date of service will result in denial of reimbursement.
Orthodontia
CMDP covers orthodontia if it is medically necessary. Orthodontic services require medical necessity for the purpose of controlling or eliminating infection, pain and disease, and restoring facial configuration or function necessary for speech, swallowing or chewing. The Dentist’s Certification of Medical Necessity (CMD-1006A), found at the end of this chapter, must be completed and signed to request orthodontic treatment.

A member must meet the medical and social criteria in order for CMDP to approve orthodontic services. Social criteria are detailed by a CPS specialist via the Consideration Factors for Orthodontic Services (CMD-1039A) form. Medical criteria are indicated by the PCP via the PCP Statement of Medical Necessity (CMD-1060A) form.

CMDP must receive complete and accurate records for reviewing services requiring prior authorization. This will assist the dental consultant, who is a state licensed dentist, in making an appropriate determination. Refer to the CMDP Dental Matrix for the list of eligible dental services and prior authorization requirements. Prior authorization is necessary for appropriate tracings, photographs, and orthodontia models, prior to submitting the request for orthodontia. Determination of prior authorization must be in writing and must be granted before the proposed procedure is begun. Denial of prior authorization and member non-eligibility on the date of service will result in denial of reimbursement.

Payment for orthodontia treatments may only be made for children who are continuing members of CMDP. The child’s foster placement is not financially responsible for the remaining cost of services. The dentist is responsible for verifying the child’s enrollment status at the time of treatment.

Orthodontists are part of the CMDP PPN. Contact Provider Services to inquire about PPN orthodontists.

Charges are reimbursed according to the AHCCCS Fee-for-Service Schedule.

Contact Medical Services for any forms or questions, at (602) 351-2245 or (800) 201-1795.

Emergency Services
CMDP covers emergency medical services provided by qualified medical professionals for all members, as specified in Arizona Administrative Code (A.A.C.) R9-22-210. Emergency medical services are those services provided after the sudden onset of an emergency medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that the absence of immediate medical attention could be expected to result in:

- Placing the member’s health in serious jeopardy,
- Serious impairment of bodily functions, or
- Serious dysfunction of any bodily organ or part.
For utilization review purposes, the test for appropriateness of the request for emergency services is whether a prudent layperson, if in a similar situation, would have requested such services.

Emergency medical services covered without prior authorization include, but are not limited to, all medical services necessary to rule out an emergency condition and emergency transportation. The attending emergency physician, or the provider actually treating the member, is responsible for determining when the member is sufficiently stabilized for transfer or discharge.

CMDP monitors emergency service utilization by both providers and members, and has established guidelines for addressing inappropriate use.

Per the Balanced Budget Act of 1997, and 42 CFR 438.114, CMDP may not deny payment for treatment obtained under either of the following circumstances:

- A member had an emergency medical condition, including cases in which the absence of medical attention would not have resulted in the outcomes identified in the definition of emergency medical condition (42 CFR 438.114).
- A representative of CMDP instructs the member to seek emergency medical services.

Additionally, CMDP may not:

- Limit what constitutes an emergency medical condition as defined in 42 CFR 438.114, on the basis of lists of diagnoses or symptoms.
- Refuse to cover emergency services based on the failure of the provider, hospital, or fiscal agent to notify CMDP of the member’s screening and treatment within 10 calendar days of presentation for emergency services. This notification stipulation is only related to the provision of emergency services.

A member who has an emergency medical condition may not be held liable for payment of emergency services, or subsequent screening and treatment needed to diagnose the specific condition or stabilize the patient.

**EPSDT**

Early Periodic Screening, Diagnosis and Treatment (EPSDT) is a comprehensive child health program of prevention and treatment, correction, and improvement (amelioration) of physical and mental health problems for AHCCCS members under the age of 21. The purpose of EPSDT is to ensure the availability and accessibility of health care resources, as well as to assist Medicaid recipients in effectively utilizing these resources. EPSDT services provide comprehensive health care through primary prevention, early intervention, diagnosis, medically necessary treatment, and follow-up care of physical and behavioral health problems for AHCCCS members less than 21 years of age. EPSDT services include
screening services, vision services, dental services, hearing services and all other medically necessary mandatory and optional services listed in federal law 42 USC 1396d(a) to correct or ameliorate defects and physical and mental illnesses and conditions identified in an EPSDT screening whether or not the services are covered under the AHCCCS state plan. Limitations and exclusions, other than the requirement for medical necessity and cost effectiveness do not apply to EPSDT services.

