## Your Love Has Changed Everything

On behalf of the entire staff of the Arizona Department of Child Safety, we would like to say thank you for the difference you make in the lives of Arizona's most vulnerable children.

National Foster Care Awareness Month is the perfect time to honor you. Thank you for the selfless decision you made to be a foster parent and for the countless daily sacrifices you make to love and nurture the precious children in your care.

## Thank You For Partnering With Us

As foster parents, you are one of the Department of Child Safety's most valuable partners. It is our earnest desire to show our gratitude by improving support services to you. We hope you'll notice some the changes already, including the ability to click a button to read the website in Spanish, restructuring the website's foster care section for easier resource access, and the launch of e-mail communication to offer helpful information and updates on support services. There are other significant improvements in process, and we will let you know as they are implemented.

## Thank You From Director McKay

Director McKay held a press conference yesterday honoring you for the difference you make as a foster parent. Several of Arizona's foster families shared their journeys - we hope you will be encouraged and inspired - knowing you are part of an incredible team that changes children's futures forever.