A well child visit is synonymous with an EPSDT visit and includes all screenings and services described in the AHCCCS EPSDT and dental periodicity schedules.

**Amount, Duration and Scope**
The Medicaid Act defines EPSDT services to include screening services, vision services, dental services, hearing services and “such other necessary health care, diagnostic services, treatment and other measures described in federal law subsection 42 USC 1396d(a) to correct or ameliorate defects and physical and mental illnesses and conditions discovered by the screening services, whether or not such services are covered under the (AHCCCS) state plan.” This means that EPSDT covered services include services that correct or ameliorate physical and mental defects, conditions, and illnesses discovered by the screening process when those services fall within one of the 28 optional and mandatory categories of “medical assistance” as defined in the Medicaid Act. Services covered under EPSDT include all 28 categories of services in the federal law even when they are not listed as covered services in the AHCCCS state plan, AHCCCS statutes, rules, or policies as long as the services are medically necessary and cost effective.

EPSDT includes, but is not limited to, coverage of: inpatient and outpatient hospital services, laboratory and x-ray services, physician services, nurse practitioner services, medications, dental services, therapy services, behavioral health services, medical supplies, prosthetic devices, eyeglasses, transportation, and family planning services. EPSDT also includes diagnostic, screening, preventive and rehabilitative services. However, EPSDT services do not include services that are solely for cosmetic purposes, or that are not cost effective when compared to other interventions.

**EPSDT Screening Requirements**
Comprehensive periodic screenings must be conducted according to the time frames identified in the periodicity schedule, and inter-periodic screenings must be completed as appropriate for each member. The periodicity schedule is based on federal mandates and is closely aligned to Arizona Medical Association (AMA) and American Academy of Pediatrics (AAP) guidelines. The following is a summary of what is included in EPSDT screens. Additional information may be obtained from CMDP Medical Services.

- A comprehensive health and developmental history (including physical, nutritional and behavioral health assessments).
- A comprehensive unclothed physical examination.
• Appropriate immunizations according to age and health history.
  NOTE: The immunization schedule can be viewed on the CMDP website at www.azdes.gov/cmdp.

• Laboratory tests (including blood lead screening assessment appropriate to age and risk, tuberculosis screening appropriate to age and risk, anemia testing and if appropriate, diagnostic testing for sickle cell trait). The Newborn Screen for all infants born in Arizona includes screening for abnormal hemoglobin. The Sickle Cell Anemia Society of Arizona has educational programs to help people with sickle cell anemia. The phone number is (602) 254-5048.

• Health education.

• Appropriate dental screening.

• Appropriate vision, hearing and speech testing.

• Developmental screening.

• Immunizations. Providers must coordinate with the Vaccines For Children (VFC) Program in the delivery of immunization services. The Arizona Department of Health Services (ADHS) manages the VFC Program. ADHS operates the Arizona State Immunization Information System (ASIIS), a registry designed to collect immunization data on individuals within the state. Call them at (877) 491-5741 to learn about the system and how to obtain the web-based program to connect your office to ASIIS.

EPSDT providers are asked to complete the screenings listed for each period and complete the EPSDT Tracking Form appropriate to the age of the child. Additional tracking forms may be obtained from your CMDP Provider Services representative or on the CMDP website. CMDP staff will review EPSDT tracking forms for completeness and quality, identify referrals made for evaluation and treatment and missed opportunities for immunizations. CMDP staff may contact provider offices to schedule a record audit of EPSDT services and offer provider education about the program.

Providers are requested to notify CMDP Member Services when CMDP members fail to make or keep EPSDT appointments.

Developmental Screening Using the PEDS Tool
Use of the Parent’s Evaluation of Developmental Status (PEDS) Tool for other health plans is limited to infants born after January 1, 2006 who have had stays in the Newborn Intensive Care Unit (NICU). For CMDP members only, the tool may be used to screen all infants and children up to the age of 8 who are at risk or identified as having developmental delays. These children may be screened at each EPSDT visit. Providers who bill for this service must complete training on the use of the tool and must submit the PEDS Tool Score Form and PEDS Tool Interpretation Form with the EPSDT Tracking Form and claim form for reimbursement of services.
PEDS Tool
Providers can utilize an on-line PEDS Tool training session provided by the Arizona Chapter of the American Academy of Pediatrics (AzAAP) at https://azpedialearning.org/test1.asp. Providers who complete the training may bill CMDP for use of the tool.

CMDP requirements for reimbursement of the developmental screen are as follows:

- Verified completion of the PEDS Tool training program;
- For CMDP members only, the tool may be used to screen children up to the age of 8 who are at risk or identified with developmental delays; and,
- Copies of the PEDS Tool Score and Interpretation forms are submitted in the same manner that the EPSDT tracking forms are submitted with the CMS 1500 claim form.

Use billing code 96110 with an EP modifier. Refer to the AHCCCS Fee-For-Service web page for reimbursement rates (azahcccs.gov/commercial/ProviderBilling/rates/Physicianrates/Physicianrates.aspx). For questions, please contact Provider Services at (602) 351-2245 or (800) 201-1795.

Arizona State Immunization Information System (ASIIS)
By state law, all providers are required to be connected to the Arizona State Immunization Information System (ASIIS), and to report to this system all immunizations administered. Provider staff should enter all immunization data timely and completely to comply with state laws and eliminate unnecessary revaccinations.

ASIIS allows providers to query immunization records on individual children or groups of children. In addition, it generates reminder notices for the provider to indicate when immunizations are due or past due for individual children. CMDP also has access to ASIIS to verify immunization records.

Contact ASIIS directly at (877) 491-5741 for information on the ASIIS software program or instructions on using the web-based system. ASIIS will provide hands-on training for providers.

Providers who are unable to determine a child’s immunization status may contact the EPSDT Coordinator at CMDP Medical Services. We will make every effort to verify the immunization history in question.
Maternal Health / Family Planning

Family Planning

Family planning services are covered services for CMDP members. Members aged 12 and older must be notified each year of available family planning services, verbally by their PCP or primary care obstetrician (PCO), and in writing by CMDP. Members may receive the following medical, surgical, pharmacological, and laboratory family planning services:

- Natural family planning education, counseling, and referral to qualified health professionals, including information on the prevention and spread of sexually transmitted diseases (STDs).

- STD testing, including HIV testing. This testing requires signed consent from the member’s custodial agency representative, if the child is twelve (12) years or younger. If the child is 13 years of age or older, he/she may consent to HIV testing.

- Contraceptive counseling, medication supplies, including, but not limited to: oral and injectable contraceptives, diaphragms, condoms, foams, and suppositories. Prescriptions for over-the-counter methods may be filled at CMDP pharmacies.

- Intrauterine devices (IUDs) are not usually considered a medically appropriate method of birth control for sexually active teens, because of the risk of morbidity and mortality in this population.

- Associated medical and laboratory examinations including ultrasound studies related to family planning, physical exam and pelvic exam.

- Treatment of complications resulting from contraceptive use, including emergency treatment.

- Postcoital emergency oral contraception within seventy-two (72) hours after unprotected sexual intercourse.

For questions about submitting a claim, please contact Provider Services. For questions about CMDP coverage of birth control, contact Medical Services and speak with the CMDP Maternal Health Coordinator. Both units can be reached at (602) 351-2245 or (800) 201-1795.

Pre-Teen Vaccine Campaign

As children get older, protection provided by some childhood vaccines begins to weaken. Children can also develop risks for more diseases as they get older. The CDC recommends that all 11 and 12-year-olds get the Tdap and meningitis vaccines. Girls and boys this age should also get the human papillomavirus (HPV) vaccine. All of these vaccines are covered through the VFC Program.
Human Papillomavirus (HPV)
HPV vaccine protects against the types of HPV that most commonly cause cervical cancer and genital warts. This vaccine is recommended for 11 and 12-year-old girls and boys. Ideally girls should get 3 doses of this vaccine before their first sexual contact when they could be exposed to HPV.

Meningococcal Disease
Meningococcal conjugate vaccine (MCV4) protects against these infections. Pre-teens should receive a single shot of this vaccine during their 11 or 12-year-old check-up.

Pertussis
Tetanus-diphtheria-acellular pertussis vaccine (Tdap) is an improvement to the old Td booster because it adds protection from whooping cough while still maintaining protection from tetanus and diphtheria. Pre-teens should receive a single shot of Tdap at their 11 or 12-year-old check-up.

In addition, please check the status of the following immunizations during the pre-teen EPSDT visit:
- Hepatitis B
- Measles, Mumps, and Rubella
- Polio
- Varicella

Prenatal Care
Due to the age of our members, pregnant CMDP adolescents are considered at risk. Pregnant members must be referred to a primary care obstetrician (PCO) as soon as the pregnancy is confirmed. Call CMDP Provider Services at (602) 351-2245 or (800) 201-1795 for assistance in locating a PCO. CMDP clinical staff will assist providers in coordinating care and services for the pregnant member. Notify the CMDP Maternal Health Coordinator (MHC) of the pregnancy to obtain prior authorization for prenatal care. PA requests for total obstetrical (OB) care must include a copy of the ACOG form. Please instruct pregnant members to call their custodial agency representative or CMDP Medical Services for any assistance.

Maternity care includes medically necessary services for the care of pregnancy, treatment of pregnancy-related conditions, antepartum services and postpartum care. Access to low cost/no cost family planning services is available after members leave CMDP.

Pregnancy Termination
Pregnancy termination (including the use of mifepristone) is a covered service for CMDP members if one of the following conditions exists:
- The pregnant member suffers from a physical disorder, physical injury, or physical illness, including a life endangering physical condition caused by or arising from
the pregnancy itself, that would, as certified by a physician, place the member in danger of death, unless the pregnancy is terminated.

• The pregnancy is a result of rape or incest.

• The pregnancy termination is medically necessary according to the medical judgment of a licensed physician who attests that continuation of the pregnancy could reasonably be expected to pose a serious physical or mental health problem for the pregnant member by:
  ◦ Creating a serious physical or mental health problem for the pregnant member;
  ◦ Seriously impairing a bodily function of the pregnant member;
  ◦ Causing dysfunction of a bodily organ or part of the pregnant member;
  ◦ Exacerbating a health problem of the pregnant member; or,
  ◦ Preventing the pregnant member from obtaining treatment for a health problem.

Prior authorization (PA) is required from the CMDP Medical Director before performing a pregnancy termination, including provision of mifepristone. To obtain PA, the attending physician must complete the AHCCCS Certificate of Medical Necessity for Pregnancy Termination Form (a web link to the form is available at the end of this chapter; the form may be photocopied) certifying that, in the physician’s professional judgment, one or more of the above criteria have been met. The completed and signed form must be faxed to CMDP Medical Services, with a copy of an informed consent form for the termination, signed by the CMDP member if 18 years or older.

If the member is under age 18, or is 18 years of age or older and considered an incapacitated adult, a dated signature of the member’s parent or legal guardian indicating approval of the pregnancy termination procedure is required. The following documentation must accompany the AHCCCS Certificate of Medical Necessity for Pregnancy Termination Form.

• When the pregnancy is the result of rape or incest, documentation that the incident was reported to the proper authorities, including the name of the agency, report number and the date the report was filed.

• Signature of the legal guardian approving the termination procedure and copy of the court order if someone other than the legal guardian has been given authorization to approve the termination procedure.

In medical emergencies, the provider must submit all documentation of medical necessity to CMDP within two (2) working days of the date on which the termination of pregnancy procedure was performed.
Hysterectomy
Hysterectomy or other means of sterilization is not covered unless medically necessary. Prior authorization is required. If the procedure can be substantiated as medically necessary, in addition to the supporting medical documentation, the following requirements must also be met:

- The member and legal guardian must sign a consent form, which includes information that the hysterectomy will render her incapable of bearing children. Providers may use the sample AHCCCS hysterectomy consent form in this chapter.
- The provider is not required to complete a consent to sterilization form prior to performing hysterectomy procedures and the thirty (30) day waiting period required for sterilization does not apply to hysterectomy procedures.
- Unless an emergency, a second opinion may be required.
- In an emergency, PA is not required, but the physician must certify in writing that an emergency or life-threatening illness or disease exists.

Contact Medical Services for assistance in obtaining the necessary prior authorization at (602) 351-2245 or (800) 201-1795.

Pharmacy
In order to maintain the quality and cost-effectiveness of the pharmacy benefit program, CMDP implemented a Preferred Drug List (PDL). This PDL (sometimes referred to as a formulary) is a list of medications preferred by CMDP. All the medications on the PDL have received U.S. Food and Drug Administration (FDA) approval as safe and effective. A committee of physicians and pharmacists has chosen all medications on this list.

Use the PDL to locate brand and generic medication alternatives that are covered under the CMDP plan. Some medications or classes require prior authorization and/or have a limited allowable quantity. These are shown on the PDL. Please complete the Prior Authorization for Medications (CMD-026-C) for all requests for non-formulary medications. Medications that are experimental and/or investigational in nature are not covered.

NOTE: For assistance with prior authorization, please refer to the PDL or contact Medical Services. The PDL can be accessed on the CMDP website at www.azdes.gov/cmdp

CMDP’s formulary encourages generic substitution whenever possible. If a brand name drug must be prescribed, documentation to support the specific drug must be submitted to CMDP Medical Services for prior authorization.

Over-the-counter (OTC) medications may be covered, when written on a prescription. Note that all prescriptions are required to be written on tamper-proof prescription pads. Examples of covered OTC products may include medications that are used for the treatment of scabies.
and lice, or antihistamines and decongestants used for the treatment of chronic allergies. These medications must be written on a prescription and signed by the physician. Examples of non-covered OTC items include vitamins (with the exception of prenatal vitamins for pregnant teens). If you have questions, contact CMDP Medical Services at (602) 351-2245 or (800) 201-1795.

Psychotropics for limited behavioral health diagnoses (see Chapter 6) may be prescribed by a PCP. Prescriptions written by a RBHA psychiatrist must be filled through RBHA contracted pharmacies, using the RBHA identification number. Medications to treat major depressive disorders must be obtained through the RBHA providers. RBHA enrolled members receive their medications through the RBHA. Contact the Medical Services Behavioral Health Coordinator for assistance.

Refills
Due to the transitory nature of CMDP members, physicians may be requested to write new prescriptions for drugs before the previous supply has expired. Physicians are requested to comply with these requests, yet be aware of attempts to fraudulently obtain drugs. Suspected attempts to obtain drugs fraudulently must be immediately reported to CMDP Provider Services at (602) 351-2245 or (800) 201-1795.

Therapies (Occupational Therapy, Physical Therapy, Speech Therapy, Audiology Services, Respiratory Therapy)
CMDP covers therapies that are medically necessary to improve or restore functions that have been impaired by illness, injury or disability. CMDP Medical Services authorizes therapy services in the amount, frequency, and duration as are determined medically necessary and clinically appropriate. Authorization determinations are based on the AHCCCS Medical Policy Manual. If the member is enrolled in CRS, CMDP coordinates therapy benefits with CRS. CMDP also pays for medically necessary therapies arranged through the Arizona Early Intervention Program (AzEIP).

A prior authorization is not required for a therapy evaluation. However, actual therapy services require PA.

For authorization to provide therapy, either the therapist or the PCP/specialist must document and submit in writing to CMDP the evaluation results and treatment plan, including goals, rehabilitation potential, location of services (home or office), length of time (from and through dates), and number of sessions requested. Continued authorization will require the PCP/specialist’s statement of medical necessity and submission of the therapist’s progress notes and/or updated evaluation with new treatment plan. The number of visits cannot exceed member’s eligibility span.
Transplants

Providers must obtain prior authorization from CMDP for all organ and tissue transplantation services. All transplant services are coordinated by CMDP with the AHCCCS Division of Health Care Management and the services of AHCCCS contracted transplant specialists, when available.

CMDP covers medically necessary transplantation services as outlined by AHCCCS, and related immunosuppressant medications. Covered transplants must be non-experimental and non-investigational for the specific organ/tissue and specific medical condition. Solid organ transplantation services must be provided in a Centers for Medicare and Medicaid Services (CMS) certified and United Network for Organ Sharing (UNOS) approved transplant center that is contracted with AHCCCS, unless otherwise approved by the AHCCCS Chief Medical Officer or designee. Bone marrow transplantation services should be provided in a facility which has achieved Foundation for the Accreditation of Cellular Therapy (FACT) accreditation as a bone marrow transplant center and that is contracted with AHCCCS, unless otherwise approved by the AHCCCS Chief Medical Officer or designee.

Questions regarding coverage and procedures for transplants should be immediately directed to CMDP Medical Services at (602) 351-2245 or (800) 201-1795.

Hospital Utilization

CMDP’s inpatient hospital services refer to those medically necessary services provided by, or under the direction of, a primary care physician, practitioner or a specialty physician on referral from a primary care physician, which are ordinarily furnished in a hospital.

Concurrent review is performed on admission and at frequent intervals during inpatient hospital stays. Reviews assess the appropriate usage of ancillary resources, levels of care (LOC) and service, according to professionally recognized standards of care using InterQual criteria. Concurrent review validates the medical necessity for continued stay and evaluates quality of care. Discharge planning begins upon admission.

Concurrent review is initiated within one (1) business day of notification and continues at intervals appropriate to patient condition, based on the review findings. During review, the following are considered:

- Necessity of admission and appropriateness of service setting;
- Quality of care;
- Length of stay;
- Discharge needs; and,
- Utilization pattern analysis.
CMDP Medical Services coordinates with the Medical Director in determining the appropriateness of continued services, in consultation with physician advisors as necessary.

Continued hospital services may be denied when:

- A member no longer meets intensity and severity criteria;
- A member is not making progress in a rehabilitative program; or
- A member can be transferred safely to a lower level of care.

Contact the Concurrent Review Nurse at CMDP Medical Services with any inpatient concerns.

**The hospital must notify CMDP Medical Services within twenty-four (24) hours of admission at (602) 351-2245 or (800) 201-1795.**

**Transportation**

**Emergency Transportation**

Emergency transport by ground or air ambulance to the nearest clinically appropriate hospital or emergency department is covered if medically necessary based on the member’s medical condition at time of transport, and if no other transport is appropriate and available. The ambulance provider must notify CMDP within ten (10) days of the transport or the claim may be denied. Use of emergency transportation for non-emergent reasons will not be paid.

**Non-emergency Medically Necessary Transportation**

Transportation to medical providers and pharmacies (for prescription drugs or medical supplies) is provided to CMDP members or foster placements who are unable to provide their own transportation.

Most CMDP members reside in licensed foster placements such as foster family homes, emergency shelters, and group homes. These licensed placements are expected, and in some cases required through contracts, to provide routine transportation and accompany the member to routine health care appointments. Licensed placements receive a monthly maintenance payment for routine transportation. The rate of the maintenance payment is adjusted when the needs of the member, including transportation, are greater than average. In some instances, a member’s case manager or a case aide may accompany and transport a child to medical appointments. Given these alternatives, assistance from CMDP in providing routine transportation is rarely needed.

To request non-emergency, medically necessary transportation, contact CMDP Member Services and be prepared to discuss the destination and reason for the transport. CMDP requires that a responsible adult accompany minors.
Transportation Standards
If a member needs non-emergency medically necessary transportation, CMDP requires its transportation provider to schedule the transportation so that the member arrives on time for the appointment, but no sooner than one hour before the appointment; does not have to wait more than one hour after making the call to be picked up; nor have to wait for more than one hour after conclusion of the appointment for transportation home.

Transportation to Behavioral Health Providers
Transportation to behavioral health providers is the responsibility of the RBHAs for enrolled members. CMDP is responsible for transporting the member to the first appointment to the RBHA, if necessary. If there is any question about responsibility for transportation to behavioral health providers, contact the CMDP Behavioral Health Coordinator.

Medically Necessary Transportation Outside the Member’s Service Area
For services that are only available outside the member’s service area (generally the county), transportation may be reimbursed by CMDP. Additionally, meals and lodging may be reimbursed for the member and one attendant during the travel time required to the medical provider and again upon return home. Services of an attendant (responsible adult) may be reimbursed. These services must receive prior authorization. Contact Medical Services with any questions.

Ambulance Transfer Between Medical Providers
Transfer by ambulance between medical providers (i.e., between treating hospitals or hospital to nursing facility) is covered with prior authorization from CMDP. The hospital requesting the transfer must contact the CMDP Concurrent Review Nurse to coordinate the transportation.

At a minimum, hospital to hospital or hospital to specialty only transportation should be reimbursed at the Basic Life Support rate. If the member’s medical condition meets criteria for medical necessity, this could also be reimbursed at Advance Life Support rate.

Vision
CMDP covers vision care including refractions, eyeglasses, and care of medical conditions of the eye. Appointments for refractions do not require prior authorization (PA). Eyeglasses meeting the conditions set forth in the CMDP PA Guidelines do not require PA. Repair and replacement of eyeglasses is covered.

Contact lenses are covered only when needed after cataract surgery, or when determined medically necessary. Prescriptions for contact lenses require PA and must state why these are medically necessary instead of glasses.

Initial referral to an ophthalmologist does not require PA. Ongoing treatment does require prior authorization.
Children’s Rehabilitative Services (CRS)

Children’s Rehabilitative Services (CRS) is a carve-out program administered through AHCCCS, that provides diagnostic, surgical, hospitalization, rehabilitation, pharmacological, and allied services. CRS contracts with Arizona regional physicians who are experts in their fields to treat CRS enrolled patients. The current contract is with Arizona Physicians Independent Physicians Association (APIPA).

Eligibility for CRS is based on specific medical illnesses, disabilities, congenital anomalies, or potentially disabling conditions that have the potential for functional improvement through medical, surgical or therapeutic intervention. Most CMDP members are financially eligible for CRS; however, they must become enrolled with CRS to have a condition treated there. CMDP members must receive services for medically eligible conditions through CRS, unless they have a private insurance payor and/or Medicare.

CRS is not an acute care provider. Each CRS patient must have a PCP through CMDP to provide general care and immunizations. Infectious diseases and acute trauma are not treated by CRS unless there is a direct relationship between these and the CRS-eligible condition. The CRS Administration determines coverage through CRS.

Anyone may refer a child for CRS services. Application for services is by completion of the CRS Pediatric History and Referral Form and documentation of the child’s primary diagnosis supporting the application. CMDP can complete the CRS application with the assistance of the child’s custodial agency representative. Whenever possible, pertinent X-rays and test results and other related medical records should accompany the referral form.

The Pediatric History and Referral Form may be photocopied and used to initiate an application for CRS. Clean copies may be requested from APIPA at 1-800-445-1638.

For more information about specific eligible conditions and covered services, please contact CMDP Medical Services. The unit will assist providers in identifying CMDP members who may be eligible for CRS. Once CRS determines the child medically eligible, the child is enrolled in CRS. CRS enrolled members must receive CRS covered services through CRS providers.
CHAPTER APPENDIX

AHCCCS Forms

Arizona Health Care Cost Containment System (AHCCCS) Periodicity Schedules
- EPSDT Periodicity Schedule
- Dental Periodicity Schedule
- Vision Periodicity Schedule
- Hearing and Speech Periodicity Schedule

Recommended Childhood and Adolescent Immunization Schedules
- Ages 0-6 years
- Ages 7-18 years
- Children and adolescents who start late or who are more than 1 month behind

AHCCCS Certificate of Medical Necessity for Commercial Oral Nutritional Supplements
AHCCCS Certificate of Necessity for Pregnancy Termination
